

## Chapter 471

A concerned frown appeared on Jeffrey's forehead. He turned to his father, Jordan, and huffed, "Dad, why don't we just sell off our property and run away with the money? If Kenneth really wants to attack us, we'll be dead!"

Jordan roared, "Bastard! Sell off our property?! If we sell it in a hurry, my billion-dollar empire may cost only 200 million! Do you know that, you idiot! This is my hard work!"

Liam nodded. "Dad is right. Jeff, Weaver Pharmaceutical is dad's precious creation, how could we sell it just like that?"

Jeffrey raised his hand and slapped Liam. "Shut up, bastard! Do you think you have any say here?"

Liam stumbled a few steps back because of the force of the slap, covering his face. He pouted in dismay, but he spruced up and said firmly, "Jeff, I'll still say it even if you slap me. The company is dad's hard work, we cannot sell it!"

"I'm gonna fucking kill you!" Jeffrey's face turned into an ugly shade of red. He was about to jump on Liam when Jordan, who had always looked down upon Liam, stepped up and stopped him. "Your brother is right! We must find a way to solve this! You can't just sell everything and take off! It's my legacy that I worked for my whole life!"

Then, Jordan breathed a deep breath and said, "Listen carefully to what I'm about to say. Between you two, whoever can solve this crisis will be elected as the chairman of the Weaver Pharmaceutical. The person who fails in this mission proves that he is unable to lead and manage my company!"

Jeffrey burst out frantically, "Dad! How can this illegitimate bastard inherit your company!"

Jordan growled, "Bastard or not, he is still my son! If you, as the eldest son, are not capable, you'll be abdicated!"

Liam, who was quietly listening to their commotion, heaved a sigh of relief.

He had been under duress in the Weaver family for so many years. After all the humiliation and insults, it was finally his time to rise!

Frankly speaking though, Jordan would not hand over his family business to an illegitimate child. Unfortunately, his eldest son, Jeffrey, was incompetent. He had to find a way to stimulate his enthusiasm and force him to find a solution to the current crisis.

\*\*\*

While the entire Weaver family was anxiously searching for a cure for Kenneth all over the world, Charlie entered his room after taking a shower.

Claire was lying on the bed in her nightgown, kicking her fair and smooth legs casually while browsing her Twitter.

On the usual days, she was very busy with her work and was mounted by enormous pressure. Thus, watching nonsensical things on her phone and reading novels in bed had become her greatest leisure.

Charlie was just lying down on his makeshift bed on the floor when Claire suddenly screamed and threw her phone away which landed on Charlie's face.

Ignoring the pain, Charlie asked nervously, "Dear, what's wrong?"

Claire's face twisted into a grimace. "Yikes, I just saw a video on Twitter, it's very disgusting..."

Charlie asked curiously, "What is it? Let me see how disgusting it is." He went to grab her phone that had fallen on the floor.

Claire shrieked again, "Argh, don't look! It's disgusting..."

"How disgusting could it be? You've made me very curious."

Then, he turned on the screen and glanced at it, and he was stunned by what he saw.

It was Kian Webb, the creep who loved to psychologically manipulate girls...

Looking at his hysterical reaction in the video, it was confirmed that Charlie's hypnosis had worked!

## **Chapter 472**

It was truly a pleasure to see him go crazy.

He was basically finished for the rest of his life since he had to eat shit every hour. Now, he wouldn't have the time to ruin another girl's life ever again.

Charlie locked the screen and said to Claire with a smile, "I've heard of this guy."

"Really?" Claire asked in surprise. "How? From where did you hear of him?"

"He is a very bad and nasty guy who loves to psychologically manipulate girls and force them to inflict self-harm and commit suicide for his own pleasure."

Charlie began recounting Kian's criminal history to Claire.

Claire huffed furiously after listening to Charlie. "Oh my goodness, what a bastard! Why would he do that to other people's daughters?"

Charlie said sincerely, "Well, frankly, there are always scumbags like him who like to hurt others for pleasure. They are the useless dregs of society. Sooner or later, karma will bite them back."

Claire nodded with a satisfied smile. "It looks like his karma has bitten him already!"

Claire was a little traumatized by the horrifying video and decided not to check her phone anymore, saying as she stretched her body, "Ah, I'm so sleepy. Charlie, please charge my phone. Thanks. I'll go to sleep first."

"Okay." Charlie nodded and charged her phone.

In the middle of the night, just as Charlie was about to fall asleep, he felt the vibration of his phone from under his pillow. He turned on the phone and saw that it was a notification of an incoming message from Albert.

"Master Wade, there are a few Japanese waiting in ambush at the Serene World Clinic, I think they want to attack Dr. Simmons!"

Charlie replied, "I think they are aiming for his medicine."

"Damn it!" Albert burst out in rage. "Those scumbags are trying to get their hands on the magical elixir! Master Wade, one command from you and I'll take my boys to catch them, drag them back to my kennel, chop them up, and feed them to the Tibetan Mastiff!"

"Don't," Charlie said as he grinned. "They have powerful backing. They are Ichiro Kobayashi's men, the eldest son of Kobayashi Pharma. I'm going to dig a big trap for him, you just let your boys secretly protect Dr. Simmons. Let them take all the medicine they want, I specially prepared it for them anyway."

To set a trap for Ichiro Kobayashi, Charlie had refined a few Terminal Lucidity Pills and given them to Anthony.

The amazing thing about this pill was it could make a person alive and well for an hour or two no matter how terminally ill the person was, even if he or she was on the verge of death.

However, it came with a terrible consequence too. After those hours of being alive, they would die immediately beyond rescue.

In truth, the pill was not poisonous. It was more like a euthanasia remedy for a person to express his or her dying will before taking the last breath.

The effect of the pill was to overdraw all the person's vitality for those two hours of lucidity. By doing so, the person could make the final arrangements for the property, funeral affairs, and whatnot.

In ancient times, the pill was specially formulated for emperors and generals which would be ready by their bed as they were dying. When they took the pill, it would give them precious time to make crucial orders for the sake of their nation and family.

Eventually, the pill had become useless in modern times. Also, the pill was quite hazardous as the same effect would take place even if a healthy person were to consume it. He or she would still die two hours after taking the pill.

Thus, in modern times, it was more or less like a poison.

Charlie had seen the pill in the apocalyptic book and had not taken it seriously since he had deemed it useless.

However, this time, the pill had finally come in handy. It could be a powerful trap for Ichiro Kobayashi!

## **Chapter 473**

After giving instructions to Albert, Charlie called Isaac once again.

As soon as the call was connected, Charlie told him immediately, "After Ichiro succeeds tonight, he'll definitely try to escape from the country in the shortest time possible tonight. Therefore, you should set up a trap for him in Aurous Hill. Anyone in his group should be allowed to escape except for him!"

Isaac replied immediately, "Don't worry, Mr. Wade. I've already made all the necessary arrangements. I'll definitely intercept Ichiro before he manages to escape!"

After that, Isaac also promised, "I'll make sure that the medicine that Ichiro stole from Anthony will never be taken out of the country!"

"No!" Charlie said hurriedly. "I want them to take the medicine back to Japan. Remember that the medicine should leave the country but Ichiro must not be allowed to leave the country!"

Isaac hurriedly replied, "Mr. Wade, I understand! Don't worry, I won't let Ichiro escape so easily!"

"Okay!" Charlie smiled slightly before he said, "After capturing Ichiro, please find me a concealed and secluded location for me to meet up with him and take care of him in person!"

"Okay, Mr. Wade!"

\*\*\*

Ichiro did not know that there was already a trap carefully laid out for him at this time.

He was simply sitting in his Maybach parked opposite Serene World Clinic and several of his men were already hiding around the building, ready to pounce at any time.

His father, Masao Kobayashi, had already been bedridden and paralyzed for the past three years. Moreover, his father had even given some instructions to him and his brother, Jiro Kobayashi, ever since he became paraplegic. According to his father, whoever made the greatest contributions to Kobayashi Pharma would be able to inherit his position as chairman of the company.

His younger brother, Jiro, was an expert in pharmaceuticals who had already been majoring and studying medicine for many years. In the past few years, Jiro had created and concocted many new types of medicine for his family and the sales for his medicine were all going very well. Therefore, his father really looked very highly upon him.

In contrast, Ichiro was a little upset because he was not a pharmaceutical student but instead, he had majored in finance. This kind of person was technically more suited for dealing in business and real estates but he was really not cut out for the pharmaceutical industry.

Only people who really understood medicine could come up with good medication and truly understand the medical market.

If he came up with a magical pill, then he could definitely make a lot of money just by relying on word of mouth from consumers.

However, if the medicine had little to no effect at all, it would be useless no matter how many advertisements the company came up with. After trying it out the first time, the consumers would never try it a second time.

Therefore, Ichiro's younger brother, Jiro, stood a much greater chance of succession in the family business even though he was the eldest son.

As a last resort, Ichiro decided to make a trip to Aurous Hill to participate in the Chinese Medicine Expo. He wanted to see if he could discover any excellent prescriptions that he could bring back to Japan for his family to use. If he could make a remarkable achievement, then he would at least stand a chance to succeed his father.

When he heard that the genius doctor, Dr. Simmons, who had cured a patient with severe paraplegia not too long ago, also happened to be at the Chinese Medicine Expo, he was really extremely excited.

If he could get his hands on the prescription, not only would he be able to cure his father completely then but he would definitely be able to create a huge business opportunity for his family! It would even be possible for him to grow and develop Kobayashi Pharma by several folds!

## **Chapter 474**

Therefore, Ichiro was pinning his future on that night's events.

As he thought about this, Ichiro, who was extremely excited, quickly made a phone call to his father.

His father, who was still paralyzed in bed, connected the call as soon as he received it. "Ichiro, where have you been the past few days? Why haven't you come to see me at all?"

Ichiro hurriedly replied, "Dad! I am seeking medicine for you in Aurous Hill. I heard that there's a genius doctor here who cured a patient with severe paraplegia not too long ago!"

"Is that true?" Masao asked in surprise. "Is there really such a magical doctor in Aurous Hill who would be able to cure severe paraplegia?"

"Yes!" Ichiro replied. "I've already checked the hospital records and confirmed that the patient has been cured of his severe paraplegia! I also asked around and everyone confirmed that the genius doctor was in fact the one who cured the patient with just half a magical pill!"

"Half a magical pill?" Masao was very excited at this time.

For the past three years, he had been in extreme pain and he had been suffering a lot because he had been paralyzed in bed.

He had been a famous entrepreneur and he had endless wealth but he was suddenly paralyzed in bed. Just like that, he lost the opportunity to enjoy himself and live his life and that made him feel really miserable.

In the past few days, he had been searching for various different ways to cure himself but in this world, there was absolutely no medicine to cure severe paraplegia and it was completely impossible to restore a paralyzed patient to his original condition. Even through intense physical therapy, it would be very difficult for the patient to stand up, let alone walk and live his life like an ordinary person.

However, when Masao heard his son saying that the genius doctor in Aurous Hill had a form of superb medical treatment to cure severe paraplegia, he became very expectant and he was yearning for the cure!

Masao exclaimed excitedly, "Ichiro, you have to buy this magical medicine back for me even if it's going to cost you one hundred million dollars!"

Ichiro hurriedly explained, "Dad, I don't know what's wrong with the genius doctor but he's simply unwilling to sell me the medicine. However, there's nothing you need to worry about because I'm already prepared to steal the medicine from him and send it to Japan tonight just so you can take the medicine as soon as possible!"

After that, Ichiro continued speaking, "By the way, Dad, I heard that the genius doctor has more than just one of these magical pills. After eating one of the pills, we can get our team of researchers and analysts to study the ingredients in the magical pill and figure out its composition. After that, Kobayashi Pharma will be able to develop this medicine and we'll definitely become the world's top pharmaceutical company then! We'll bring back and gain plenty of glory for Japan!"

"Good! Excellent work!" Masao replied excitedly. "You really deserve to be called my filial son! Make sure that you get this beautifully done for me as soon as possible!"

Ichiro replied, "Don't worry, Dad. My private plane is already waiting for me at Aurous Airport. After taking the medicine, I'll leave a few people behind before I fly back to Japan immediately. As long as I get into my private plane successfully, I will be able to fly back to Tokyo without any interference from anyone in Aurous Hill."

Masao said excitedly, "In that case, you will be able to arrive in Tokyo just three hours after the plane takes off! I can take this magical pill in less than four hours! I'll finally have an opportunity to stand up again!"

Ichiro burst into tears as he said, "Dad! This is the blessing of Amaterasu. You'll definitely enjoy endless glory, wealth, and a life free from illnesses!"

"Okay!" Masao replied excitedly before he reminded Ichiro, "Ichiro, you should be very careful and make sure you don't miss your flight. I will be waiting for your good news in Tokyo!"

Ichiro quickly said, "Dad, you can rest assured. I'll definitely make it home with the magical pill so you'll be able to stand on your own two feet again!"

## Chapter 475

Ichiro felt that he was going crazy after hanging up the phone because he was simply too excited!

If he could get his hands on the magical pill, then he would definitely end up becoming the successor of Kobayashi Pharma.

Coming to Aurous Hill was indeed a good bargain this time!

At this time, Ichiro's assistant, who was seated next to him in the Maybach, said, "Mr. Kobayashi, it is already eleven o'clock. Should we do it now?"

Ichiro nodded before he sneered and said, "Do it!"

The assistant quickly took out his walkie-talkie and ordered, "Do it now!"

As soon as the voice fell, six men quickly sneaked into Anthony's Serene World Clinic.

Tonight, Anthony was sleeping over in the small bedroom in Serene World Clinic.

In fact, Anthony had been patiently waiting for the Japanese to come for him at this time.

