

Read Novel Married At First Sight Chapter 1809

Novel Married at First Sight Chapter 1809 -Hayden sent Kevin back to the vicinity of the hotel, so she woke up Kevin, and said to Kevin: " Mr. York, we're almost at your yorks' hotel."

Kevin sat upright and looked out the window, um, it was a familiar street scene.

He said embarrassedly to Hayden: "I slept all the way, and Mr. Queen, I made you laugh."

Hayden: "Understood."

Hayden thought in her heart, he didn't wake up unconscious, it's already very good, otherwise she needed to take care of him all the way.

Kevin asked her: "Mr. Queen, where do you usually live?"

After a moment of silence, Hayden said, "I bought a villa in the Yuvinn villa area. I usually live there. It is much closer to the company. If you drive, it will only take you 10 minutes."

If Hayden lived in the old mansion with her parents, it would take an hour to drive back to the company, and she couldn't afford to sleep longer.

Hayden had a very steady schedule, and she was never late for work. Every morning, she has to be at work before 8:30. Compared with other senior managers, she was considered early.

If she stayed in bed longer due to the distance, woke up later, and then came back to the company, it must be later than 9:00. In many instances, she was already in a meeting at 9:00.

So for the sake of convenience, she bought a house outside. It was convenient to commute to and from get off work, and she didn't have to live with her parents.

Kevin: "The Yuvinn villa area is a high-end villa area in Jensburg. How much does a villa there cost? Are there any villas for sale now?"

Hayden: "Mr. York wants to buy it?"

Kevin smiled and said: "I used to live mostly in hotels, but I feel that living in hotels will never feel like home, so I want to buy a house as my home in Jensburg."

But I seldom come to Jensburg, and I don't know much about the houses here and you're from Jensburg, and your family is also involved in real estate. I think you can definitely help me with this."

Kevin said reasonably, Hayden didn't think too much about it, she said: "The Yuvinn villa area is the best and the most high-end villa in Jensburg City, and it is very popular. It is basically sold out now. Mr. York, let me help you, if there are any more, you can go to see the house, and buy the one that suits you.

If there is no more, I can introduce other villas to you. There are quite a lot of good villas in Jensburg."

Kevin said: "I'm still looking to purchase a villa near the Yuvinn villas. Mr. Queen, you reside there for the sake of convenience when traveling to work, and I do the same when traveling to work. Is there a old one available? I have nothing against old ones."

The tricks didn't care about the old villa, as long as it's useful.

For example— He and Hayden, had been friends for a very long time, but their paths rarely crossed. If he wanted her to fall in love with him, he needed to communicate with Hayden more. He could interact with her every day if he moved in next door. Knowing that he was good, Hayden would gradually start to love him.

Additionally, he had more chances to point out Hayden's shortcomings and reveal her gender.

He didn't want to be called gay when he fell in love with Hayden.

"Old villa?" After thinking for a while, Hayden said, "I heard from my housekeeper that my neighbor's neighbor's house wants to be resold. There is no decoration, and the surrounding houses have been well-decorated, and the villa has remained silent for several years. House speculators will be a little expensive to sell. Do you want to see, Mr. York?"
