I am a quadrillionaire chapter 1978-“Celeste, don’t thank me. This is what I should do. From now on, no matter who wants to touch you, they will have to ask whether David agrees. As long as I don’t agree, no one can touch you, not even your teacher or a Sacred Saint,” David said domineeringly.

‘Yes, I believe you!’ Celeste responded with a smile while crying.

“Let’s go! Celeste, I’ll take you away from the ice cavern. I want to see who in the Iridescent Sect dares to stop me,” David said viciously.

“No! I don’t want to leave just yet,” Celeste said, blushing.

“Why?”

After David finished asking, a touch of red came to his eyes before he could react.

After some time, the bottom of the ice cavern.

Crack!

The ice sculpture suddenly broke open, revealing the figure inside.

At the same time, David opened his eyes.

The two looked at each other, i

David smiled a little while Celeste bowed her head.

“Celeste, let’s go!” David said.

Yeah!” Celeste hummed. After that, she stood up and went to David’s side.

The two had just walked a few steps before David stopped and turned to look at the bottom of the ice cavern.

“What’s wrong?” Celeste asked, feeling puzzled.

“Celeste, I don’t suppose we can hide from your teacher if we leave like this, right?”

‘Yeah, Master has set a restriction on me. Even if I leave the lowest level, Master will know, let alone if I walk out of the ice cavern,’ Celeste shook her head and said.

“That’s fine! Since we can’t hide, let’s give them a big surprise. I have long viewed the ice cavern as unpleasant. It devours human emotions and turns a person into a

machine without emotions. This is a horrible place that shouldn't exist," David said with a sneer.

"David, you... are you going to destroy this place?" Celeste asked with wide-eyed eyes.

She did not expect David to be so courageous.

Not only would he save her, but he also wanted to destroy the ice cavern.

This was one of the most important places in the Iridescent Sect, second only to the forbidden area.

If this place was destroyed, the four reputable elders would surely go crazy.

You're right. It's unknown how many disciples have come here to accept the most painful punishment in the world since the establishment of the Iridescent Sect. They have made mistakes, so they deserved to be killed. However, isn't it inhumane to devour their emotions? This horrible place should have been destroyed long ago."

"B-But David, this is one of the most important places in the Iridescent Sect, second only to the forbidden area. Once it is destroyed, Master and the others will definitely not spare you." Celeste said hastily.

"Celeste, don't worry! Since I dared to come, I'm not afraid of them. Even if all four reputable elders come together, they won't be able to do anything to me," David assured Celeste.

"W-Well then! Be careful." Seeing David's confidence, Celeste stopped persuading him.

It was fine as long as David was confident that he could deal with the anger of the four reputable elders.

She did not like the ice cavern either.

Many disciples who have made mistakes in the sect would be sent here. After they were given the restrictions, they would not even be able to commit suicide. Thus, they could only become emotionless machines.

Hence, it would be good to destroy this place.

It was the last thing she would do for the women in the sect before leaving!

Celeste knew that after she followed David to leave the ice cavern today, she would not be able to stay in the sect anymore.

Hence, she could only quit.
