

## When His Eyes Opened by Simple Silence Chapter 1961

### Chapter 1961

Norah Jones was so angry that she wanted to smash the phone in her hand, but she held back.

She took a deep breath and asked, "Is Sasha arranged properly? Next, she must not appear in the public eye! Let alone let her appear in front of Elliot and Avery! If she confesses, I will over!"

"Ms. Jones, don't worry, she promised me that she would never show up in front of any one. If she doesn't hide well this time, there will only be a dead end."

"Why is Avery alive?" Norah Jones gritted her teeth, "After starving her for six days, she could survive!"

"I didn't expect this woman to be able to endure so much! Seeing how thin and weak she was, I thought she wouldn't be able to last long! I don't know where Elliot went... .. Maybe Avery knows."

"You pay close attention to Avery's situation. See if you can bribe the people in the hospital." Norah Jones instructed, "If you can get Elliot's whereabouts, I will definitely reward you!"

At hospital.

When Avery woke up again, the doctor came immediately.

"Miss Tate, how are you feeling now? Can you try to speak?" The doctor whispered, "Your son has been watching you in the hospital day and night for four days. He has been waiting for you to wake up."

Avery's gaze shifted from the distracted state to the doctor's face.

"Miss Tate, can you loosen this dress?" The doctor pointed to the men's shirt in her hand.

The nurse changed her into hospital uniforms as early as the first day she was hospitalized, but she kept holding on to the men's shirt and refused to let go.

There was Elliot's breath on it, so even if she wasn't fully awake, she wouldn't let go of this dress.

"I don't mean anything else. This dress is quite dirty. You can take it to wash for your family." Seeing that she didn't speak, the doctor could only find other topics to cut into.

Avery tried to move her arm.

She raised her arm holding the shirt, and when she saw Elliot's shirt, her eyes were lost, and her voice was hoarse: "I'm still... alive?"

"Of course. I heard that you were trapped under a bungalow in the suburbs. Your son rescued you. Your son is really capable." The doctor praised, "He not only has the ability, but also filial piety. Miss Tate, you must take good care of your body. Your blessings will not be enjoyed in the future. Exhausted."

She pursed her lips and asked, "How many days did I stay in the basement?"

"Six days."

Avery's eyes were flushed, and she was glad that Hayden had saved his life.

"Where's Elliot?" After confirming that she was still alive, she was most worried about him.

The expression on the doctor's face suddenly became stiff and unnatural.

Avery caught the subtle expression on the doctor's face, and the alarm bell rang in his heart.

"Doctor, what's wrong with him? You tell me..." Avery's face flushed with excitement.

She even tried to sit up on the bed, but was unable to succeed because her body was so weak.

"Miss Tate, it's up to your friend to tell you this!" The doctor couldn't bear to tell her the truth, "It's not that I don't tell you, it's about Mr. Foster, I really don't understand."

"Why don't you understand?" Avery asked with tears in her eyes, "Could it be that he has been assigned to another doctor?"

"Hey! Miss Tate, only you have been rescued. As far as I know, they haven't found Mr. Foster yet." The doctor said here, not daring to continue talking to her. Because her tears had flowed down the corners of her eyes.

"Miss Tate, I'll transfer you to the general ward first. Your relatives and friends all want to see you very much." The doctor said softly, "You are still very weak, so it's not suitable for you to be so sad."

Avery didn't hear the doctor's advice. All she heard was 'you were the only one rescued' and 'they haven't found Mr. Foster'.

Why is this happening?

She and Elliot were clearly trapped in the basement together. Why did they only rescue her but not Elliot?

After she was transferred to the general ward, Ben Schaffer and Chad stood by the hospital bed, looking at her expectantly.

Her bodyguard suddenly 'thumped' and knelt in front of her hospital bed.

"Boss! I'm sorry! I didn't protect you! I almost lost your life!" The bodyguard said, crying.

Ben Schaffer and Chad looked at the bodyguard with a look of astonishment.

Avery's attention was forcibly attracted.

"Boss, it's fortunate that you didn't die! Fortunately, you survived! Otherwise, I'll be to blame!" The bodyguard cried and wiped away tears.

Chad glanced at Avery's face, and then reprimanded the bodyguard in a low voice: "She has just been transferred from the intensive care unit, and no one is awake yet. You are so noisy, you are not afraid to scare her out?"

Ben Schaffer hair hurts: "You go out first. Don't come in without orders."

