

Read I Am A Quadrillionaire Chapter 2103

I am a quadrillionaire chapter 2103-“David, what amazing tricks. I, Azul Feather, have never been impressed with anyone in my life. Even before I fell asleep, I had never been impressed with any of the top geniuses of Leila in our generation, but today, you impressed me,” Azul said weakly.

“Thank you,” David replied nonchalantly.

“I wonder if the existence of someone like you is a blessing or a curse for a small level 7 civilization like Star Kingdom.”

“You don’t have to worry about this.”

“David, can you tell me how you do it? Leila also has forces who specialize in puppets and their ancestry extends very far back, but they can’t control three partial Pre-Deity puppets at the same time, unlike a partial Pre-Deity such as yourself. Your technique is really unheard of.” Azul shook his head sadly.

Obviously, casting Soul Blaze and paying with his life to kill a puppet was still unacceptable for him.

Originally, he wanted to drag someone down with him, but it turned out to be David’s puppet.
puppet.novel.xo

Azul really did not expect that one day he would fail in this small level 7 civilization.

Everything was unpredictable.

When he woke up, Azul once thought that his time was here.

Unexpectedly, it turned out to be the end of his life.

He was not reconciled, but he had no other choice.

He could still forcibly stop Soul Blaze in the first stage, but the second stage was irreversible.

Death was only a matter of time.

“There are always people better than you out there. Men cannot fully fathom the mysteries of the vast universe. Your level 9 civilization is just a drop in the ocean, so why ask so many questions? Sometimes, you only need to look at the results, as the process is not important,” David answered irrelevantly.

“Since you don’t want to tell me, then forget it. It’s useless to know anyway. I’ll die soon, but David, I will give you a big gift before I die. Please accept it.”

After Azul finished speaking, he gave David a weird smile.

Then, he started burning in an invisible fire and instantly turned into a blue light.

Woosh!

After that, he shot into the void.

David knew what Azul wanted to do after he saw that weird smile.

‘You want to send the message?’

‘Don’t even think about it!’

David then immediately chased after Azul.

It did not take long for the three figures to catch up with the blue light.

Just as David was about to intercept the blue light, he stopped.

After thinking about it, he chose to let the clones do his work for him.

One of the clones grabbed the blue light.

Suddenly, a blue light appeared and directly enveloped the clone.

Then, David felt a tingle in his soul.

The clone’s mind power was gone, and the clone also dissipated.

“Hiss!”

David gasped.

‘It really was a trap!’

‘That punk Azul is so malicious.’

David almost acted with his main form.

He had no idea if he could resist the blue light if it was used on him.

Fortunately, at the last moment, the cautious David hesitated.

Otherwise, the consequences would be unpredictable.

Even if he could survive, it would definitely be hard on him.

After getting rid of the clone...

Boom!

The blue light exploded and a voice said, "David, I didn't expect you to be so cautious. Sure enough, I still can't hurt you. But I'm not satisfied! But don't be too happy, the Feather family will come soon. According to the distance from Leila to Star Kingdom, you have 300 years to prepare. Of course, you can also choose to escape, but Star Kingdom won't be so lucky. This place will be in ruins, countless human beings will die for you, and you will also become a sinner of the entire Star Kingdom and be reviled by countless people. You will suffer a fate more painful than if you were to die! Hahaha!"

In the end, the blue light shrunk to the size of a fingernail, passing through layers of space barriers and entering the high-dimensional space at a speed that David could not match.

Not even the barrier of the nine-dimensional space could stop it.

David knew he could not catch up, so he did not waste his effort to try.
