**Married at First Sight Chapter 2069**-How could Zachary believe his father's nonsense.

Not to mention that Zachary didn't believe it, neither of the two young couples present would believe it.

Serenity wanted to take the medicine list from her husband again, but Zachary immediately tore up the medicine list.

He tore it to shreds, then went into the bathroom, threw the shredded paper in the toilet, and flushed it away.

Coming out of the bathroom, his face was still ugly.

"Zack, what Dad said is the truth. This medicine list is really not for Serenity. It is indeed the medicine list for your mother." Liam bit the bullet and told lies.

Zachary couldn't help but expose his father's lies: "I remember grandma said that after you and my mother got married, my mother became pregnant within three months. How did she come to you and didn't get pregnant for a long time? Is my grandma confused and remembering wrongly, or is dad lying? Not only my grandma said, but I remember my mother also said that she will be pregnant with me soon."

Liam: "..."

"Mom, grandma gave you this medicine list, right? Grandma got you this medicine list when she saw that Seren and I had no children for so long? Are you going to ask Seren to take medicine? When we come back, don't you quickly hide the medicine list under the coffee table?"

How could Zachary not understand his parents?

It must be what he guessed.

Zachary: "How many times have I said that Seren and I thought about the two-person world and didn't want to have a child so soon. Since the last time I had a fight with Seren about the physical examination, I have always taken contraceptive measures. Let me ask you, how did Seren get pregnant?"

Liam, Tania: "..."

Callum and Camryn listened, not daring to say anything.

Big brother was so angry that he wanted to go crazy now.

As soon as Zachary's words came out of his mouth, Serenity slandered in her heart: You said Dad lied, but you also lied.

The couple never used contraception.

After she came back from FC Manor, Zachary had been pestering her for a long time.

"Mom, you go to grandma's house tomorrow and tell grandma and aunt about this, so that they don't have to worry about when Seren will get pregnant in the future. When my wife and I have had enough of the two-person world, we will naturally start preparing for pregnancy.

Now Seren's business is getting better and better, and she is also getting busier. She often has to socialize, and drinking is a must for socializing, and she is not suitable for pregnancy. Also, don't just come back with a drug list. Not everyone is suitable for it, and everyone's situation is different. If a drug list can be used by everyone, laid-off doctors will walk all over the street."

Serenity wanted to speak several times, but was unable to intervene.

She socialized more, but rarely drank.

Zachary accompanied her every time to socialize, and Zachary wouldn't let her drink, and no one dares to toast her.

Zachary occasionally assisted her in drinking two cups, but only two cups, and he would not allow her to drink more than that because it hurt her stomach. She still remembered the time she had a stomachache. She would help her stomach take a long time to recover later.

Anyway, the husband and wife were famous for their love, and they were not afraid of others gossiping.

Everyone was aware that he was unable to consume alcohol while discussing business with his wife. Following, he is extremely alert, eating as usual, drinking tea as usual, and refusing to serve alcohol.

Zachary had already spoken, but Serenity had no chance to intervene, so she acquiesced in her husband's lying.

He was also for her good, but he's afraid she would be under pressure.