However, to be safe, he arranged for his granddaughter, Xyla, to stay at the hotel tonight.

After entering Serene World Clinic, the six men immediately came into Anthony's bedroom and they saw Anthony lying on bed at this time. One of the men immediately covered his mouth before he pointed a pistol at his temple and said, "Do not scream! If you cooperate with us obediently, we will spare your life."

Anthony pretended to panic and he quickly asked, "You...what are you trying to do?"

"Hand over the magical pills to us!" the man in black replied coldly. "Otherwise, I will shoot you!"

Anthony trembled in fright before he blurted out, "Don't shoot! Don't shoot! I'll give it to you!"

After that, Anthony reached his hands into the small pocket inside his pajamas before he took out a very small wooden box.

The wooden box carried Anthony's body temperature with him and since it was kept on his body at all times, this proved how precious the pills were to him.

The other party quickly opened the wooden box as soon as he took it in his hand and he saw four pills sitting quietly inside the box. He was so excited and he immediately reported his findings to Ichiro through his walkie-talkie, "Mr. Kobayashi, we've found four of the magical pills!"

"Four? That's fantastic!" Ichiro replied excitedly. "Hurry up and pass the magical pills over to me!"

The man asked once again, "What about this old man?"

Ichiro replied, "Just knock him out. We only need a one-hour head start and we'll definitely succeed in our plan!"

"Okay!" After that, the other party immediately knocked Anthony unconscious with his pistol and Anthony passed out immediately.

At this time, many of Albert's most professional men were actually watching the entire scene in secret. If the other party really intended to harm Anthony's life, then they would have followed Charlie's instructions and acted on it immediately.

However, since the other party did not mean to hurt the old man at all, then Anthony would have to suffer a little.

Anthony fell unconscious after getting hit with the butt of the pistol but fortunately, there was no danger to his life.

After the men succeeded, they quickly withdrew from Serene World Clinic. One of the men hurried over to the Maybach that was parked on the opposite side of the road. As soon as the car window was rolled down, he hurriedly handed the small wooden box over to Ichiro and said, "Mr. Kobayashi, here's the medicine!"

Ichiro could not wait to open the wooden box and as soon as he glanced at it, he was shaking with excitement when he smelled the strong fragrance of the medicinal herbs!

"Great!" Ichiro replied before he said, "Head straight to Aurous Airport. We're leaving for Tokyo immediately."

After that, he told the driver, "Drive now! Head to the airport as fast as you can!"

Then, Ichiro turned around and told his assistant, "Notify the crew to prepare for takeoff immediately. I want the plane to take off without any delays as soon as I arrive at the airport. If anyone finds out about this matter and tries to stop our plane from taking off, then everything will be over!"

## **Chapter 476**

His assistant smiled before he said, "Don't worry too much, Mr. Kobayashi. I don't think anyone in Aurous Hill will be able to respond so quickly. We'll take half an hour at most to reach the airport. After that, getting through the security check will be very quick for you since you'll be using the VIP passage. We should be able to take off within an hour. At that time, not even God will be able to stop us!"

Ichiro's Maybach immediately drove away from Serene World Clinic and they headed on the expressway all the way to the airport immediately. They were planning to arrive at the airport as quickly as possible before they boarded the plane to return to Tokyo.

Ichiro's excitement increased rapidly along the way. He repeatedly looked at the four magical pills before he muttered to himself, "The Kobayashi family will be able to rely on this magical pill

to stand up strong and powerful all over the world! At that time, I'll definitely become the chairman of Kobayashi Pharma."

The Maybach whizzed all the way and arrived at Aurous Airport very quickly.

As soon as the car stopped at the entrance of the airport, Ichiro was about to get out of the car to rush into the airport at the fastest speed.

However, as soon as he got out of the car, eight off-road Mercedes-Benzes drove over before they surrounded his Maybach.

Very soon, thirty bodyguards dressed in black stepped out of the eight cars. These people were all masters who had been carefully trained by Isaac and each of them had extraordinary strength and physique.

Isaac stepped out from one of the off-road Mercedes-Benzes before he looked coldly at Ichiro and said, "Mr. Kobayashi, our young lord would like to invite you to come over for a chat!"

"Your young lord?" Ichiro asked nervously as he hid the magical pills in his pocket. "Who's your young lord? Do you know who I am? I am the vice chairman of Kobayashi Pharma!"

Isaac stretched out his hand and patted Ichiro on his face before he replied indifferently, "Kobayashi Pharma is a Japanese company and we're in Aurous Hill. Why are you pretending to be that great or powerful? Japan and Aurous Hill are so far apart and separated by the seas. So, why are you trying to tell me who you are now?"

Ichiro suddenly became very nervous.

He did not know the reason why these people were trying to stop him. Was it because of the magical pills or was it because of something else?

If it was really because of the magical pills, then he would really be in a very dangerous situation right now. After all, the other group of people looked very strong and capable. If they refused to let him go, he would definitely not be able to escape.

However, if they were looking for him for some other reasons, then did that mean that he could still send the medicine back to Japan first?

As he thought about this, Ichiro pretended to be calm as he asked, "Who's your young lord?"

Isaac replied lightly, "Mr. Kobayashi, Kobayashi Pharma has already plagiarized so many ancient Chinese prescriptions so I guess your family probably has a good understanding of the situation in our country. Have you ever heard of the Wade family from Eastcliff?"

"The Wade family?" Ichiro was utterly shocked at this time!

How could he possibly not hear of the Wade family from Eastcliff?

After all, it was the most powerful family in this country and their family strength also ranked top in the world! Even the major conglomerates in Japan could not even be compared to the Wade family, not to mention a family who was just running a small pharmaceutical company like himself.

Ichiro panicked all of a sudden and he blurted out, “May I know why your young lord is looking for me?”

Isaac replied lightly, “If there’s anything you need to find out, you’ll know after you come with me.”

Ichiro asked nervously, “And if I refuse to come with you?”

Isaac smiled faintly before he took out a pistol from his pocket and said, “Since our young lord has instructed me to bring you to him, if I can’t bring you there alive, then the least I could do is to bring your dead body to him!”

Ichiro was very worried but he was even more concerned whether he could send the magical pills to Tokyo first.

This was the key to laying his foundation in his family!

As he thought about this, he asked tentatively, “May I go with you on my own so that my assistant can head back to Japan now? There are a lot of important things that he has to deal with.”

Isaac laughed before he said generously, “Of course, everyone is allowed to leave except for you.”

Ichiro heaved a huge sigh of relief and he quietly handed the small wooden box over to his assistant. After that, he patted his shoulder gently before he said, “You should take the plane back to Tokyo first. Tell my father that I’m fine and that I’ll go back and see him soon!”

## **Chapter 477**

Ichiro handed the stolen magical pills over to his assistant and he was finally relieved after watching his assistant enter the airport without any problem. After that, Ichiro asked Isaac, “Where is your young lord?”

Isaac replied lightly, “You’ll know once you come with me.”

After he was done speaking, he signaled at the people around him before they dragged Ichiro over to the nearest off-road Mercedes-Benz immediately.

The convoy quickly left the airport as they headed towards the dog farm opened by Albert in the suburbs.

On the way to the dog farm, Isaac called Charlie before he said, “Mr. Wade, Ichiro is in my hands now. I’m bringing him over to Don Albert’s dog farm now. If you want to come over, I will send someone over to pick you up immediately!”

Charlie glanced at Claire, who was fast asleep at this time, before he replied, “Alright then. Arrange for a car to pick me up from outside my house in five minutes.”

After making the pearl and clam bracelet for Claire that was worth hundreds of millions of dollars, Claire was finally able to sleep very well after wearing it. Therefore, she would never wake up in the middle of the night no matter what happened. Charlie was not worried that Claire would find out that he had snuck out in the middle of the night.

About five minutes later, Charlie walked out of the house. There was already a Rolls-Royce parked outside at this time. Even though Charlie had never met the driver before, the driver recognized him immediately and he quickly opened the door for Charlie as he said respectfully, "Mr. Wade, please."

Charlie nodded and got into the car before they headed out of the city.

When Charlie finally arrived at Albert's dog farm, Isaac was already there.

This was Charlie's first visit to Albert's dog farm even though he had already heard of this place for a long time.

The location of the dog farm was very secluded and large in scale. As soon as he stepped out of the call, Charlie could hear countless dogs barking and growling. Moreover, the voices of these dogs were very low and heavy and it seemed as though they were all large dogs.

It was rumored that the reason why Albert owned this dog farm was mainly to raise, breed, and train some fighting dogs for the underground dog fighting event. Some people in the underworld were obsessed with dog fighting and they would often organize competitions and bet tens of millions of dollars on the dogs that they liked.

In addition to raising dogs, Albert also regarded this as a torture ground. If there were anyone that he needed gone from this world, he would simply send them here to become rations for the vicious fighting dogs.

There was a three-story building in the yard of the dog farm and this building was usually used by the staff as their office and resting ground. There was also a warehouse for storing dog food in the building and a secret room that Albert usually used for lynching.

At this time, Ichiro was hung on a frame in the dark with his hands completely tied up.

The underworld of Aurous Hill was not much different compared to the underworld in Hong Kong or Taiwan. It had extremely strict rules and regulations and these rules were still the same as those used by mobsters and gang members from over a hundred years ago. Once the interests of the gang was violated, the first thing that the culprit would face was lynching.

At this time, the six men dressed in black who Ichiro had sent to rob Anthony of the magical pills were also detained here.

When Ichiro saw the six men, he was really frightened.

He realized that this matter might actually have something to do with the magical pills. He could not help but wonder what these people were going to do to him now that he had already sent the magical pills back to Japan.

At this time, Charlie stepped into the building.

Isaac greeted him respectfully with a bow, saying, "Mr. Wade, Ichiro and his six men are all here."

Charlie nodded slightly before he looked at Ichiro. After that, he smiled as he said, “Mr. Kobayashi, it seems as though we finally meet again.”

“Ah...you...you are...” Ichiro suddenly remembered Charlie!

When Ichiro was asking Anthony for the prescription for the magical pill at the Chinese Medicine Expo, Charlie was right there. In fact, Ichiro initially thought that he was simply Anthony’s subordinate or assistant at that time. Unexpectedly, he actually turned out to be the young lord of the Wade family!

Charlie looked at Ichiro, who was hoisted up in the air, before he said in a cold manner, “Mr. Kobayashi, you’re really very courageous! Who gave you the audacity to send men to rob an old man of his magical pills? Are you sick and tired of living?”

Ichiro panicked when he heard this and he blurted out immediately, “Mr. Wade, this is all just a big misunderstanding!”

“Misunderstanding?” Charlie asked as he pointed at the six men dressed in black who were tied up on the ground next to him. “Don’t these six men belong to you?”

Ichiro hurriedly shook his head. “No! I don’t know them at all!”

## **Chapter 478**

Charlie nodded before he looked at the six men and asked them, “Do you know this man, then?”

The six men had a blank expression on their faces. They looked as if they could not speak their language at all.

Isaac stepped forward at this time before he spoke to them in Japanese. At this time, the six men also shook their heads as they said a lot of words.

Very soon, Isaac told Charlie, “Mr. Wade, they said that they do not know this man at all.”

“Oh.” Charlie nodded before he said lightly, “Since they don’t know each other, then just pick one of them before chopping them up alive. After that, you can feed him to the dogs before asking the remaining five people again.”

“Okay!” Isaac immediately explained Charlie’s words to the six men in Japanese and the six men were all shocked and dumbfounded at this time.

They could not believe it. Charlie had simply asked them one single sentence and he was actually going to chop them up and feed them to the dogs?

Did he really have that much guts?

At this time, Charlie told Albert, “Albert, since you’re more familiar with this place, take these six men out and weigh them one by one. After that, I want you to choose the heaviest one to chop

up and feed to the dogs! Let the five of them observe everything before you bring them back here for further questioning!”

Albert asked respectfully, “Mr. Wade, what if they confess to their crime in advance?”

Charlie replied lightly, “It’s already too late now. No matter what it is, we’re going to feed all of them to the dogs tonight!”

Ichiro was in utter shock at this time. His only difference from his six men was that he could understand their language and he immediately understood the meaning behind Charlie’s words.

He was going to chop up a living person and feed him to the dogs? Was the young lord of the Wade family really so cruel?

What if he wanted to chop him up too?

At this time, Albert and his men brought the six unknown men out of the building.

About ten minutes later, Ichiro could hear the dogs in the dog farm howling and growling.

After that, the remaining five men were dragged back into the building.

The five men were so frightened that they were all convulsing in a violent manner.

As soon as they entered the building, the five people went crazy and they started yelling at Ichiro in Japanese.

Isaac quickly translated what they were saying to Charlie, “Mr. Wade, these people are telling Ichiro that they saw their companion being chopped alive and fed to the dogs.”

Charlie nodded before he looked at Ichiro, who was so scared that he was about to pass out anytime.

After that, Charlie said coldly, “Ichiro Kobayashi, I’m going to give you one last chance. You’d better be honest with me now. Otherwise, you’ll suffer the same fate as that man earlier!”

Even though Ichiro really wanted to contribute to his family, he did not base it on the premise that he would be losing his life because of it. He was in deep shock when he realized that Charlie might actually kill and dispose of his body tonight.

Therefore, he hurriedly pleaded, “Mr. Wade, I’ll admit it! I’ll tell you everything! I was the one who paid and hired them to rob Dr. Simmons of his magical pills. Please forgive me. Just name me a price and I’ll be more than willing to pay for it.”

Charlie asked with a black face, “Where’s the medicine now?”

Ichiro replied, “My assistant brought the medicine with him to the airport...”

Charlie asked again, “Has the plane taken off?”

