

# A Man Like None Other Novel

## Chapter 2516

It's as simple as an adult beating a child!

David found out that Ali, the highest combat power in Dashi Village, was just a monk who had just stepped into the Transformation Realm. In the realm of warriors in the secular world, he was at best a great Marquis!

If David regained a little strength casually, he could still beat Marquis Wu.

"You can really save people?" The old village chief looked at David in disbelief!

"Old village chief, it was Yun'er who saved me and let me stay in Dashi Village, and the villagers of your Dashi Village didn't embarrass Yun'er and drive me away, which means that Dashi Village is kind to me, how could I lie to you !"

David said sincerely!

The old village chief looked at David like that, nodded after a while and said, "Okay, let Zhuzi take you there, but come back immediately if you encounter danger!"

"Understood, thank you old village chief..."

David Very grateful!

In fact, the old village chief also knew that even if all the people in Dashi Village were taken away, it would only increase the casualties. Maybe their Dashi Village would be wiped out from then on!

Since David made such a vow, the old village head decided to let David try it!

"Zhuzi, let's not waste time, let's go..."

David urged Zhuzi!

Zhu Zi glanced at the old village chief, who waved his hands and said, "Go ahead, be safe..."

Zhu Zi nodded, and then led David out of the room!

When Zhuzhu passed the door of his house, he took out a long knife as tall as himself and a bow and arrow from the room.

"Let me see the people in Daqing Village, I'll shoot them to death..."

Zhu Zi gritted his teeth, it seemed that he hated the people in Daqing Village!

"Zhuzi, do people in Daqing Village always bully you?"

David asked.

"No, they always bully us because of their numbers and power. Originally, in this mountain range, we each had our own hunting grounds!"

"But Daqing Village expands their territory every year, squeezed the hunting place of our Dashi Village to the edge, and it is getting smaller and smaller."

"Every time I go out, I come back with very little harvest, so the people in our village are getting poorer and poorer..."

Zhuzi introduced !

When David heard it, it seemed that Daqing Village and Dashi Village were still feuds, all for the purpose of robbing resources!

"The people in Daqing Village can just grab things, why are they still hurting people? Why did he catch Yun'er and the others?"

David was very puzzled. Since it was for resources and no other hatred, he took things away. Forget it, why arrest people!

"Brother David, you don't even know that the people in Daqing Village are bad. They arrested our people just to take things to redeem them, and they would also secretly attack our village and rob us of our things. The watchtower in the village is to prevent surprise attacks from Daqing Village."

"They not only rob things, but also kill people, my father was killed by the people of Daqing Village..."

Zhuzi said, and started to cry!

When David saw it, he immediately stepped forward and stroked Zhuzi's head, and then asked, "Why are the people in Daqing Village so bad? They are simply bandits..."

"They were originally bandits, and Daqing Village used to be a bandit village, Later, due to the good location of Daqing Village and the large hunting grounds, it gradually attracted many people to settle down, so the current Daqing Village was formed."

Zhuzi explained!

When David heard this, he immediately understood, no wonder the people in Daqing Village were so cruel, they turned out to be a bunch of vicious bandits!

David and Zhuzi walked while chatting, and soon came to the foot of the mountain range.

There are monsters at the foot of this mountain from time to time, but they are generally small monsters with relatively low levels and are not very valuable, so in order to capture large monsters, Ali and the others will go deeper into the jungle!
