Married at First Sight Chapter 2163-Serenity is pregnant!

After Liberty digested the meaning of Zachary's words, she was so happy that she yelled.

She was taking her son in the lobby of the business at the moment, and Mrs. Stone was thinking about s-e-x.

After Sonny got out of kindergarten, she picked him up and brought him to the Stone family. She planned to have dinner at the Stone Family, then stay at the Stone Family for one night, and then leave the Stone Family to go to kindergarten tomorrow.

She didn't expect to receive a happy message from her brother-in-law.

"What's wrong?"

Liberty yelled. Audrey, Darrell, Alice and even Sonny all looked at Liberty.

"Good news, good news."

Liberty smiled and said: "Auntie, Uncle, Cousin, I have good news for you, Serenity is pregnant, and Zachary just called to announce the good news."

As soon as she finished speaking, Mrs. Stone's cell phone rang.

It was Clive who called back.

While answering her son's call, Mrs. Stone asked Liberty with a smile, "Are you sure?"

"Mom, it's confirmed. Zachary said that Dr. Carden helped Serenity take the pulse. Dr. Carden is a master of a genius doctor. Her medical skills are beyond words. People call her a little genius doctor. The pulse is easy to get for her. She can't go wrong."

Clive didn't know that his mother was asking about Liberty, so he thought her mother was asking, so he happily answered his mother.

Mrs. Stone could no longer hold back her smile, and asked her son, "How do you know?"

"Zachary called me and told me. He asked me to tell you that he was so happy that he couldn't remember your number, so he called me."

Mrs. Stone smiled and said, "He can remember your phone number."

Clive said: "He and I have been rivals for so many years, and I have already memorized the other party's phone number."

"Mom, this is good news. It's great news. You don't have to worry about Serenity not being able to give birth. She can give birth. Zachary said that the husband and wife are in good health. It's just that the fate of the child has not yet come. Now the fate is coming. Well, there is good news."

Clive knew that his mother was always worried that Serenity would not give birth.

In fact, he was also a little worried.

Clive's cousin's parents were both dead, and Serenity's mother's family was not strong enough. If she really couldn't have a baby, she didn't know what would happen in the future.

It's all right now. She didn't worry about anything, just waited for the baby to be born next year.

Clive's own child was born years ago.

Serenity didn't have the pressure to have a child in other families. The elders of the York family look forward to her having a daughter. Therefore, as long as Serenity could give birth, everything would be fine.

Then there's time for a wedding.

"Okay, okay, that's great." Mrs. Stone happily patted her thigh.

Mr. Stone was afraid that her thigh would become red from the slap, so he stretched out his hand to block it, and let her slap it on his palm.

Mrs. Stone looked at him.

"As long as you're happy, you can yell like Liberty. Why do you keep patting your own thigh? Doesn't it hurt?" Mr. Stone talked about his wife.

Mrs. Stone smiled and hugged her husband, excitedly said: "Husband, Serenity is pregnant, she is pregnant!"

"Yes, yes, we all know." Mr. Stone said to Liberty and Alice: "Liberty, you see your aunt gave me a hug with excitement, she didn't know how long she had been so excited. Alice is pregnant but at that time, she was not so excited."

Alice smiled and said, "I'm different from Clive. Mom has always been worried about Serenity, but now she's relieved, and I'm also happy for Serenity."

They were all relatives of Serenity's natal family, so they were naturally worried for Serenity, for fear that Serenity would be kicked out by her husband's family.

"Mom, what's wrong with Auntie?" Sonny asked her mother.

Sonny only knew that everyone was talking about his aunt, but he didn't know what happened to her.

Liberty picked up her son and kissed her a few times, then said with a smile, "Your aunt has a baby in her belly."

Sonny: "Is it the little brother?"
