Married at First Sight Chapter 2070-In fact, Serenity also knew that her in-laws were all looking forward to her pregnancy, not to mention her in-laws, even her own sister and aunt were also looking forward to her getting pregnant soon.

Zack: "Every medicine is three-point poisonous. Taking medicine indiscriminately, sometimes, instead of curing the body, it harms your own body. In short, you can't take medicine indiscriminately without seeing a doctor or undergoing an examination."

Liam smiled shyly: "Zack, your mother and I knew about it, and I also told your mother not to take medicine indiscriminately, and your mother didn't mean to let Seren take the medicine according to the medicine list, that is, This medicine list was given to your mother by your grandmother, and your mother couldn't refuse your grandmother's kindness, so she had to bring the medicine list back."

Tania was worried that her son would blame his Grandma, so she hurriedly spoke for his Grandma: "Zack, we don't know that you and Seren are in this situation, don't blame your grandma, she is like that, she's worried about it. You are the most beloved grandson of her. She often talks about it and wants to hug her great-grandson."

Tania said to her daughter-in-law again: "Seren, mom really doesn't mean to give birth. Mom said that you and Zack can have children whenever you want. Anyway, you two are still young and you have only been married for a year. Let's concentrate on planning your wedding with Zack."

"Mom, I know." Serenity agreed.

Tania winked at her, meaning to ask her to stop Zachary.

Serenity understood her mother-in-law's hint, she teased Zachary, and said in a gentle voice: "Husband, my parents did not actually tell me to take medicine, so please do not be angry; grandma is concerned about this, as are all elderly people.

Don't be angry, you see both Callum and Camryn are here, if you are so angry, you will scare Camryn."

Camryn accompanied her with a smiling face, but didn't speak.

Zack: "Okay, don't be angry, I think it's almost time for dinner, let's eat first."

Tania responded, "Yes, yes, it's time to eat, let's go eat first. Callum, Camryn, let's go eat."

Although Zachary didn't fly into a rage, his words also meant reproach, and when he vented his anger, he eased his face and hummed lightly.

Serenity quickly took his arm and dragged him into the dining room.

Callum also pulled his fiancée into the dining room with him.

In the end, only Tania and her husband were in the hall.

The Husband and wife looked at each other.

Liam said in a low voice: "I told you not to take out the medicine list. Fortunately, I didn't give it to Serenity directly, otherwise Zack would lift the roof off."

My mother just loves to worry, and I told my mother, don't worry about the two of them. The master said that there will be good news after autumn, and that the two of them will have both children in the future. "

Tania took out two paper towels, wiped her sweat, and said, "The air conditioner is on in the room, and I'm sweating. I was scared by your son."

Liam: "Don't talk about this, I was frightened into a cold sweat."

Liam moved his face closer and asked his wife to wipe his sweat off too.

The husband and wife were terrified but not daring. Before their son lost his temper, they were cowardly.

Tania: "If you want to lie, you don't even say hello to me. If you discuss it in advance, you won't be in the wrong."

Liam said: "I didn't expect that he would be found out if you stuffed the medicine list under the coffee table. Our son is very powerful. I, as an old man, would be willing to bow down."

Tania: "Mom said that Zack is better than you, otherwise she wouldn't have let Zack take over early and let you retire."

Her husband was not as capable as the oldest son, Zack.

This was a fact.