Ichiro nodded repeatedly, “Yes, it should have already taken off by now and it should have gone out of Aurous Hill’s airspace by now...”

Charlie gritted his teeth before he said, "How dare you rob us of the medicine left behind by our ancestors? Good! Very good! Since your man has already brought our medicine back to Japan with him, then you will leave your life behind in this country!"

## **Chapter 479**

Ichiro was so scared that he started crying out loud as soon as he heard Charlie's words.

He was not a bad person but he was just a rich young lord who wanted to honor his own family based on what he could do for them.

Now, he had actually been caught by Charlie and was trapped in a dog farm, possibly being turned into delicious food in the mouth of countless evil dogs at any time. Ichiro was naturally afraid and feeling very regretful at this time.

He cried as he begged Charlie, "Mr. Wade, I'm begging you now. Please just give me a number. No matter how much you ask for, I'm willing to pay you! Otherwise, why don't I call my father and ask him to inform the crew to ask the plane to turn around and return to Aurous Hill immediately? I will return the magical pill to you directly. Would that be fine with you?"

Charlie replied, "Are you still trying to lie to me at a time like this? Do you really take me for a fool? I know that many companies have very advanced component analysis equipment. After putting a medicine into the equipment, you'll be able to analyze all the components and ingredients in a medicinal product in a few minutes' time. Kobayashi Pharma is a big pharmaceutical company and you'd definitely own such an instrument, right?"

Ichiro nodded as he cried, "Yes, we do own that kind of equipment. However, I did not bring it along with me to Aurous Hill! So, Mr. Wade, you can rest assured that as long as the magical pills are not sent to the Kobayashi Pharma laboratory, we won't be able to obtain a list of its ingredients."

Charlie sneered before he replied, "Do you really think that I'll believe what you say? Who knows if you've already equipped the equipment in your plane? Perhaps you already have a list of all the ingredients to make up the magical pills now. You could even have instructed your man to scrape off a little of the magical pill because just a little of the powder itself would be sufficient for you to study and analyze the ingredients!"

Ichiro continued crying as he said, "Mr. Wade, I'll use my personality and character to vouch that I'm not lying..."

Charlie gave him a slap across his face as he cursed at him, "You're a thief and a robber and you actually dare to talk about your personality and character in front of me?"

Ichiro was at a loss for words.

Charlie was right. He was indeed a thief and a robber and it was really ironic for him to be talking about his personality and character at this time...

Ichiro hurriedly asked, "Mr. Wade, please tell me what I can do, then. You can come up with a solution for this matter and as long as it is within my ability, I will definitely fulfill your request."

Charlie replied, "In fact, it's actually very simple. Since you've stolen our magical pill, then I can only assume that you have already gotten the ingredients and formula for the pill. It would be better for you to pay us directly for the prescription of the magical pills, then."

Ichiro nodded and agreed immediately, "No problem! Absolutely no problem! Mr. Wade, please name me a price so I can report this to my family immediately."

At this time, Charlie replied indifferently, "Ten billion dollars. Otherwise, not only will I kill you and feed you to the dogs, but I will also expose the fact that someone from Kobayashi Pharma stole someone else's prescription on international grounds. At that time, Kobayashi Pharma's reputation will definitely be damaged all over the world!"

Ichiro was completely taken aback and he blurted out, "Mr. Wade, ten billion dollars is too much...we...we...we really do not have so much money..."

"You're still trying to bargain with me at a time like this?" Charlie asked coldly. "I've already looked into Kobayashi Pharma's background. I saw that your company is doing very well and you enjoyed a net profit of two billion dollars just one year ago. Furthermore, I even found out that you have successfully borrowed a large sum of money from the bank to build Asia's largest production base in Osaka, Japan. I believe all that money must be sitting in Kobayashi Pharma's bank account right now, am I right?"

Ichiro trembled as he explained, "Mr. Wade, to tell you the truth, that money is really important to Kobayashi Pharma. Moreover, that money is under my father's control and I have no access to it at all!"

Charlie nodded before he said, "Alright then! You can call your father and tell him all about this now!"

After that, Charlie said to Isaac, "Loosen his right hand and pass him the cell phone."

Isaac personally released Ichiro's right hand before he handed his cell phone over to him.

## **Chapter 480**

Ichiro had to muster up his courage to call his father.

At this time, Masao was anxiously waiting for the magical pills to arrive in Tokyo.

He was a very impatient person and he had already asked his family to hire an ambulance to take him directly to the airport so he could wait there instead.

The Kobayashi family was very reputable in Tokyo. They even had a private independent hangar in Tokyo Airport for their private jet.

Besides that, there was also a very high-end lounge in this hangar which was owned by the Kobayashi family. Therefore, Masao took his second son, Jiro, to the airport as he waited for the magical pills to arrive in Tokyo.

At this time, he suddenly received a phone call from Ichiro. Masao hurriedly asked, "Ichiro, I heard that you did not board that plane when it took off earlier. Where are you now?"

Ichiro hurriedly replied, "Dad! I was captured by the young lord of the Wade family in Eastcliff. He accused me of stealing the magical pills and their prescription. Now, he wants us to buy the patent for the prescription of the magical pill for ten billion dollars! Otherwise, not only will he take my life but he will also expose Kobayashi Pharma's theft of prescriptions..."

"What?" Masao blurted out immediately as he yelled, "Asshole! How could you be so careless in handling your own affairs?"

Ichiro cried out, "Dad! I was very careful and meticulous but I don't know how I was discovered by them. You have to save me or I'm really going to die tonight!"

Masao replied coldly, "Ten billion dollars is simply a fantasy! I will never agree to that! I can still accept it if they agree to accept one billion dollars."

Isaac had been translating the entire conversation for Charlie all this while. As soon as he heard Masao's words, he sneered as he said, "Mr. Masao Kobayashi, with all due respect, the magical pills that you've stolen from us is a magical medicine with strong repairing and restoration ability. You'll be able to cure your severe paraplegia and also other similar diseases in the market. If you put the drug out on the market, you'd definitely be able to make at least ten billion dollars in a year. This is in fact a very good bargain for you. Do you understand me?"

Masao snorted before he said, "How would I know if this medicine is as godly as you make it out to be?"

Charlie replied, "Isn't it very simple? The magical pills will land in Tokyo in less than an hour. I heard that you're paralyzed and bedridden now. After taking our medicine, you'll definitely be able to recover within ten minutes at most. After personally experiencing the effects of the medicine, you should pay us the ten billion dollars immediately. Otherwise, I will expose the fact that your son stole a medicine and prescription from others to the world and Kobayashi Pharma's reputation will definitely be ruined then."

After that, Charlie continued, "Oh, and your son will also have to die then!"

Masao felt a little nervous at this time.

His son was caught red-handed and the other party had evidence of him stealing the medicine. If he refused to cooperate with him, then Kobayashi Pharma would definitely be cast aside by everyone in the world once the truth is exposed.

When that time comes, the Japanese government will also ban the production of these magical pills, in compliance with international law.

That way, he would only be on the losing end.

Moreover, it was also possible that he would be costing his son his life!

On the other hand, if the medicine was really so effective, then ten billion dollars was in fact not a lot of money. Even if he paid ten billion dollars to Charlie, he would easily be able to earn that money back within a year. He would start making profits the year after that!

As he thought about this, Masao replied immediately, "Okay! If your magical pill really cures me of my severe paraplegia and restores me to my previous health condition, then I will give you ten billion dollars to buy this prescription from you exclusively!"

## **Chapter 481**

An hour later, a global express private jet landed at Tokyo Airport.

After the plane landed, it taxied all the way to its own private hangar.

Masao had been waiting in the hangar for a long time.

As soon as the plane entered the hangar, it stopped and the door opened immediately. After that, Ichiro's assistant jumped out of the plane eagerly with the small wooden box in his hand. He quickly ran towards Masao at this time.

At this time, Masao was really looking forward to the medicine as he sat in the wheelchair. His second son Jiro was pushing the wheelchair with a blank expression on his face at this time.

In fact, Jiro was really very annoyed. He was already winning the competition to become the heir of the family. Moreover, he depended on his own strength and ability to beat and dominate his own elder brother. Unexpectedly, his elder brother had actually gone to Aurous Hill just to steal the magical pills.

If this medicine was really so magical, then it would not only cure his father's disease, but it would also bring huge profits to Kobayashi Pharma.

By then, all the little advantages that he had accumulated over the past years would have been all for nothing!

Ichiro's assistant handed the magic medicine over to Masao with both hands as he blurted out, "Chairman! This is the magic medicine that the vice chairman desperately obtained for you. He specifically asked me to hand this medicine over to you as soon as I land in Tokyo!"

Masao nodded and he could not wait any longer. "Give me one of the pills!"

The assistant hurriedly opened the small wooden box before he handed a pill over to Masao. At this time, one of their servants also hurriedly delivered a glass of warm water to him.

Masao trembled as he took the pill in his hand before placing it under his nose to smell the fragrance of the medicine. After that, he exclaimed immediately, "It is so rich and pure with the fragrance of medicinal herbs! The fragrance of this medicine itself instantly makes people feel refreshed!"

After that, he opened his mouth without any hesitation at all before swallowing the pill with the glass of warm water.

Everyone was staring intensely at him at this time because they were all wondering if this medicine was as magical as it was said to be.

Wouldn't it be really shocking if this medicine could really cure severe paraplegia?

At this time, Masao suddenly felt a burst of warmth in his abdomen and this warm feeling quickly spread throughout his body. The warm feeling made him feel very comfortable and relieved and he could not help but sigh. "It's really amazing. I have not had any sensation in my legs for a very long time but this medicine is actually making my legs feel warm!"

A few minutes later, Masao could feel his whole body being filled with a very powerful and sudden surge of strength. He felt as though he had suddenly returned to ten or even twenty years ago!

He was so excited and he could not help but try to stand up so that he could be in control of his own legs. Unexpectedly, Masao really stood up all by himself with little to no effort at all.

"Oh my god!"

Everyone around him was amazed!

Even Jiro was stunned.

He studied and majored in Medicine and he knew that as long as there was a problem with the nervous system, it would be very difficult and almost impossible for it to be treated.

No matter how rich or wealthy a person was, they could never be completely cured once paralyzed. It could even be impossible for them to stand up on their own.

However, this magical medicine took less than ten minutes to make his father, who had been paralyzed for more than three years, stand up on his own two legs!

This...was just too amazing, right?

This way, this medicine would not only be able to cure paraplegia, hemiplegia, and strokes, but they would also be able to cure and treat diseases such as Parkinson's disease! After all, all of these illnesses were related to the nervous system.

This medicine was really an invincible magic medicine!

At this time, Masao tried to move forward and he initially thought that he would be stumbling in his steps. Unexpectedly, he could walk in a very relaxed and free manner.

Masao was very excited!

He started walking faster and faster and he even turned around and trotted a few steps. He was in an extremely good condition. He did not only cure his paralysis, but he felt twenty years younger at this time!

The Kobayashi family doctor immediately stepped forward to check on his condition and he marveled in shock. "Chairman! Your damaged nervous system has been fully restored! This is really a medical miracle!"

## **Chapter 482**

Yes! A miracle! This is a miracle that even Amaterasu might not be able to achieve!"

Masao was so excited that he almost went insane!

Just as he was ecstatic and excited, Charlie's phone call came in immediately.

"Mr. Kobayashi, how does the effect of the medicine feel?"

At this time, Masao was completely convinced of the magic medicine's ability at this point. Therefore, he blurted out excitedly, "Mr. Wade, I accept your terms and conditions! I will purchase the patent for these magical pills for ten billion dollars!"

Charlie replied, "I will give you my bank account number now. You had better transfer the money over to me within twenty minutes. Otherwise, I will expose all of your crimes and deceit to the world!"

Masao hurriedly replied, "Mr. Wade, you can rest assured that I will arrange for my financial staff to transfer the money over to you now!"

In fact, all of the funds in the entire Kobayashi Pharma's financial books added up to just a little more than ten billion dollars and more than seventy percent of this amount were loans from the bank. However, for Masao, this sum was definitely worth it!

With this magical pill, Kobayashi Pharma would surely end up to become the world's top pharmaceutical company in future!

A few minutes later, Charlie received a text message reminder: "Japan's Kobayashi Pharma has transferred ten billion dollars into your bank account."

When Charlie saw that he had already received the money, he smiled before he said to Masao, "Mr. Kobayashi, I wish you and Ichiro the best of luck in this world."

As soon as he was done speaking, Charlie hung up the phone immediately.

At this time, Ichiro asked excitedly, "Mr. Wade, since you've already received the money from my family, can you let me go now?"

Charlie smiled mysteriously before he said, "You are feeling so anxious to leave this place?"

Ichiro replied excitedly, "I want to return to Tokyo as soon as possible so I can prepare to take over Kobayashi Pharma!"

Charlie laughed and said, "Mr. Kobayashi, don't worry too much about that. In about half an hour's time, you'll definitely be begging me to take you in."

“What do you mean by that?” Ichiro asked in surprise. “Are you going back on your word?”

Charlie sneered before he said arrogantly, “I, Charlie Wade, have never gone back on my word before. If you really want to leave now, you may choose to do so. However, if you leave and run back asking me to protect you later, then I’ll have to think twice if I want to help you.”

Ichiro could only frown because he did not understand what Charlie was trying to say. However, all that he could think of right now was to get back to Japan as soon as possible. Therefore, he hurriedly said, “Mr. Wade, thank you for your kindness. Thank you but could you send me and my men to the airport as soon as possible? I want to buy the earliest flight back to Japan!”

Charlie shook his head immediately, “You can leave now but the five of them can’t!”

Ichiro hurriedly asked, “What do you mean?”