The bodyguard immediately got up from the ground and said to Avery with a look of guilt: "Boss, I'm going to guard outside. You can call me at any time if you have anything."

After the bodyguard left, the ward door is closed.

Hayden was called by the doctor, so now only Ben Schaffer and Chad were watching Avery in the ward.

"The doctor said that you only rescued me out? What's going on?" Avery looked at the two of them while holding back his grief.

"When we entered the basement, you were the only one inside." Ben Schaffer said, "There are two exits in the basement. The exit on the manhole cover was welded to death. The other exit was locked from the outside. Avery, listen. What do you mean by what you just said, before you passed out, you were trapped in the basement with Elliot, right?"

Avery choked and said hoarsely, "Well. The woman who exposed the corpse pit is called Sasha. She tricked me and Elliot into that basement... She said that Haze was in that basement, so we both went down. After we went down, we found that we were cheated. When we wanted to go out, we found that the exit was blocked. "

When Avery said this, tears fell.

"It's almost as I guessed. There must be someone behind this Sasha. They must have taken Elliot away." Ben Schaffer gritted his teeth, "Avery, take care of your illness, we will do our best to find Elliot.

The light in it dissipated little by little.

Now Avery doesn't even know who is behind Sasha, how can she imagine Elliot's current situation?

Thinking of the grief, Avery seemed to be strangled and breathless.

After seeing the doctor, Hayden entered the ward. Seeing that his mother was crying, he immediately trotted to the bedside.

"Mom! Don't cry!"

Hayden took the tissue from Chad, trying to wipe his mother's tears.

But Avery pushed his hand away.

"...I'm going to find Elliot...I want to see his person, but I want to see his body..." Avery grabbed Elliot's white shirt, Put it on her lips and hide the cry.

Even though his clothes were already dirty, there was still his breath on them. This was the only thing he had left for her before he disappeared.

"Mom, Uncle Schaffer and Uncle Nick have already sent someone to look for him." Hayden sat down beside the hospital bed, pulled his mother's hand away from his face, and gently wiped the tears on her face with a tissue in the other hand. "I've booked a special plane to return to Bridgedale today. I'll take you home first."

### **Chapter 1963**

"I'm not going home...I'm not going anywhere..." Avery refused Hayden's arrangement without thinking, "I want to find your father...I want get him back!"

Avery's voice was hoarse and her emotions were out of control.

Ben Schaffer patted Hayden on the shoulder: "Hayden, you go to the hotel to rest first, we will persuade your mother."

Hayden didn't want to leave his mother, and was afraid that after leaving his mother, his mother would disappear again.

"You are obedient. Your mother can't be stimulated now, but your father's affairs have made her stimulated... No matter what she says now, we must follow her." Ben Schaffer pulled Hayden to the door of the ward. Outside, he whispered, "You go back to the hotel with the bodyguard to rest first. I and your Uncle Chad will definitely persuade her to recuperate."

"I want to take my mother back to Bridgedale for treatment." Hayden expressed his thoughts.

"Hayden, Aryadelle is your mother's hometown. Even if your mother wants to go home for treatment, she will return to Aryadelle. Your younger siblings have already returned to Aryadelle." Ben said, "I know you don't want to be separated from your mother, but you Respect your mother's thoughts."

Hayden pursed his lips, and after being silent for a while, he turned and left.

He is not good at coaxing people, and his mother's emotions are too intense now, and he is a little overwhelmed.

After Hayden left, Ben Schaffer returned to the ward and closed the door of the ward.

"Avery, we have already sent someone to find my boss. No matter what the result is, we will devote the greatest human and material resources to find him. So you can take care of your health and leave the rest to us." In the chair beside the bed, Ben comforted Avery, "It's a big surprise that you can turn the corner into safety now. Hayden hasn't slept well all these days after your accident. Mike didn't dare to tell Layla and Robert what happened to you."

"Avery, Nick has sent someone to Sasha's hometown to find Sasha's whereabouts. We also sent others to find Elliot in major cities in Yonroeville..." Ben Schaffer looked at her, exhaled, "If we can't find Elliot, you probably won't find it either. Your children are still young and need your company. I told Hayden that when you get better, I will send you back to Aryadelle. Layla and Robert have already started school. They are used to having Elliot around, but now Elliot is not around, so you can go back and accompany them, okay?"

