I am a quadrillionaire chapter 1921-Inside the Iridescent Sect of the Iridescent Continent.

When Lady Dream learned about this news, she was stunned even though she already figured David was the one behind this when the bizarre phenomena happened after a Saint died.

Back in the iridescent Sect, Nek had almost killed David.

Now that David was powerful enough, he would surely go and avenge himself.

However, when she got the news, Nova was still beyond shocked.

She could not understand how a kid from a low civilization leaped from Eternal Realm Ruler Rank, crossed multiple obstacles, and became a Saint Realm True Saint in such a short time.

Perhaps David was the only person who knew now.

Since she knew David was behind this, she did not need to hide anymore.

Therefore, Nova summoned Selena and her other disciples to tell them all about David.

Knowing that David was out of danger, Celia and the others felt nothing but joy.

They had been practicing hard since they came to the

Iridescent Sect, hoping to reach the Eternal Realm as soon as possible and spend more time with David.

They did not have a clear understanding of strength and realms, so they would not pay much attention to these things.

Moreover, they did not understand what a True Saint represented.

Plus, everyone believed in David very much, so they figured every incredible thing David did was justified.

This was a kind of blind worship and trust.

They were like this on Earth, in the Milky Way, and also in Star Kingdom.

Only Selena had a little understanding of what the True Saint represented.

After all, she was the personal disciple of the head of the Iridescent Sect and also one of the seven high priestesses of this batch.

True Saint was the second highest rank in Saint Realm.

Their master, Lady Dream of the Iridescent Sect, was not even a Saint yet!

Not only that, the four reputable elders of the Iridescent Sect were only True Saints, and yet David's strength was already on par with them.

Selena did not know how David did it either.

As far as she knew, all Saints were old and had lived for tens of thousands of years.

How old was David?

He was not even fifty years old!

A person under the age of fifty could stand shoulder to shoulder with those old monsters who had lived for tens of thousands, or even hundreds of thousands of years.

Who would believe her if she told them?

Everyone's eyes might fall out of their sockets.

However, after thinking about it, Selena soon felt relieved.

After meeting David for the first time, she knew that this was a man favored by God.

David had performed miracles multiple times all the way back on the Earth.

Therefore, things like this were bound to happen again.

The first two times would be shocking.

However, the more times this happened, the more used to this she became.

Fortunately, they had been listening to Celeste and had been hiding all the real information about David. They did not even tell their master Nova.

However, as David became more and more famous, his information would gradually be exposed.

Because among the people from the earth, there was another person that they could not control and that was Lorraine.

This woman was accepted as a disciple by the four reputable elders of the Iridescent Sect.

She was also the head of the seven high priestesses of this year.

After some estimations, they realized that her acceptance ceremony should be coming soon.

An ice sculpture was standing there quietly at the bottom of the ice cavern in the Iridescent Sect.

One could vaguely see from the outside that the person inside the ice sculpture was wearing a red dress and sitting cross-legged inside.

This person was Celeste who was punished by Eira, the reputable elders of the Iridescent Sect, to face the wall for a hundred years.

If no one bothered her, she would remain in this state for a hundred years before she could leave the ice cavern.