Charlie replied, “These five people were not included in the deal that we have just concluded. Moreover, these five men actually had the audacity to commit armed robbery in Aurous Hill. This is a very heinous crime and they should pay the consequences for their actions!”

Ichiro blurted out, “Mr. Wade, there’s no need for you to kill them, is there?”

Charlie replied indifferently, “If I don’t kill them today, then there might be Dalin Pharmaceuticals, Pana Pharmaceuticals, Soni Pharmaceuticals, and many other companies who could come and act recklessly in Aurous Hill in the future. If you continue bargaining with me, I might have no choice but to cut off your tongue.”

Ichiro had a horrified expression on his face and he stopped talking immediately. He glanced at his five subordinates who had a bewildered expression on their faces because they could not understand the local language. After that, Ichiro gritted his teeth before he said, “Okay then! Please send me to the airport first!”

At this time, Charlie said to Albert, “Albert, I want you to send him to the airport personally. If he cries and begs you to bring him back here later, I want you to bring him back to me. However, before you do that, I want you to find a place to stop and beat him up nicely before you bring him back to me.”

“Okay!” Albert nodded respectfully before he said, “Mr. Kobayashi, please follow me.”

Ichiro looked at Charlie with a serious expression on his face as he said, “Mr. Wade, you’re really a very confident man. However, I’m certain that I’d never want to come back here! Goodbye!”

Charlie smiled but he did not say anything.

He estimated that the old man, Masao, would be dead in another twenty minutes to half an hour. When that time comes, Ichiro’s younger brother would definitely think that he had deliberately harmed the old man and caused his father’s death.

Even if he did not doubt Ichiro at all, he would definitely hold the old man’s death over Ichiro just so as to eradicate his own troubles of taking over the pharmaceutical company.

When that time came, Ichiro would definitely be hunted down by Kobayashi Pharma and he would not dare to return to Japan!

## Chapter 483

Albert started driving an excited Ichiro as they rushed to the airport.

Ichiro was very excited. Even though his family had to pay Charlie ten billion dollars for the medicine prescription, his father's paralysis had been completely cured! Moreover, Kobayashi Pharma also obtained the prescription for the magic medicine.

With this prescription, Kobayashi Pharma would be able to usher in rapid development.

When he became the chairman of Kobayashi Pharma, he would finally be able to reach the pinnacle of his life!

Thus, he could not wait to grow a pair of wings and return to Tokyo immediately to accept his father's admiration and worship.

At this time in Tokyo, Japan, Masao, who had fully restored his health, was currently experiencing the beauty of youth with excitement!

His physical condition was so good that he could not wait to find two young girls to quickly experience the rejuvenation that he had already lost for a long time.

On the way out of the airport, Masao wanted to drive on his own.

Two of his favorite things in his life were none other than women and cars.

For him, both of these things gave him a strong sense of control.

It would be difficult for him to find women at this time. Moreover, it would not be too good for his own reputation if he looked for women as soon as he recovered. What's more, his second son was right here with him at this time.

However, it would always be possible for him to drive, right?

Of course, Jiro did not dare to disobey his father's wishes. After all, he was already in a very weak position now. Once his elder brother returned to Tokyo, then he would definitely be regarded as the hero of the Kobayashi family. Therefore, Jiro knew that he had to coax his father well at this time.

Therefore, he hurriedly said, "Dad, why don't you drive my Bentley sports car home instead? Didn't you use to love speed the most when you were younger? This car is very dynamic and sporty and it happens to be late at night now! There won't be many cars on the road so late at night so you'll be able to speed as fast as you want to!"

"Okay!" Masao laughed before getting into the driver's seat in Jiro's Bentley sports car.

Jiro hurriedly got into the co-pilot seat before he said respectfully, "Dad, I really did not expect to be able to sit in a car driven by you again in this lifetime. I've always enjoyed riding in your car because you drive so well and you give people a strong sense of security."

Masao nodded as he exclaimed, "Jiro, this is really a person's good fortune. Amaterasu might not have thought that I would still have such an opportunity to enjoy these things in life! This is simply the second spring of my life!"

Jiro sat up next to his father filled with excitement on his face as he said, "Dad, why don't you start the car now? I can't wait to see you driving again!"

Masao smiled before he stretched out his hand to press the button to start the engine.

However, after stretching out his hand, Masao suddenly felt his whole body turning stiff in an instant and he felt as though he was losing control of his body.

Jiro watched his father's hand hanging in the air for a short while without pressing the activation button. At this time, he quickly asked, "Dad, are you feeling too excited?"

Masao could not speak and he could only whimper twice as hard as he possibly could. At this time, he felt that it was very difficult to breathe and he was about to suffocate to death!

When Jiro turned around to look at his father, he was utterly shocked!

His father's face had already turned black and purple and all the blood vessels on his neck and forehead were popping out. It was a very terrifying sight!

Jiro panicked and he blurted out, "Dad! What's wrong with you?"

Masao felt as though there was a pair of strong hands strangling his neck at this time. He looked at Jiro with a pained expression on his face before he said with all of his strength, "This...this medicine...is poisonous..."

After that, Masao suddenly lost all the strength in his body, then tilted his head and died while foaming at his mouth...

## **Chapter 484**

The Terminal Lucidity Pill finally exerted its ultimate medicinal effect and killed Masao!

Masao did not even know that he was dying and that the medicine that he had taken was actually poison!

Jiro hurriedly pushed the car door open at this time as he yelled at the other family members who were about to board the other vehicles and said, "Dad has been poisoned! The magic medicine that my brother brought back is poisonous!"

When everyone heard his words, they felt as though they had just been struck by lightning!

A large group of people swarmed towards his Bentley and the family doctor also hurried over to check at this time.

It did not matter how you look at it because the old man was obviously dead!

At this time, Masao's expression was extremely distorted and terrifying! His complexion was black and his eyes were bloodshot with blood oozing out of them. His mouth was wide open and he died an extremely miserable death!

The family doctor stepped forward to check on Masao and he said in a trembling tone, "The chairman...he's really dead. He really died of poisoning! Was the magic medicine really poison?"

The members of the Kobayashi family felt as though they were all frozen in place at this time.

If the magic medicine was poison, then...they would have suffered a heavy loss!

Right now, the chairman of Kobayashi Pharma was dead and almost all the cash belonging to Kobayashi Pharma had already been remitted to the other party. What was even worse was the fact that more than seventy percent of this money was from bank loans! This way, Kobayashi Pharma would take more than eight to ten years just to repay their loan to the bank in the future! How could there possibly be any chance for a rapid development now?

It was conceived that the future of the Kobayashi Pharma was already bleak at this time!

Jiro had a very gloomy expression on his face.

However, even though he was very sad over his father's death, he was also feeling a little excitement in his heart.

This was because he knew that his brother, Ichiro, would never be able to threaten his position again in future.

Not only would he be unable to threaten him, but Jiro could also issue an order to kill him!

Killing his own father was a capital crime!

As long as Ichiro dared to set foot in Japan, he would be cut up into pieces!

No!

Even if he chose not to return to Japan, Jiro would send someone out to hunt him down and kill him!

As he thought about this, Jiro had a cold expression on his face as he said, "My brother, Ichiro, must be the one who planned to harm and kill my father! We can never forgive him for doing such a rebellious thing!"

The folk customs of Japan were very similar to those of China. In the traditions of these two countries, killing a person's own father was the biggest crime that anyone could ever commit!

Therefore, Jiro gritted his teeth and said, "No, I, Jiro Kobayashi, officially announce that I will give a cash reward of five billion yen to anyone who can kill Ichiro Kobayashi for his rebellious crime of murdering his own father! I will also temporarily take over the position of chairman of Kobayashi Pharma for the time being. Please spread the word to all the gang members in Japan and anywhere else that Ichiro could possibly be hiding!"

Five billion yen was approximately fifty million dollars and it was a huge amount.

Even though Kobayashi Pharma had just lost ten billion dollars and suffered a huge financial loss, it was still a world-renowned pharmaceutical company after all. Therefore, even if the journey ahead would be very difficult, Jiro felt that it was worth spending five billion yen in exchange for his brother's life.

This five billion yen would definitely be enough incentive for all the Japanese gangs to hunt Ichiro down!

As long as Ichiro was dead, Jiro would naturally end up as the official chairman of the company without any competition at all.

At this time, Ichiro's assistant was frightened to death and he quickly ran away from the airport in a hurry while no one was paying any attention to him. At the same time, he quickly made a phone call to Ichiro. As soon as the phone call was connected, he cried out immediately, "Mr. Kobayashi! Don't come back to Japan! You cannot come back to Japan! Your father is dead and your younger brother thinks that you killed him with the magic medicine that you brought back! Now, he's offering everyone a reward of five billion yen for your life!"

## **Chapter 485**

Ichiro was utterly shocked when he heard his assistant's words!

His father was dead? He died after taking the magic medicine that he sent to him?

This...how could this be possible?

Could it be that the magic medicine was poison itself?

As he thought about it, Ichiro was really very angry and frightened. He wished that he could confront Charlie in person!

Charlie actually dared to cheat his family out of ten billion dollars and poison his old man to death? Wasn't he a little too cruel?

However, Ichiro knew that he would never be able to defeat Charlie. So, what was the use of confronting him? His father was already dead and it would be completely impossible for him to resurrect him and bring him back to life. Ichiro also knew that it would be impossible for Charlie to return the ten billion dollars to him...

At this time, Ichiro's assistant hurriedly said, "Mr. Ichiro, you should find a place to hide in Aurous Hill! Do not show your face for the time being. I am guessing that there will be many Japanese gang members and killers who would be going to Aurous Hill to hunt you down and kill you tomorrow!"

Ichiro could not help but panic and feel even more anxious after listening to his assistant's words.

This was terrible. His brother was offering a cash reward of five billion yen for his own head.

At this time, Ichiro suddenly remembered what Charlie said before he left. At this time, Ichiro quickly begged Albert to bring him back to Charlie. It seemed as though Charlie had already expected something like this to happen...

That bastard! He was the one who specifically set up this trap and poisoned his father to death!

At this time, Ichiro could not wait to smash Charlie into pieces.

However, as he thought about it, Ichiro knew that he would never be able to return to Japan for the time being. Moreover, he would have nowhere to hide in Aurous Hill when the Japanese gang members came looking for him tomorrow...

It seemed as though Charlie was his only chance of survival. After all, Charlie had a strong background in the country and no matter which Japanese gang members came at him, they could not possibly be Charlie's opponent at all.

Therefore, Ichiro hurriedly begged Albert, "Don Albert! Please! Could you please send me back to Mr. Wade? Please!"

Albert nodded faintly before he pulled the car over and walked over to the front passenger seat. After that, he opened the car door before he dragged Ichiro out and started punching and beating him without saying a single word at all.

After getting beaten up, Ichiro yelled, "Don Albert, what are you doing?"

Albert simply replied, "This is what Mr. Wade had instructed me to do. He said that if you asked me to bring you back to him, I should beat you up first before bringing you back to see him!"

After that, Albert continued kicking and beating up Ichiro who was lying on the ground at this time.

Even though Albert was much older than Ichiro, he was a mobster boss and his physical fitness was different from an ordinary person's. After getting hit a few times, Ichiro was already feeling dizzy but he did not dare to say anything at all out of fear that Albert would just abandon him and leave him to die.

After beating him up, Albert dragged Ichiro up to his feet before throwing him into the car and heading back to the dog farm.

When they returned to the dog farm, Ichiro realized that his remaining five men had already been fed to the dogs. As soon as Ichiro was brought in front of Charlie, Ichiro cried as he questioned Charlie, "Mr. Wade, why did you use fake medicine to lie to us? My father is now dead and my brother is out to take my life to avenge my father's death! How could you be so vicious?"

Charlie curled his lips before he said contemptuously, "You Japanese fool. Is there something wrong with your brains? When did I ever give you any fake medicine or lie to you?"

At this time, Ichiro said angrily, "My father suddenly died after taking your medicine. Do you really dare to say that it's not because of the medicine?"

Charlie shrugged before he said, "Weren't you the one who robbed and took the medicine on your own? Do you even remember the whole process of this matter? You were the one who robbed and stole the medicine for yourself. Listen carefully, you were the one who stole the medicine in the first place! Do you understand me? I did not actually give you the medicine."

After that, Charlie said once again, "You were the one who stole the poison all by yourself and you were the one who sent someone to deliver the poison to your father. After that, your father died after taking the poison that you delivered to him. This is all your own doing. So, what has it got to do with me? Was I the one who asked you to steal the poison from Dr. Simmons?"

Ichiro was left completely speechless at this time.

Charlie was right. From the very beginning, he was the one who sent his men to rob and steal the medicine from Anthony. However, he really did not expect that the magical pills that he had stolen were not magic medicine but a form of poison instead!

Even if Anthony and Charlie did indeed join forces to put him down, there was no way for him to sue them or get back at them at all. After all, he was indeed a robber and thief, with everything that happened being a result of his own responsibility and doing.

Therefore, Ichiro was certain that no one in his family, especially his own younger brother, would ever be able to forgive him. They would definitely charge him with the crime of killing his own father!

As he thought about this, Ichiro knelt down before Charlie as he cried and begged, saying, "Mr. Wade, this incident is indeed my own doing! I have an evil heart and all of this happened because of my bad intentions. I was the one who sent my men to rob Dr. Simmons of his magic medicine. However, please save my life on the account that I've indirectly helped you earn ten billion dollars. Otherwise, I'd really be dead..."

Charlie nodded before he said, "I can temporarily take you in and keep you safe at the dog farm for the time being. As long as you stay hidden in this dog farm, your brother and the Japanese gang members will never be able to find you."

Ichiro was utterly relieved and he quickly kowtowed in front of Charlie as he said, "Thank you, Mr. Wade. Thank you, Mr. Wade!"