Avery closed her eyes, and her tears couldn't stop falling. She couldn't hear a word of their consolation.

She carefully recalled in her mind what happened before she fell into a coma. Did she miss any key clues...

The harder she thought, the more her head hurt.

From the first night they were trapped in the basement, her stamina couldn't hold up.

She only remembered that she had been lying in Elliot's arms, because she was afraid that it would not last long, so she tried her best not to speak and save her strength.

But even so, she fainted.

She didn't know that she passed out on the first few days of being trapped. At that time, she had no strength to look for her mobile phone, nor did she want to check it, because the mobile phone ran out of electricity on the second day they were trapped.

"If Elliot is dead...I can't live..." Avery opened her tears suddenly and said these words of despair.

She was always reminded of what they had said on the first day they were trapped in the basement.

At that time, she deliberately didn't tell him that there was a special positioning chip in her mobile phone. As long as Hayden knew that she was missing, he would definitely come to her.

Avery didn't tell Elliot because she wanted to test his sincerity.

At that time, he felt that their chances of survival were slim, and his sadness and despair could be seen in his pretended calm tone and sympathetic eyes.

She asked Elliot if he loved her, and he answered her without hesitation.

She will never forget his affectionate eyes and firm tone at that time.

She had never been so sure of Elliot's feelings for her, so she only asked this one question, nothing else mattered.

Now, she knows that Elliot's feelings for her are more real than real gold, but what about others?

It was a huge pity that Avery couldn't breathe.

## **When His Eyes Opened by Simple Silence Chapter 1964**

Avery was so full of thoughts that she couldn't think of anything else except him.

"Avery, are you guys in the basement, clarifying the misunderstanding?" Ben Schaffer asked, looking at Elliot's shirt in her hand.

"He said he has always loved me..." Avery burst into tears, her voice trembling, "Me too... Me too!"

Ben Schaffer was stuck in his throat, wanting to say something, but felt that he could say anything.

Now Elliot's whereabouts are unknown, and his life and death are unknown. Letting her know that Elliot's love for her has never changed, it will only make her more miserable.

After Avery cried for a while, she fell asleep because of her weakness.

Ben Schaffer and Chad came out of the ward, and the two of them exhaled heavily.

"Brother Ben, what should I do?" Chad felt like a knife, "If I can't find the boss, I'm really afraid that Avery won't be able to come out."

"I don't know what to do." Ben Schaffer had a splitting headache. "I feel that Elliot is no longer in Yonroeville. No one has contacted us for so many days since he had an accident, indicating that the person who took him does not want us to find him."

Chad took off his glasses and reached out to wipe his tears.

Ben Schaffer leaned against the wall of the corridor, thought for a while, and then said: "You take Avery back to Aryadelle first, and when she returns to the child, maybe her mood will be better."

"What if she doesn't want to?"

Avery has to let her go back to Aryadelle if she doesn't want to! Otherwise, in a few days, she will recover a little, and she will definitely try to escape from the hospital..." Ben Schaffer paused when he said that, "Hayden didn't pack a special plane. Really? Let's send Avery back to Aryadelle today!"

Chad: "Brother Ben, let's calm down first! She's already uncomfortable enough. If we force her to return to Aryadelle, she will definitely do extreme things."

"I'm really not very calm now." As long as Ben Schaffer closed his eyes, the dark basement and Avery's grief-stricken cry would appear in his mind.

Chad: "Let's take her to that basement tomorrow! If we don't take her back to the scene, she'll be there too."

Ben: "Okay! We'll see how she is tomorrow."

The next morning , Avery woke up and saw Hayden sitting beside the hospital bed.

"Mom, do you want to go to that basement?" Hayden asked, "If you want to go, I can take you there."

Avery nodded after listening to Hayden's words.

"Then you eat breakfast first." Hayden took out the warm porridge he brought and fed her spoonfuls.

After breakfast, Hayden took Avery into a wheelchair and sat down, then pushed her out of the hospital.

More than an hour later, the car stopped at the crime scene.

The road to the bungalow was leveled, and along with it, there was the bungalow.

Avery looked at the ruins in front of her, and the expression on her face became stunned.

"Mom, I'll take you to see that basement." Hayden pushed the wheelchair and walked a few meters forward.

In front of him, a huge pit appeared.

It was the basement that trapped Avery and Elliot.

"Elliot is no longer here." Hayden looked at the pit in front of him and said to his mother.
