

A Man Like None Other

Novel

Chapter 2527

The medicine for wound healing is not difficult to refine. David made some medicine powder, and then asked the old village chief to apply it on Ali and the others. It took only two days for these people to heal!

As for Yun'er's injury, it only took one day for David to let Yun'er recover without even leaving the slightest scar on her body!

Moreover, after the people in the village knew that David was a pharmacist, they all went to see David for medical treatment. David seemed to be a country doctor, but he was also responsive to the people in the village!

"Brother David, we are going to the town to sell demon wolves today, are you going?"

Yun'er asked David!

"Okay!" David nodded!

I have also stayed in Dashi Village for several days, and David also wants to go out for a walk to see the humanistic environment of the Heaven-Human Realm!

At this time, at the gate of Dashi Village, Ali and the others had already packed the wolf's body and carried it on their shoulders. When they saw David coming, Ali and the others all followed David to thank him.

Now David has a high prestige in Dashi Village, and the villagers of Dashi Village also regard David as a member!

A group of people set off in the direction of the town. The nearest town from Dashi Village is Qingshi Town, which is hundreds of kilometers away. Many nearby villages take their things to Qingshi Town to sell, and buy some daily necessities from Qingshi Town. !

In fact, these low-level monks in the world of heaven and man live the most basic life. Although everyone has a dream of becoming a fairy, not every monk can fly to become a fairy!

Like the monks at the bottom, among thousands of them, there will not be one who will ascend to immortality. The road to immortality is too difficult, and it also requires too many resources!

Although a hundred kilometers is not close, in the eyes of these monks, it is not far away. It only took an hour for everyone to arrive at Qingshi Town!

David looked at the Qingshi Town in front of him. It was not as majestic as he had imagined. It was just a village with a relatively large population. And there was a square on the side of Qingshi Town, where people sold their things!

Most of the things sold here are monster corpses and the like, and there are also some strange-shaped stones or spiritual herbs, but David saw that few people cared about these things!

After Ali and the others arrived, they didn't sell like the others, but found a house made of stones. Before they got there, David could smell the strong smell of blood inside the house!

"Boss Li, the goods have been received..."

Ali shouted outside the house.

At this time, a tall and thick man walked out of the stone house, his body was still stained with blood, he glanced at Ali and said, "So it's Ali, what do you pay today? You haven't been here for several days!"

"Boss Li, Today I want to hand over the corpses of ten demon wolves!"

After Ali finished speaking, he asked everyone to put the corpses of demon wolves on the ground!

Looking at the corpses of those monster wolves, Boss Li said in disbelief, "Ali, you hunted and killed these monster wolves?"

" They are the same as Daqing Village, they are all bandits!"

When Ali thought of those people in Daqing Village, his body was filled with anger!

Boss Li glanced at Ali, opened his mouth, and stopped talking!

Finally, he hesitated and said, "Ali, you monster wolf corpses, I can only give you five spirit coins per head."

"What? Five spirit coins? That's too little?"

"That's right, two days ago we Come and hand over the corpse of the demon wolf, and twenty spiritual coins!"

"Boss Li, your business is too dark." As

soon as Boss Li finished speaking, all the people in Dashi Village started shouting!

And Ali's face was also a little ugly, "Boss Li, we are old acquaintances, and I also know the price of the demon wolf's corpse. Isn't your five spirit coins a bit too cheap?"