Charlie said, "I accept your gratitude but you shouldn't be sitting around and waiting for your own death. You have to help out and earn your keep here."

After that, Charlie continued speaking, "Why don't we do this then? You'll help out at the dog farm by raising the dogs, walking the dogs, and disposing of the dogs' excrement."

Even though Ichiro was very unhappy with this arrangement, he did not dare to say anything at this moment. Therefore, he simply nodded repeatedly before he said, "No problem, Mr. Wade. I'll definitely get all that done."

Charlie nodded in satisfaction before he said to Albert, "Albert, go ahead and make all the necessary arrangements for me. Let him stay and help you out at the dog farm for the time being, as well as keep an eye on him on my behalf."

Albert replied respectfully, "Mr. Wade, don't worry. I will get everything sorted out immediately."

Charlie nodded before he said, "Ichiro, you can go with Albert now."

Ichiro quickly stood up before he followed Albert out into the darkness with a grateful expression on his face.

After they left, Isaac stepped forward before he asked carefully, "Mr. Wade, are you really going to keep this little Japanese here at the dog farm?"

Charlie smiled before he replied, "I will just keep him here for the time being as I wait for his brother to raise the price for his head. For his brother, as long as Ichiro is still alive, his position as the chairman of Kobayashi Pharma will never be stable. Therefore, the more he is unable to find Ichiro, the more anxious and desperate he would be to find out. I will sell his brother to him when he raises the price for his brother's head to one or two billion dollars."

Isaac was surprised and he said, "If that's the case, then Ichiro will certainly be dead!"

"He deserves to die!" Charlie sneered. "Kobayashi Pharma has been plagiarizing ancient Chinese medicine repeatedly and this time, Ichiro even came to Aurous Hill to steal the medicine from Dr. Simmons. It has already been ages since they invaded our country and they actually dare to steal from us now? I have to ensure that they pay the consequences for their own actions. Otherwise, we'll definitely be made fun of for not standing up for ourselves!"

Isaac replied, "Mr. Wade, don't you think this is a form of kidnapping? Moreover, you've already misrepresented ten billion dollars out of them! They've also lost their father's life because of this. Hasn't the Kobayashi family paid enough for their crimes?"

Charlie smiled slightly before he said, "Of course this isn't enough. I have to make Ichiro pay for what he has done! Otherwise, he'll think that he can just come to Aurous Hill and cheat, deceive, and steal whenever he wants to! He must be dreaming if he thinks that he'll be able to keep his life after everything he has done!"

## **Chapter 487**

Ichiro did not know what Charlie was planning when he took him in. He did not even know that Charlie was planning to sell him to his brother.

Charlie did not have any sympathy for Ichiro at all. On the contrary, Charlie hated Ichiro from the depths of his heart.

Fortunately, he had been on guard. Otherwise, things would be terrible if Anthony's magical pills had been stolen and taken away by Ichiro.

Even though Charlie was not sure whether the Japanese would be able to analyze his own prescription, he thought that it would definitely breed chaos if they succeeded in figuring out his prescription.

Therefore, in Charlie's opinion, the Japanese should be blamed for their own actions!

Whether it was the six men dressed in black, Masao in Tokyo, or Ichiro who was about to die, all of them could only blame themselves for their deaths!

Isaac drove Charlie home before dawn.

This time, Isaac had a brand new understanding of Charlie's strength.

He had originally thought that Charlie was just a down-to-earth young lord who had been living outside the Wade family. Now that he had been found, his greatest support was none other than the Wade family.

However, Isaac would have never expected the down-to-earth young lord to actually have such incredible strength and power!

Not only did many wealthy and powerful people from the upper class society in Aurous Hill look up to him and treat him with respect but Charlie was even able to use his own tactics to destroy Kobayashi Pharma just to teach them a lesson.

The Kobayashi family had even given Charlie ten billion dollars while Charlie also took Masao's life as payment for his crimes. Moreover, it would not be long before Ichiro lost his life too.

This made Isaac feel a new form of admiration for Charlie and he also felt intense fear in the depths of his heart.

At this time, Charlie was very quiet as he sat in the back of the car.

As he was about to arrive at home, Charlie suddenly said, "Isaac, remember not to report anything about today's affairs to the Wade family."

Isaac hurriedly nodded before he said respectfully, "Mr. Wade, you can rest assured that I will definitely keep my mouth shut!"

Isaac was just a spokesperson for the Wade family in the Aurous province but there were dozens or probably hundreds of other spokespersons just like him all over the country and the world who were working for the Wade family.

Therefore, it was actually very difficult for Isaac to climb up the ladder.

However, since Charlie was now in Aurous Hill, this was his best opportunity to prove himself and climb up the ladder! If Charlie appreciated him, then when Charlie finally decided to return to Eastcliff and reunite with the Wade family, Isaac would definitely be able to ride on his success when Charlie inherited the Wade family fortune.

Therefore, Isaac had already made a decision to serve and treat Charlie like his one and only master.

Charlie was very satisfied with his attitude and he asked, "By the way, have you heard of Kenneth from the Wilson family in Eastcliff and Kian from the Webb family in the south region? What's the current situation with them?"

Isaac was a very powerful figure in Aurous Hill. Before Charlie appeared, Albert was already prepared to become his dog and serve him. Moreover, Isaac had a very powerful connection and

intelligence network in Aurous Hill. Therefore, Charlie was certain that Isaac would certainly know about these things.

Isaac casually replied, "Kenneth has gone to the Silverwing Hospital tonight and it seems as though his penis is ulcerating. The doctor said that more than eighty percent of it can no longer be saved and the doctor suggested that he amputate it. I heard that Kenneth brought a bunch of men over to settle the score with the Weaver family."

Charlie smiled before he said, "I guess Kenneth had really taken some random medicine, didn't he?"

"Yes," Isaac replied. "It is said that the Weaver family developed a new drug and he was the first person to try it but something went wrong."

## **Chapter 488**

Charlie nodded.

Kenneth's situation was very clear to him. He had directly destroyed his nerves with infuriating energy. In other words, he would never be able to regain and restore his manhood in this lifetime. Anthony did not give him the magical pills, but even if Anthony had given him the pills, it would be completely useless.

If Kenneth insisted on taking any medicine indiscriminately to try and restore his own manhood, it would only allow the medicine to continue accumulating in the nerves, which would ultimately lead to tissue necrosis.

It seemed as though the Weaver family was really in deep trouble this time. Kenneth was not only a difficult person, but he was also an evil person. He would never give up until he had completely destroyed the Weaver family.

At this time, Isaac said, "The second young lord of the Webb family is now locked up at Castle Peak Psychiatric Hospital. It is said that he had come down with a very strange disease. He has to eat shit every hour and if he does not, he'd feel as if he's dying. His father and brother had already flown into Aurous Hill overnight and they brought many mental and medical experts with them but it seems to be completely useless. Now, they can barely sustain his life by feeding him shit every hour."

As he spoke about this, Isaac sighed as he said, "I can actually be considered a very well-informed and well-read person but this is really the first time that I've ever heard of such a disease. If not for the videos that I've seen on social media, I'd never believe this to be true! This is really a very big and strange world!"

Charlie nodded before he asked out of curiosity, "What are his father and brother doing?"

Isaac quickly replied, "The current head of the Webb family is Kian's grandfather, Lord Webb. However, even though Lord Webb is still the current head of the Webb family, as the eldest son, Kian's father, Donald Webb had already begun taking over the family business on a large scale.

This is not that surprising considering the fact that he would possibly be the next head of the Webb family.”

After that, Isaac continued speaking, “As for Kian’s brother, Sean Webb, he has just graduated from Cambridge University the year before this and he has just begun to take over part of the family business under Donald’s guidance. Donald regards Sean as his heir and he’s nurturing Sean to take over his position in the far future.”

Charlie nodded as he listened to Isaac’s words. He knew that the Webb family had a relatively strong background and he knew that they could be considered as the most powerful family in the southern region. However, he was not afraid of the Webb family at all.

He taught the second young lord of the Webb family a lesson because their son was a brutal and heartless scumbag. If the Webb family was not convinced and intended to pursue an investigation into the matter, then Charlie really did not mind having some fun with them.

At this time, Isaac’s car stopped in front of Charlie’s house.

Charlie pushed the car door open before he said slightly, “You have been running around all night. Thank you for your hard work. You should go back and have some rest now.”

Isaac nodded in a hurry before he said, “Thank you for your concern, Mr. Wade!”

After getting out of the car, the sky was already getting brighter.

When Charlie entered his house, he noticed that his wife, Claire, and his father-in-law were still fast asleep.

He returned to his bedroom and he was relieved when he saw Claire sleeping soundly in bed.

Because of the Apocalyptic Book, Charlie’s mental state was always very good and at its most optimum. Therefore, he would not feel tired at all even if he did not get to sleep all night. At this time, Charlie took out the three-hundred-year-old purple ginseng that he bought for a hundred million dollars from the auction last night. After that, he carefully observed it for a few moments.

The superb purple ginseng had great medicinal strength and it was more than enough for Charlie to refine an even better rejuvenating pill.

The medicinal effect of this rejuvenating pill was very magical and it could even bring the dead back to life!

If a dying person took this rejuvenating pill, he could be brought back to life and live for several years more!

Moreover, if a person took this pill in their twilight years, they could possibly prolong their lives for another ten years or more.

Even if a healthy person took this pill, they could instantly make their body stronger, prevent diseases, and also make their own body resistant to all sorts of poison. To an ordinary person, this rejuvenating pill could be regarded as the most magical among all magic medicine.

Charlie's body was already much stronger compared to any ordinary person's but if he made a rejuvenating pill and took it regularly, he could regulate his own body and he would be able to push his potential even further!

Therefore, Charlie decided to take some time today to prepare all the remaining herbs and materials that he needed to refine the rejuvenating pills!

## **Chapter 489**

Claire woke up at around seven in the morning.

As soon as Charlie heard some movements, he hurriedly pretended to be asleep as he laid motionlessly on the floor.

After getting up, Claire stretched as she got out of bed quietly. When she looked at Charlie, who was sleeping on the floor at this time, Claire could not help but feel a little distressed.

Ever since Charlie married her and became the son-in-law of the Wilson family, he had been sleeping on the floor for more than three years.

When they first got married, Claire really did not care much about Charlie and she did not have any feelings for him.

However, after spending so many years with him, Claire did not know why she felt particularly safe with Charlie by her side.

Sometimes, Claire was even afraid that Charlie would suddenly leave her.

In this recent period of time, so much had happened at home and it made Claire even more certain that Charlie was actually the only person she could actually rely on the most in this world. Aside from Charlie, all of her close relatives were not reliable at all.

Of course, there was no need to even mention her grandmother and the rest of her relatives. They did not consider her as part of their family at all.

As for her own mother, Claire was also completely speechless. In her mother's eyes, Claire was simply just a tool for her to reach the pinnacle of life and lead a rich and wealthy life. Even though Claire had already been married to Charlie for more than three years, Elaine was still hoping that Claire and Charlie would get a divorce just so Claire would be able to marry a rich man.

Moreover, Claire's father was a confused man and it would be great if he did not cause any trouble for them outside, let alone provide her with any support at all those critical moments.

Therefore, Claire felt most at ease and secure with Charlie, who was sleeping on the floor at this time.

Claire's heart was surging and beating frantically as she looked at Charlie. At this time, her bedroom door was suddenly pushed open.

As soon as she looked up, Claire saw her mother, Elaine, rushing aggressively into her bedroom dressed in her pajamas.

Claire could not help but ask, "Mom, what are you doing? Why did you barge in without knocking on the door first?"

Elaine quickly ran over to the other side of the bed before she looked down and saw Charlie, who was fast asleep on the floor. At this time, she heaved a huge sigh of relief before she muttered, "I had a nightmare. I dreamt that you were pregnant with Charlie's child. Oh my god! That almost scared me to death. Therefore, I had to come over to check if Charlie is sleeping on your bed! Fortunately, he isn't!"

At this time, Elaine massaged her chest gently as she said, "Let me tell you something, Claire. You must never let Charlie up on your bed! Do you hear me?"

Claire was a little annoyed and she said, "Mom, Charlie and I are already husband and wife. So, our sleeping arrangement is none of your business!"

"My ass!" Elaine yelled as she placed her hands on her hips. "I was the one who gave birth to you so everything that you do is my business! I will not allow a piece of trash to take advantage of my daughter's body!"

Claire replied angrily, "Mom! Charlie saved your life!"

At this time, Elaine left one hand on her hip as she swung her other hand and replied indignantly, "Don't talk to me about that useless piece of trash! I, your mother, have been living in this world for such a long time and the only thing that I've ever relied on is being heartless!"

After that, Elaine said, "Claire, you have to be a smart girl. The most valuable thing that you own is your body! With such a perfect body and beautiful face, you'll definitely be able to marry a billionaire after you divorce Charlie in the future! Wouldn't our family be living a good life then?"

Claire flicked her quilt angrily before she said, "I can't be bothered to continue arguing with you. I'm going to wash up now."

"Hey, you kid..." Elaine hurriedly chased after Claire as she wanted to continue educating her.

After the both of them left the bedroom, Charlie opened his eyes with a sullen feeling in his heart. This devil mother-in-law of his was really a terrible person! He would have no choice but to teach her a lesson someday!

## **Chapter 490**

At half past seven in the morning, Charlie pretended that he had just woken up. After washing up, he went out to buy something before he came home.

Claire hurriedly headed to her office after eating breakfast. After that, Elaine put down the dishes before she dragged her husband, Jacob, out to visit the villa at Thompson First with her. She was

already starting to lose her patience since it was taking such a long time for the renovations at the villa to be completed.

