

Chapter 1293 Liam's Breakthrough

In Rosefinch Palace, Caden was in shock.

He had just seen Liam skillfully defeat two enemies from the Insect Clan using his incredible skills.

Liam's Malicious Aura Domain spread far and wide, which made Caden more surprised.

Caden also noticed a change in Liam that prompted him to mutter, "A fragment of the Heart of Life!"

The Human Clan boasted a rich history, and Caden, a prominent leader in the Human Clan, had a vast understanding of it.

He knew that the Heart of Life had broken into pieces thousands of years ago.

Since then, no one had managed to find all the pieces of the Heart of Life and put it back together.

Caden was well-versed in the lore of the Heart of Life; when whole, it could greatly empower its bearer.

A complete Heart of Life was dreamed of even by the powerful Primogem Saints.

Liam, wielding just a shard of the Heart of Life, was already tapping into many of its abilities. The potential power of the entire Heart of Life was staggering!

With each moment, Caden's admiration for Liam deepened.

However, he also felt a growing concern at the same time.

Caden understood that although Liam's strength could let him defeat powerful enemies, it didn't make him invincible against Primogem Experts.

Indeed, if Liam faced an adversary above the fifth stage of Primogem Experts, he would be in danger.

Thinking of this, Caden frowned, and he called upon a Primogem King-level subordinate to safeguard Liam.

Before the subordinate left to protect Liam, Caden said, "You should only help Liam when absolutely necessary. Otherwise, Liam will never find his limits."

The subordinate obeyed the order and departed.

Meanwhile, on the battlefield of the No. 108 planetary system.

After activating his Malicious Aura Domain, Liam chose not to launch an immediate attack on the Insect Clan adversaries.

He knew that his combat abilities were enough to defeat opponents up to the fourth stage of Primogem Expert.

Of course, if survival were the only concern, this range could be stretched a bit further.

For enemies below the seventh stage of Primogem Expert, defeating him would prove exceedingly difficult.

Therefore, Liam always kept his hunting territory measured.

He aimed to gradually increase his strength, moving forward with a systematic approach.

Under Liam's precise management, numerous enemies

from the Insect Clan died because of his Malicious Aura Domain.

This display greatly impressed the other members of the Human Clan present.

Liam's strategy was both masterful and powerful!

It briefly made those Primogem Experts stronger than Liam feel a bit inferior.

Some even began to wonder about Liam's true identity.

Indeed, having such formidable battle prowess at the Primogem Warrior level was exceedingly rare even in the Central Divine Domain!

Liam continued to carefully choose his opponents, unaware of the amazed looks from his peers.

With the Life-draining Origin Technique, he steadily sapped the life force and primogem energy from the Insect Clan adversaries.

Suddenly, Liam's face tensed up.

A sharp sound came from within him.

Then, he felt an explosive increase in his internal primogem energy.

He was on the verge of advancing to Primogem Expert!

Liam was surprised and thrilled, as the chance for advancement had arrived so quickly.

Several nearby Human Clan Primogem Experts noticed that Liam was nearing a breakthrough.

They quickly gathered around Liam and said, "Take this

Chapter 1293 Liam's Breakthrough 🎁 +120 Points at most opportunity to boost your power! We will protect you!"

On the battlefield, the people from the Human Clan considered each other family.

And Liam had shown such exceptional strength, which had earned him a lot of respect.

So, everyone shared the same goal: to assist Liam in gaining enough time for a successful breakthrough.

Some even felt a surge of happiness and muttered, "God bless our Human Clan!"
