Married at First Sight Chapter 2102-After being silent, Elisa asked, "Is it true that there is no evidence at all?"

Clive said: "I can't find it at the moment, maybe it's because the time is too short. If you look slowly, you might be able to find something, but the hope is not too great. After all, even if there are loopholes in the past few decades, they will be blocked by others. Wipe away the traces, maybe all the insiders are dead."

Elisa stopped talking.

Mrs. Stone said to her daughter: "Elisa, you don't have to worry about this matter. Mom will find evidence slowly if she has time. As long as she has done it, she will find evidence one day."

"Auntie, I can tell my elder brother to ask my sister-in-law's natal brother to help with the investigation."

"I'll tell you when I need it." Mrs. Stone did not refuse Remy's offer of help.

There was great power in numbers.

Professional things should be left to professional people to do.

"I'll call and talk to my elder brother later." Remy said. He felt that this was an opportunity to perform.

Help the future mother-in-law to find out the reasons for his parents, and make sure that the future mother-in-law will look up to him and give him extra points, then he will be able to embrace the beauty.

The butler came over at this time, he looked at Elisa first, and then said to Mrs. Stone: "Madam, Young Master Bucham is here, and he brought a bouquet of flowers, jewelry, and other gifts to Miss."

Everyone: "..."

Ever since Julian began to "pursue" Elisa, his ghost really lingered and was everywhere.

Even if Julian didn't show up, the gifts he sent would stimulate Remy's nerves every day, and Elisa was helpless.

For this reason, Remy spent less time at work, and always spent time clinging to Elisa, for fear that if he made a mistake, Elisa would be abducted by Julian.

In private, Remy also went to find Julian and asked what Julian meant to Elisa.

Julian told him that he just stayed with Elisa and didn't worry about other things.

For a character like Julian, Remy couldn't pry his mouth away from what he didn't want to say, so he had to go back in a huff.

"Madam, do you want to let Young Master Bucham in?" The butler asked Mrs. Stone.

In this Stone family, Mrs. Stone was still in charge for the time being. So the butler asked Mrs. Stone what she meant.

After Mrs. Stone glanced at her daughter, she said: "Julian, please come in. In the future, there will always be requests to go to other people's places, so you can't turn him away."

Mrs. Stone considered herself a smart person and had lived half her life, but she still couldn't figure out why Julian wanted to "pursue" her daughter.

Obviously, Julian didn't seem to love Elisa, but what he did was pursue.

He sent a bouquet of flowers every day, sometimes three bouquets a day, sometimes only one bouquet, but it would be matched with other gifts.

For example, all kinds of famous bags, all kinds of brand-name clothes, skin care products, cosmetics, etc., Julian was very willing to spend money, and the gifts he sent to Elisa were expensive and numerous.

If it were an ordinary person, if Julian smashed him with gifts like this for a while, he would probably have fallen long ago.