Jacob was very unwilling to go and he tried to persuade her, "There are several floors in the villa and it adds up to more than a thousand square meters. The renovation and decorating job for the villa must be really very laborious. It should probably take more than half a year for them to be done with the renovation works. It's useless even if you are anxious."

Elaine replied in a dissatisfied manner, "I don't care! I have already lived in this broken house for long enough. If the renovations aren't completed by next month, then I'd rather sleep in the uncompleted villa instead of staying here a minute longer!"

After that, Elaine urged Jacob immediately, "Stop talking nonsense! Change out of your clothes and drive me over to have a look at the villa. Hurry up! Otherwise, I'll get rid of all the antiques you've brought back home!"

Jacob did not pursue much in his life and the only thing that he was really interested in was antiques. Even though he was always getting scammed and even though he spent a lot of money buying plenty of useless items, he somehow felt that the things that he bought were in fact all very valuable. Even if they were not valuable at all now, he was certain that they would certainly be very valuable after waiting a few years. Therefore, he had always regarded all of his items as some sort of rare treasure.

Jacob immediately relented and gave in as soon as he heard Elaine threatening to throw all his treasures away. "Okay, okay. I'll accompany you there, alright?"

Elaine pushed him before she said, "Then, what are you still waiting for? Hurry up and change into your clothes!"

Jacob cried out at this time, "I have not finished eating half of my crullers yet! Just let me finish my meal first!"

"Eat, eat, and eat! All you know how to do is to eat!" Elaine said out of annoyance. "You're becoming as useless as Charlie! All you do is eat and sleep, eat, and sleep! What other things have you done in your life?"

At this time, Jacob replied with a gloomy expression on his face, "Okay, fine. I'll stop eating."

After he was done speaking, Jacob quickly got up to change his clothes.

When he returned after, Elaine urged him to leave the house immediately.

When Charlie saw that his entire family had already gone out, he quickly took out his cell phone before he called Graham to ask him to send over more than thirty types of medicinal herbs and materials. He wanted to refine his rejuvenating pill as soon as he possibly could!

Graham naturally agreed to send the herbs over to him and told him that he would deliver the herbs and materials to him as soon as possible.

As soon as he hung up, Charlie suddenly received a phone call from Anthony.

As soon as the call was connected, Anthony said respectfully, "Mr. Wade, did you manage to catch the Japanese man who tried to steal the medicine from me yesterday?"

“Yes, we caught them,” Charlie replied. “I simply laid out the trap for them but I really did not expect them to jump right into it.”

Anthony was also surprised and he quickly said, “Mr. Wade, I heard some of my friends in the medical circle saying that the chairman of Kobayashi Pharma, Mr. Masao Kobayashi, passed away early this morning from a sudden illness. Is this incident related to the four pills that you gave to me that day?”

At this time, Charlie replied faintly, “Yes, Mr. Masao Kobayashi died after he took one of the four pills that I gave you. In fact, those pills aren’t actually miracle medicine but are actually poison.”

Anthony had already anticipated that there would certainly be a problem with the pills that Charlie had given to him. As soon as he heard Charlie’s words, he could not help but exclaim, “Mr. Wade, you’re really incredible! If you did not plan all of this ahead of time, then the magical pills that you had given to me would have already been taken away by the Japanese man...”

As they were talking, Charlie suddenly heard the voice of Anthony’s granddaughter, Xyla speaking in the background, “Grandpa! The brothers from the Weaver family, Jeffrey and Liam, are here to see you!”

“The Weaver family?” Anthony could not help but frowned. “Why are they here to see me?”

When Charlie heard this, he simply smiled and said, “I heard that Kenneth’s nerves have begun to fester after taking the medicine created by the Weaver family. I think that they are probably here to beg you to help them.”

At this time, Anthony immediately replied, “Mr. Wade, don’t worry. I know that the bastard, Kenneth, was very disrespectful towards you. Therefore, even if he were to die in front of me, I would not lift a finger to help him!”

## **Chapter 491**

At this time, Jeffrey and Liam were stopped by the staff of Serene World Clinic.

“Excuse me, did you make an appointment for your visit today?”

The guy asked as he looked at Jeffrey very vigilantly.

He had never seen Jeffrey before and there had been too many messy and inappropriate people coming to Serene World Clinic to look for Anthony in the past two days. Therefore, the young man did not dare to let anyone in so casually.

Jeffrey hurriedly replied, “Hello, young brother. I am Jeffrey, the young lord of the Weaver family. Please inform the genius doctor, Dr. Simmons, that I admit I must have offended him at the Chinese Medical Expo the other day. The reason I’m here today is to apologize to Dr. Simmons and I really hope that he’ll be able to give me an opportunity to apologize to him in person.”

The young man replied coldly, “Dr. Simmons has said he won’t be seeing anyone who does not have an appointment with him! So, please leave immediately!”

“You should at least be speaking politely to me. I am still the young lord of the Weaver family anyway. Let me tell...”

“Sorry, but none of us at Serene World Clinic know of the Weaver family. Please leave immediately. Otherwise, I have no choice but to call the police!”

The young man did not want to give up and he could not be bothered to show Jeffrey any respect. Therefore, he was chasing him out of the clinic at this time.

“Don’t do this to me, brother. We can talk things out nicely...” Jeffrey started panicking at this time.

The reason why he came here today was to beg Anthony to take action to save Kenneth.

If Kenneth’s penis continued festering to the point where he needed amputation, then the Weaver family would definitely have to pay for it!

In the eyes of the Weaver family, Anthony was probably the only person who would be able to save Kenneth now.

Even though Jeffrey would be asking an extravagant request from Anthony, as long as Anthony could cure Kenneth, the Weaver family would also be able to escape from a disaster!

Therefore, Jeffrey placed all of his hopes on Anthony.

If his father found out that he did not even get to see Anthony in person, he would definitely be furious.

At the same time, Liam, the illegitimate son of the Weaver family, simply stood at the side without saying anything at all.

This time, his father, Jordan, had already said that whoever could solve this crisis would succeed him as the chairman of Weaver Pharmaceuticals. Therefore, the first thing that came to Liam’s mind was to seek Anthony’s help.

However, he did not expect Jeffrey to have the same idea and since he had run into his brother at the clinic, he could only become a follower and assistant to his elder brother.

Jeffrey wanted to see Anthony as soon as possible, so he opened his mouth and yelled into the Serene World Clinic, “Dr. Simmons, we need your help to save a life! Please let us in!”

The young man was very angry at this time. “I’ve already told you that Dr. Simmons is not seeing anyone without an appointment! Don’t you think it’s very shameless for you to be screaming in this manner?”

At this time, Anthony had just ended his phone call with Charlie and he stepped out of his consultation room.

He walked towards the door before he stared coldly at the Weaver brothers as he said, “Why are both of you causing trouble at Serene World Clinic?”

When Jeffrey saw Anthony, he quickly pushed the young man aside before he hurriedly said, “Dr. Simmons, I am Jeffrey from the Weaver family. I really need your help!”

Anthony simply glared at him before he said, "I remember you. I saw you being very disrespectful towards Mr. Wade at the Chinese Medicine Expo the other day. Now, you actually have the audacity to come and create trouble at my clinic?"

Jeffrey hurriedly begged, "Don't get me wrong, Dr. Simmons. I was confused and I know that I offended Mr. Wade at the Chinese Medicine Expo the other day. That is entirely my fault. However, I ask that you have mercy and forgive me for my mistake."

"Impossible," Anthony replied coldly. "Mr. Wade has been very kind to me all this while. The fact that you offended him is even more serious than if you had offended me. So, no matter what you're about to ask of me, I will never do it for you. Please leave this place immediately."

## **Chapter 492**

After he was done speaking, Anthony turned around as he was ready to chase them away.

Jeffrey panicked and started begging, "I'm really sorry for what I did, Dr. Simmons. I know that it was my mistake. It's my fault. I have no complaints at all if you want to hit or scold me. It's just that the Weaver family has encountered a huge crisis this time. Could you really bear to see the Weaver family completely destroyed just like that?"

Anthony replied coldly, "Sorry, but I'm not that familiar with you at all. Moreover, your family has nothing to do with me. Please leave immediately."

As soon as he heard Anthony's words, Jeffrey hurriedly snatched the brocade box from Liam before he handed it over to Anthony and said respectfully, "Dr. Simmons, this is just a token of my appreciation. It is a piece of Hetian jade worth more than five million dollars! Please accept it!"

Anthony did not even look at the so-called Hetian jade before he said unceremoniously, "Don't tell me how it's worth five million dollars. I won't accept it even if it's worth fifty million dollars or five hundred million dollars! Take it with you and leave immediately! You are not welcomed here!"

At this time, Liam, who had been keeping silent all this time, sighed softly as he knelt on the ground directly before he started begging Anthony bitterly, "Dr. Simmons, please be merciful and save the Weaver family. I will kowtow to you as a form of gratitude for your kindness towards our family."

Anthony got a little less angry after seeing Liam's pious appearance.

Compared to the arrogant and conceited Jeffrey, Liam was obviously better educated and more polite. Both brothers were the opposite of each other.

Jeffrey glared at Liam, filled with dissatisfaction in his heart. He cursed silently in his heart at this time, 'This bastard is really good at putting on an act! He's actually kneeling down and kowtowing in front of Dr. Simmons? Perhaps he wants to steal the credit and covets the position of the head of the family!'

As he thought about this, Jeffrey kicked Liam aside before he yelled, "You're just an illegitimate child. What qualifications do you have to kneel on behalf of the Weaver family? If there's anyone who's going to kneel on behalf of the Weaver family, that person would be me!"

Even though Liam was kicked to the ground, he did not complain or say anything at all. Instead, he hurriedly got up before he patted off the dirt on his body before he stood aside in a humble manner.

At this time, Jeffrey quickly knelt down on his knees as he begged, "Dr. Simmons, you should have heard that Kenneth's illness did not get better but instead deteriorated after taking the medication concocted by the Weaver family. Now that his penis is rotting, he's threatening to destroy the Weaver family! You're the only person who can save the Weaver family now!"

Anthony had already known the purpose of their visit to him today and even after listening to Jeffrey's explanation, he turned down their request once again without any hesitation at all. "You want me to save Kenneth? Let me tell you, it's absolutely impossible! Both you and Kenneth have repeatedly disrespected Mr. Wade. Even if you were to tell me that the sky is falling down on me, I won't lift a single finger to help him!"

After he was done speaking, Anthony told his staff in a cold manner, "Okay, get these two men out of my clinic now!"

Immediately afterwards, Anthony turned around and walked further inside Serene World Clinic without even turning his head back.

Even though it is said that a healer should have a parental heart, no one should be required to do good for the wicked.

The staff quickly kicked Liam and Jeffrey out at this time before he said, "If both of you dare to appear at Serene World Clinic again, I will call the police immediately!"

Jeffrey had a very ugly expression on his face as he stood at the entrance of Serene World Clinic.

Aside from Anthony, there weren't any other genius doctors in Aurous Hill who would be able to cure Kenneth.

Therefore, Kenneth's illness might deteriorate and worsen, and the Weaver family would completely lose all hope then!

At this time, Liam asked in a low voice, "Brother, what should we do now?"

Jeffrey glanced at Liam in disgust before he slapped him and said, "Liam, how many times do I have to tell you not to call me your brother? You're a bastard child and you aren't worthy of being my brother!"

After that, Jeffrey glared at him with a contemptuous expression on his face before he said, "I'm going to look for someone else to find a way out of this issue. You can go back on your own!"

After that, Jeffrey got into his limousine before driving away immediately.

Liam stood there for a moment with anger in his eyes.

After that, he reached his arms into his pocket before he touched something that he had hidden with him for more than ten years. After a short while, it seemed as though he had made some sort of decision as he secretly gritted his teeth before he turned around and entered Serene World Clinic again...

## **Chapter 493**

When the staff member saw that Liam had entered Serene World Clinic again, he scowled before he said, "Why are you back here again? Please leave now! You are not welcomed here!"

Liam begged, "Brother, I have something that I'd like to say to Dr. Simmons in person. I'll leave as soon as I say my words."

The staff member frowned before he said, "Dr. Simmons has already said that he does not want to see you. Why are you still being so thick-skinned?"

Liam knelt on the ground before he yelled, "Dr. Simmons, I am Liam and I would like to speak to you face to face. Please be merciful and listen to me for a short while. If you refuse to see me, I will just kneel and wait outside until you decide to meet me!"

At this time, Anthony had already walked into the consultation room at the back of Serene World Clinic. However, he could not help but sigh when he heard Liam's voice.

He had already been in contact with the illegitimate child of the Weaver family a couple of times and Anthony could tell that he was indeed very educated and polite.

Moreover, Anthony also felt that Liam's situation in the Weaver family was really worthy of sympathy.

As soon as Anthony heard Liam's words, he also felt compassionate and slightly moved.

Therefore, he came out of the consultation room and when he saw that Jeffrey had already left and Liam was all alone at the entrance of the clinic, he said, "You can come in and meet me."

"Thank you, Dr. Simmons!" Liam was overjoyed at this time. He got up in a hurry before he followed Anthony towards the back of the clinic.

As soon as they entered the back hall, Liam immediately took out a slender wooden box made of mahogany from his pockets. After that, he opened the wooden box, revealing a whole piece of snow white ginseng.

After that, Liam offered the ginseng to Anthony with both hands as he blurted out, "Dr. Simmons, this is the thousand-year-old snow white ginseng that my mother left me before she passed away. I want to dedicate this piece of thousand-year-old snow white ginseng to Mr. Wade so he can have mercy on me and help the Weaver family on my behalf!"

Anthony was stunned when he saw the snow white ginseng.

It turned out to be really a thousand-year-old snow white ginseng!

