

A Man Like None Other Novel

Chapter 2474

The armor-piercing beast brought David back!

At this time, Hu Mazi and Master Hammer have almost recovered!

David took out the purified ore essence and fed it to the other armor-piercing beasts, and the other armor-piercing beasts were also full. They were all very grateful to David!

"Master Iron Hammer, with my current strength, I'm afraid I won't be able to go to the Huomingzong to rescue your suzerain, but please rest assured, I will find a way to help you rescue your suzerain after I have dealt with the affairs of the secular world."

David assured Master Hammer!

Master Hammer nodded, "I believe in you, even if you can't save our suzerain, I should thank you, now I have the forging fragments in my hand, and these armor-piercing beasts are all alive, so I can slowly restore the Artifact Sect."

"In less than ten years, our Artifact Sect will definitely be able to create another glory, and then I will help you build a magic weapon."

Master Hammer thanked him very much. Follow David and say!

Master Iron Hammer is very grateful that David didn't forge the incomplete badge. If someone else gets the forged incomplete badge, he will definitely keep it for himself!

After saying goodbye to several armor-piercing beasts, David and the others returned to the Artifact Sect.

"Can you still open the passage from the celestial world to the secular world?"

Master Iron Hammer asked David!

"I'll give it a try. I'm not sure now..."

David also consumed a lot of spiritual power to forge and purify those spirit ores, so David is not sure whether he can open the passage to the secular world now, so he plans to try try!

"David, I think you should stay here and go back after your strength improves. After your strength improves, it will be much easier to open the passage.

" Only by absorbing it can it exert its maximum energy, if you take it away from the secular world, perhaps because of the suppression of the law of heaven and earth, the energy of this golden phosphorite will be greatly reduced?"

Master Hammer persuaded David!

David was stunned, and said a little embarrassedly, "Master Hammer, you...do you know that I have phosphite on me?"

"Of course I know, the aura of phosphite is very unique. Our Artifact Sect is so busy, it's not a big deal for the armor-piercing beast to give you a gold phosphorite."

Master Hammer said with a smile!

"David, what is Phosphorite, let me see..."

Hu Mazi asked curiously!

David could only take out the Phosphorite, Hu Mazi took the Phosphorite in his hand, looked at it carefully, his eyes were full of envy!

"In this case, then I will absorb the gold phosphorite here first and then go back to the secular world..."

David decided to absorb the energy of the gold phosphorite in the secular world first, and then return to the secular world after improving his realm!

David found a quiet place and began to absorb the energy of Phosphorite!

Hu Mazi and Jianling Zhongli are the guardians of David!

Master Iron Hammer left, and began to lobby people nearby to recruit disciples for the Artifact Refining Sect!

If we want to rebuild the Artifact Refining School and bring it back to glory, Master Iron Hammer alone is not enough, he has to recruit disciples for the Artifact Refining School!

When David was cultivating in the world of heaven and man, the atmosphere in the secret realm of the Demon Heart Sect seemed a little strange!

The six purple-robed messengers gathered together, and at this moment, the six purple-robed messengers took off the masks on their faces!

Although they had already guessed each other's identities, when the masks were taken off, the six purple-robed envoys were still a little shocked!

After all, they are also the Patriarchs of the sects in the Eight Great Secret Realms, and they know each other well!

It's just that neither of them knows the identity of each other's purple-robed envoys from the Demon Heart Sect!

Now that the mask is taken off, it means that we can see each other honestly!