Anthony had only ever seen and read a description of this type of ginseng in classical medical books.

He even thought that such a thing did not exist in this world and believed that the snow white ginseng could only live for up to a hundred years old at most.

Even though this piece of snow white ginseng was not very long, its whole body was already a little translucent and this was because it had already been waxed. A normal piece of ginseng would not normally wax and therefore, it was obvious that this was indeed a ginseng that was more than a thousand year old!

This made Anthony conclude that this snow white ginseng was definitely more than a thousand years old!

Unexpectedly, this thing really existed in this world!

At this time, he could not help but asked in surprise, "This...this is really yours? Why do you have such precious medicinal materials in your possession?"

Liam nodded before he said earnestly, "Dr. Simmons, to tell you the truth, my mother is a native of Mount Golmin. My ancestors and my grandfather have been collecting medicinal herbs on Mount Golmin for generations. This thousand-year-old snow white ginseng has actually been handed down in my mother's family for many generations. It is one of our family's most prized possession."

After that, Liam said once again, "When my father, Jordan Weaver, just started his medicinal material business, he often came to Mount Golmin to gather medicinal herbs and materials. He lied about being a single man and deceived my mother. After my mother got pregnant and gave birth to me, he left us all alone. I grew up and spent most of my life on Mount Golmin..."

"When my mother fell seriously ill and was about to pass away, she was afraid that I would be left alone in this world. Therefore, she secretly contacted my grandfather and since I am one of the descendants of the Weaver family, my grandfather did not want me to live outside alone. At that time, my grandfather ordered my father to pick me up from Mount Golmin and bring me back to the Weaver family."

"Before my mother passed away, she left me this piece of thousand-year-old snow white ginseng and told me to keep it with me at all times in preparation for any emergencies. Now that the Weaver family is facing such a huge crisis, I am more than willing to dedicate this thousand-year-old snow white ginseng to Mr. Wade if he would just lend a helping hand to our family!"

Anthony was utterly speechless because he was extremely shocked.

He had always known that Liam was an illegitimate child but he did not know that there was such a story behind it.

## **Chapter 494**

Liam had never told anyone about his life. Anthony was the first person that he ever told his story to.

Ever since he was brought back to the Weaver family, Liam had always been insulted and humiliated by everyone around him.

Since his childhood, his father, Jordan, and his half-brother, Jeffrey, had always hated him. He had always been scolded, beaten, and subjected to various sorts of humiliations but he had slowly gotten used to it.

He had been very patient as he slowly waited for the day when he would finally be able to find a suitable opportunity to get out of his dark and miserable situation.

Since the Weaver family was suffering from such a huge crisis and since Jordan had already officially announced that the position of chairman of Weaver Pharmaceuticals would be given to anyone who could resolve this crisis, Liam decided that he should take advantage of this opportunity to use the thousand-year-old snow white ginseng that he had kept hidden for more than twenty years to turn his life around!

This thousand-year-old snow white ginseng was priceless.

The normal price for the three-hundred-year-old purple ginseng that Charlie and Kenneth competed for previously was estimated to be around thirty million dollars.

This thousand-year-old snow white ginseng could be sold for at least one hundred million dollars ordinarily. If someone were to fight for it, it would not be uncommon for it to be sold for at least three hundred million dollars.

Liam was willing to hand this thousand-year-old snow white ginseng to Charlie so Charlie would be able to resolve the crisis that the Weaver family was facing. If he could successfully resolve the crisis, then he would finally be able to take over the position of chairman of Weaver Pharmaceuticals.

Anthony was shocked by this thousand-year-old snow white ginseng.

He knew that Charlie had the ability to refine and concoct medicine and he knew that this thousand-year-old snow white ginseng would definitely be of great help to Charlie.

Therefore, he immediately took out his cell phone to call Charlie.

At this time, Charlie had just received the medicinal herbs and materials from Graham. After that, he combined the three-hundred-year-old purple ginseng with all the other medicinal herbs and materials to make about thirty Rejuvenating Pills.

As soon as he was done making the Rejuvenating Pills, Charlie suddenly received a phone call from Anthony.

As soon as the call was connected, Anthony's voice sounded on the other end of the line. "Mr. Wade, Liam, the illegitimate son of the Weaver family is asking for your help. If you can help the Weaver family to tide over the crisis they are facing, he's willing to give you a thousand-year-old snow white ginseng!"

"A thousand year old snow white ginseng? Is it true?"

Charlie was very surprised. The three-hundred-year-old purple ginseng was already a very rare medicinal herb. Moreover, the snow white ginseng was even more precious and rarer than the purple ginseng itself.

What's more, the thousand-year-old snow white ginseng was definitely regarded as a treasure in the medical field.

In fact, Charlie was a little excited when he heard about the thousand-year-old snow white ginseng. He had read in the Apocalyptic Book that even snow white ginseng that was more than five hundred years old was already a treasure of heaven with an extremely strong aura. If he could get his hands on it, then he would definitely be able to improve his strength and his abilities.

At this time, Anthony quickly said, "To be honest, Mr. Wade, this is the first time that I am seeing a thousand-year-old snow white ginseng for myself. Therefore, I am not really sure whether it is really a thousand years old. However, I can be certain that it is definitely more than five hundred years old."

Charlie hummed before he praised Anthony, "Dr. Simmons, you did a good job with this matter. In fact, I just made a new pill that will be able to make you ten times younger than you are! I will pass you one of these pills!"

When Anthony heard Charlie's voice, he trembled in excitement as he said respectfully, "Mr. Wade, you are really too kind to me. In fact, I am only doing what I need to do. It is my responsibility..."

Charlie smiled before he said, "Dr. Simmons, I've told you that I will always reward and punish people accordingly. If you do things for me, I will naturally not forget to give you credit for it. You can bring Liam to me now and I will reward you in the future."

After that, Charlie said once again, "Why don't you bring Liam over to see me now so I can determine the authenticity of his thousand-year-old snow white ginseng?"

Anthony replied immediately, "Okay, Mr. Wade! I will bring him over immediately!"

## **Chapter 495**

Anthony hung up the phone before he told Liam, "Mr. Wade has already agreed to meet you. You can come with me now."

When Liam heard this, he immediately showed an expression of gratitude as he bowed before Anthony and said, "Thank you for your generosity and help, Dr. Simmons!"

Anthony waved his hand before he said, "I'm just lending Mr. Wade a hand. You don't need to thank me. If Mr. Wade is willing to help you, then you can just thank him directly."

Liam nodded in a hurry before he said, "Okay, should we leave now, Dr. Simmons?"

Anthony nodded before he called out to his granddaughter, Xyla, as he said, "Xyla! Can you drive us over to Mr. Wade's house?"

When Xyla heard that her grandfather was going to see Charlie, she was very excited and she quickly said, "Grandpa, let's go over now! We wouldn't want Mr. Wade to wait so long!"

After that, Liam took his thousand-year-old snow white ginseng with him before he followed Anthony and Xyla out of Serene World Clinic. After that, they got into a new Audi that Xyla had recently bought.

After Anthony made the decision to stay in Aurous Hill, Xyla had decided to buy this car so it would be more convenient for her to travel around with her grandfather.

Xyla drove towards Charlie's house and within ten minutes, they were already in front of Charlie's house.

At this time, Anthony looked at Liam before he gave him a gentle reminder. "Your brother had some conflicts with Mr. Wade in the past. You must remember not to be disrespectful towards Mr. Wade when you see him later."

Liam nodded hurriedly before he said, "You don't need to worry, Dr. Simmons. I would never dare disrespect Mr. Wade!"

"Okay." Anthony knew that Liam and his arrogant brother were two completely different people. So, he simply nodded before he pressed the doorbell.

Charlie quickly opened the door. As soon as they saw Charlie, Anthony and Xyla hurriedly bowed before they greeted him respectfully, "Hello, Mr. Wade!"

Liam also hurriedly saluted and greeted Charlie respectfully, "Nice to meet you, Mr. Wade."

Charlie nodded before he said, "You don't have to be so polite. Come in and have a seat so that we can talk."

The three of them quickly walked into the house.

As soon as they entered the house, the three of them could not help but look around the living room. This was the first time that they had ever visited Charlie's house and they could not help but feel a little surprised. Charlie had so many connections with all the upper class people in Aurous Hill and he had such a respectable status. So, why did he choose to live in such an ordinary residential building?

Liam also felt that Charlie was unfathomable. He was obviously a very wealthy man who could easily spend one hundred million dollars at an auction and yet, he was living in such a simple environment.

Charlie did not know what the three of them were thinking about and he simply pointed at the sofa before he said, "Please sit down."

The three of them nodded before they sat down directly opposite Charlie.

## Chapter 496

At this time Charlie looked at Liam before he asked curiously, "I heard that you have something to ask me?"

Liam nodded hurriedly before he took out the wooden box containing the thousand-year-old snow white ginseng from his pocket and handed it over to Charlie. After that, he said respectfully, "Mr. Wade, this thousand-year-old snow white ginseng is a family heirloom that was passed down in my mother's family for many generations. I've been carrying it close to me all these years but this kind of treasure can never reach its maximum potential in my hands. Therefore, after thinking about it, I've decided to dedicate it to you, Mr. Wade!"

Charlie did not say anything and he simply opened the wooden box to look at the thousand-year-old snow white ginseng. At this time, he could see a piece of snow white ginseng with human-like roots and some wax surrounding it lying inside the box.

Moreover, with just a single glance, Charlie could feel the strong and rich spiritual energy within the snow white ginseng. This was really a treasure of heaven and earth! It had survived for thousands of years between heaven and earth and had absorbed all the aura between heaven and earth. Furthermore, the thousand-year-old snow white ginseng originated from Mount Golmin, where it has always been very well protected and had an almost primitive ecology. Therefore, this was indeed a very pure snow white ginseng.

Charlie could not help but feel a little excited. If he used this thousand-year-old snow white ginseng for himself, he would definitely be able to reach a new high potential for his own strength and ability. This was simply an opportunity he could not resist.

Therefore, Charlie asked faintly, "So, what would you like me to do for you, Liam?"

Liam hurriedly replied, "Mr. Wade, you should know about the chairman of Modestway Group, Kenneth Wilson from Eastcliff. He lost his manhood some time ago and after taking a medicine prescribed by the Weaver family, his penis is starting to rot. The doctor is now saying that he can no longer keep his penis intact and that he would need to amputate it. If he really has to amputate his penis, then he'll definitely destroy the Weaver family! Therefore, I'd really like to ask for you to take action to help the Weaver family, Mr. Wade. If you can just cure Kenneth of his disease, then the Weaver family will definitely be able to survive this disaster..."

Charlie smiled playfully at this time. Instead of directly replying to Liam, he asked him with a curious expression on his face, "I heard that you've suffered countless insults and humiliation in the Weaver family. So, why are you giving me this precious snow white ginseng at this time and begging me to help the Weaver family overcome this crisis?"

Liam confessed immediately, "Yes, I've suffered plenty of humiliation in the Weaver family throughout the years. To be completely honest with you, I have no feelings for the Weaver family at all. If my mother did not fall sick and pass away when I was still young, I would not have come to the Weaver family at all. I left Mount Golmin just to come to Aurous Hill..."

As he spoke about this, Liam suddenly became a little excited. He clenched his fists tightly together as he said, "The Weaver family has already insulted and humiliated me for so many

years. The only reason why I'm still staying in the Weaver family is just so I'll be able to look for an opportunity to avenge myself for all the humiliation I've suffered and endured all this while! Furthermore, my father inflicted great harm upon my mother back then and I've always hoped to be able to make him lower his head in front of me. I want him to go up to Mount Golmin and visit my mother's grave to apologize to her for what he did!"

At this point, Liam was feeling a little agitated.

He choked as he said, "Mr. Wade, my mother was originally the only daughter of a family of herbal medicine collectors at the foot of Mount Golmin. Even though she did not come from a big family, she lived a good life because of the craftsmanship of their herbs and medicine. When the scum of my father came to Mount Golmin, he was immediately attracted to my mother because she was beautiful and young. Therefore, he easily deceived my mother as she was still very innocent and ignorant at that time. He fooled around with my mother when my mother thought that he would marry her in the end. Unexpectedly, he was only a scumbag who left when he found out that my mother was pregnant with his child..."

As he spoke about this, Liam continued telling Charlie about everything that happened back then.

Liam's mother was pregnant without ever getting married and she was vilified in Mount Golmin when she was pregnant with Jordan's child. If it weren't because of her pregnancy, she would have ended her life a long time ago.

After Liam was born, he became a bastard child that everyone living in the village at the foot of Mount Golmin would point and laugh at. The only warmth and safe haven that he had during his childhood was his mother.

However, his mother fell ill from overworking and all the accumulated resentment she was feeling. Therefore, she died when he was still a young boy.

Ever since Liam entered the Weaver family, he had never experienced a single good day.

His father looked down on his mother and so he also looked down on him. His stepmother and half-brother abused him, beat him, and humiliated him for more than twenty years. All this while, Liam had been holding in all the resentment that he was feeling just so he would be able to look for an opportunity to take revenge.

As he spoke about this, Liam looked at Charlie before he said sincerely, "Mr. Wade, my father promised that the person who resolves this crisis will become the chairman of Weaver Pharmaceuticals. If you can help me become the chairman of Weaver Pharmaceuticals, I promise to work for you and obey all your commands for the rest of my life!"

## **Chapter 497**

When Charlie heard Liam's words, he suddenly felt that Liam was in a similar situation as he was.

Once upon a time, he was also an orphan and piece of trash who was humiliated and bullied by others.

His life only turned around when Stephen Thompson found him and handed Emgrand Group and a black card with tens of billions of dollars over to him.

Later, Charlie finally had the opportunity to achieve greatness when he found the Apocalyptic Book by accident.

Once upon a time, he had also been cast aside by everyone. He had also been waiting for an opportunity to prove himself to everyone, as well as to slap all those who had despised him in the past!

Therefore, he could understand Liam's feelings very well.

Liam was a child who had been called a bastard ever since he was a young boy. His mother died and even though he was brought into his own biological father's home, he was subjected to even greater torture and humiliation. After more than twenty years, the degree of tolerance in his heart had already increased greatly.

As he thought about this, Charlie decided to help him. Charlie wanted to help Liam to gain control of the entire Weaver family.

It just so happened that Liam's brother was his enemy. Moreover, Charlie could also put the thousand-year old-snow white ginseng to good use for himself!

Therefore, Charlie said, "Liam, since you want to take revenge so badly, I will definitely help you."

As soon as Liam heard his words, he knelt down on the ground with excitement before he slammed his head to the ground as he said, "Thank you, Mr. Wade. Thank you for your generosity! I will never forget it!"

Charlie nodded before he helped him up and asked, "So, where is Kenneth now?"

"At the Weaver family mansion!" Liam replied in a hurry. "Since the ulceration on his penis cannot be treated, he can only temporarily receive anti-inflammatory and antibacterial treatments at the Weaver family mansion."

Charlie nodded again before he said, "Alright then. If that is the case, then let's go and treat him now."

As he spoke, Charlie said again, "However, I have to tell you this. I'm only going to cure the ulceration so that his penis does not rot any further. I will not restore his manhood for him."

Liam hurriedly replied, "Mr. Wade, don't worry! His manhood has nothing to do with the Weaver family at all! The Weaver family only needs to cure him of the ulceration and prevent his penis from rotting so that he does not need to amputate it!"

Charlie smiled before he said, "Alright then. We can leave now."

Liam nodded excitedly before he said, "Okay, Mr. Wade!"

\*\*\*

At this time, everyone was gathered in the Weaver family mansion's living room and they had extremely anxious expressions on their faces.

The deadline given by Kenneth was already near but it seemed as though no one had found a solution to solve Kenneth's troubles.

At this time, Kenneth also had a gloomy expression on his face. He was still infusing fluids into his body. However, the antibiotics could only slow down the rotting but not cure him. In fact, Kenneth was already beginning to feel more pain and he could feel the situation getting more and more serious.

When Kenneth saw the Weaver family members leaving and eventually returning one by one, he could not help but ask in anger, "What? You have not found a way to heal me yet?"

Everyone had an embarrassed look on their faces and they started panicking as they exchanged glances with one another.

## **Chapter 498**

Kenneth glared at the head of the Weaver family before he shouted, "Jordan Weaver! Haven't you found a way to cure me yet?"

Jordan trembled a little as he replied, "Don't worry, Chairman Wilson. I have already sent someone to find a famous doctor to come over to cure you. I have also mobilized all the Weaver family's contacts in the pharmaceutical industry and we are all looking for even stronger antibiotics that would help to cure you."

Even though he was saying that, Jordan knew that there was no hope at all.

He had originally hoped that Jeffrey would be able to invite Anthony to come over to cure Kenneth but Anthony did not give him any face at all. After Jeffrey was driven out of Serene World Clinic by Anthony, he had also gone to look for a few other famous genius doctors in Aurous Hill. However, as soon as any one of them heard that the patient was Kenneth, no one wanted to come.

In fact, word about the incident involving Anthony had already spread all over Aurous Hill. Moreover, they also knew that Kenneth's penis was ulcerating because he had been taking medicine indiscriminately.

The doctor at Silverwing Hospital also said that the only cure for this situation was an amputation. Who would dare to get involved in this matter right now?

If he was not cured, not only would they be ridiculed, but they might also suffer from Kenneth's retaliation. After all, he had retaliated against the Weaver family simply because they had given him medication that ultimately caused his penis to start rotting.

After searching around with no hope of finding anyone to treat Kenneth, Jeffrey could only return home out of desperation.

At this time, the other members of the Weaver family were also in a similar situation as Jeffrey. As soon as anyone heard that the patient was Kenneth, eleven out of ten doctors were unwilling to come. They did not even want to come even if they were offered a lot of money.

When Jordan saw this, he suddenly felt that the future of the Weaver family was very bleak.

In fact, Kenneth's rate of festering was not too slow. At this rate, it could be estimated that his penis would be completely rotten in less than two days' time. At that time, the Weaver family would certainly meet its demise...

At this time, Jeffrey dragged Jordan aside before he asked in a low voice, "Dad...what should we do now? Why don't we run away instead?"

Jordan looked at Jeffrey with a sullen expression on his face. The more he looked at him, the angrier and frustrated he felt. "You only know how to escape all the time! Where could you possibly run to? Do you think that Kenneth will not look for us after we leave Aurous Hill?"

After that, Jordan looked at Jeffrey with an annoyed expression on his face as he said, "I asked you to bring Dr. Simmons here but you came back all by yourself! You're really useless!"

Jeffrey was very dissatisfied and he argued, "Dad, you can't blame me! As soon as Dr. Simmons heard that I wanted him to treat Kenneth, he refused immediately. It's clear that he has an enmity with Kenneth. So, what else can I do?"

At this time, Jordan raised his hand and gave Jeffrey a slap across his face before he cursed at him, "This has always been the case with you ever since you were a child! Whenever something happens, you will always shirk your responsibility! Do you think that you aren't to blame just because Dr. Simmons refuses to come? Have you thought about this? Would we even be in this situation if you did not try to win Kenneth over by giving him a drug that has not been clinically verified?"

As he spoke about this, Jordan scolded angrily, "If you did not do that, would we have ended up in this situation? I've worked so hard my entire life to build up Weaver Pharmaceuticals and now you're about to destroy it overnight!"

Jeffrey had been spoiled ever since he was young and his father had rarely ever hit him. At this point, Jordan could not help but slap Jeffrey as he was filled with anger and disappointment.

Jeffrey also had a very ugly expression on his face at this time. He knew that he was to blame for this incident and it was impossible for him to push the responsibility to someone else.

He could only cover his face as he stammered, "Dad, I'm really sorry. I was wrong but I was only trying to bring the Weaver family further. After all, Kenneth is the chairman of Modestway Group and I thought that our future would definitely be brighter if we developed a good relationship with him..."

Jordan sighed in despair because Jeffrey's words somehow touched him to a certain extent. He knew that his son did not intend to harm the Weaver family. He had only done this because he hoped that he would be able to help the Weaver family prosper even further...

Was this really the destiny of the Weaver family?

Perhaps this was the price that he had to pay for fooling around too much when he was younger?

As he was about to lose all hope, someone in the Weaver family suddenly yelled excitedly, "Liam has brought the genius doctor, Dr. Simmons, and a young man back with him!"

## **Chapter 499**

As soon as he said this, everyone was very excited.

Jordan's eyes widened as he asked in a trembling voice, "What did you just say? Who did Liam bring back with him?"

A person yelled at the door, "Liam brought Dr. Simmons and a young man back with him! They have already entered the yard!"

As soon as the voice fell, Jordan immediately had an ecstatic look on his face!

Dr. Simmons was here?

Has Liam finally invited Dr. Simmons here?

Oh my god! It seemed as though there was hope for the Weaver family!

Kenneth was even more excited at this time.

He did not care about the needle infused at the back of his hand. His eyes were filled with excitement at this time!

Ever since his penis began to rot, Kenneth knew that Dr. Simmons was the only one who could cure him.

However, he also knew that Anthony was very dissatisfied with him and it would be impossible for him to step up and save him.

Moreover, he really could not understand why Anthony would change his mind and agree to treat him for the sake of the Weaver family. However, he could not be too bothered about it. He simply wanted to cure himself.

Even if he could not use it, he wanted it to be in perfect condition. He did not want to amputate it...

At this time, Jordan, who had not been in good health, quickly walked towards the door, filled with excitement in his heart. "Hurry! Bring Dr. Simmons in immediately!"

Jeffrey was in disbelief and he blurted out immediately, "How can that bastard, Liam, possibly get Dr. Simmons to come here? There's no way that he possibly did this!"

"Shut up! I don't care how he did it. It's a good thing that he's managed to invite Dr. Simmons to come here."

Jordan glared at Jeffrey before he warned him “Do not talk nonsense later! If there’s anything you need to say, wait until Dr. Simmons cures Chairman Wilson first!”

Jeffrey was very upset but he could only nod as he listened to his father’s words.

At this time, Liam stepped into the Weaver family mansion with Anthony and Charlie.

When they saw Anthony, the rest of the Weaver family members were all relieved.

Everyone felt that the Weaver family would finally be saved now that Anthony was here.

“Unexpectedly, in the moment of crisis, it is none other than Liam who has turned the tide around. He’s really incredible!”

“It seems as though Weaver Pharmaceuticals will be handed over to Liam now!”

With Liam’s sudden performance, the direction of the entire Weaver family seemed to have changed a little.

After all, Jordan was the one who proclaimed that anyone who could resolve this crisis would become the chairman of Weaver Pharmaceuticals and the head of the Weaver family!

Everyone could not help but feel a little strange at this time.

Jeffrey was filled with hatred and anger as he listened to everyone’s comments.

‘Liam! You damn bastard! You actually dare to steal my limelight?’

There was also that wretched Dr. Simmons! When Jeffrey invited him, he had refused to come. So, why did he come when Liam invited him?

At this time, Jeffrey suddenly saw Charlie.

The expression on his face turned ugly immediately.

He would never forget the humiliation that he suffered when Charlie forced him to lick the urinals at Glorious Club!

## **Chapter 500**

Unexpectedly, this guy was actually together with that bastard, Liam!

Kenneth was also going to greet Anthony excitedly. However, the expression on his face changed as soon as he saw Charlie.

At the same time, he could not help but feel very upset.

The humiliation that he had suffered in front of Charlie was no less than what Jeffrey had suffered!

Originally, he regarded Charlie as his mortal enemy. However, now that Charlie was here with Anthony, he did not dare to say anything or cause a scene at all. This was because he knew that Anthony really looked up to and respected Charlie. If he offended Charlie again, Kenneth was afraid that Anthony would refuse to cure him.

As he thought about this, Kenneth stepped forward immediately before he bowed and said, "Uncle Simmons, I know that I've angered you previously. I know that it is all my fault. I know that I was wrong. Please heal me!"

At this time, Anthony replied nonchalantly, "I've already told you that both our families would have nothing to do with one another in the future. Please do not address me as your uncle again in the future!"

After that, Anthony pointed at Charlie before he said respectfully, "Also, the person who will take care of you today isn't me but Mr. Wade instead!"

In Anthony's eyes, Charlie's ability was almost close to God's. Moreover, Charlie's ability at refining magical pills and medicine had already suppressed that of all the doctors and pharmacists in this world.

Therefore, Anthony respected Charlie with all of his heart.

Kenneth was stunned when he heard this and he looked at Charlie in disbelief before he said, "What? Charlie, do you really think that someone like you will be able to cure me?"

At this time, Charlie looked at Kenneth with a playful expression on his face as he said, "Well, Kenneth, what kind of attitude is that? Do you really want to go through an amputation?"

Anthony also frowned as he said, "Kenneth, Mr. Wade is the only person in this world who can save you from your misery now. I hope that you won't have any regrets in future if you're going to continue disrespecting Mr. Wade!"

Kenneth choked as soon as he heard Anthony's words.

In fact, he had already suspected that Charlie was the one who made him lose his manhood in the first place. However, he could not find any evidence linking it at all.

Moreover, Charlie had already humiliated him more than once! He had even forced him to address him as his father and grandfather!

It could be said that the person that Kenneth hated the most in this world was Charlie.

However, as soon as Kenneth heard that Charlie was possibly the only person in this world who could save him, he quickly buried all the hatred that he was feeling. After that, he looked at Charlie with a flattering expression on his face as he said, "I was wrong, Mr. Wade. Please do not take it to heart. Please help me. Please save my life!"

Charlie smiled faintly before he looked at him and said, "Kenneth, have you forgotten who I am?"

Kenneth gritted his teeth as he secretly thought to himself that he could endure this humiliation for the sake of his own roots!

Therefore, he immediately knelt down in front of Charlie before he said, "Grandpa, everything that happened in the past is my fault. Please do not take it to heart and please cure me!"

As he said this, he also slapped himself in the face, out of fear that Charlie would still be angry and refuse to give him any treatment at all.

At this time, everyone gathered in the Weaver family mansion were all dumbfounded. This was Chairman Wilson!

Chairman Wilson from Modestway Group was actually calling a young man his grandfather?

What is the identity of this young man who could actually make the chairman of a publicly listed corporation bow before him?

Charlie nodded in satisfaction before he said, "Alright then, I do think you're getting better and better at it."

Both Jordan and Anthony really admired Charlie but Kenneth was even willing to call Charlie his grandfather! It was really shocking!

At this time, Jordan stepped forward and complimented, "I have already heard of your name for the longest time, Mr. Wade! I really did not expect to meet you in person today. You are truly a master! Please help me cure the chairman's illness today."

Jeffrey, who was standing aside, could not help but feel angry when he saw Charlie. Therefore, he gritted his teeth as he said, "Dad! This grandson is not a master at all! I have looked into him and I found out that he is nothing more than someone who could read a little Feng Shui! Don't fall for his trap! That bastard, Liam, must have called him here to deceive you!"

Jordan trembled a little at this time and when he saw the frown on Charlie's face, he gave Jeffrey a tight slap across his face without any hesitation at all.

What he did not expect was that Kenneth, who was kneeling on the ground at this time, also jumped up and slapped Jeffrey across the face when he heard his words. Both of them gave Jeffrey two tight slaps across his left and right cheek!
