Married at First Sight Chapter 2185-He also listened to what Seren said to persuade Clive back then.

-Miscarriage is also very harmful to the body.

-Knowing a husband is better than a wife.

Zachary's expression fell into Serenity's eyes, and Serenity quickly guessed what was going on.

And Zachary just stopped talking several times.

"Husband, don't even think about it!" Serenity warned him seriously, "If you dare to make a fuss like my cousin, I dare to divorce you, and I will raise the child myself, and you don't need to worry about it."

Zachary: "Seren."

Serenity: "What's wrong?"

Grandma May and Liberty were shocked when they heard Seren's words.

There was even mention of divorce.

The young couple had just made Zachary's identity public. Serenity reacted very strongly and proposed a divorce.

At that time Zachary was like a lunatic.

The couple had a very tense quarrel, which made everyone worry to death.

Fortunately, the couple reconciled as before.

Afterwards, Serenity no longer said the word divorce in front of Zachary.

Knowing that Zachary was most afraid of her saying the word divorce.

"Seren, I-I just thought about it for a while. I didn't say it. I love you too. I worry that you are like my cousin. Don't be angry. Pregnant mothers can't be angry.

Be happy.” Zachary quickly coaxed his wife, and repeatedly promised that he would not say those words out of his mouth.

Serenity grabbed his collar and said fiercely: “Don’t even think about it!”

“Okay, okay, I don’t want to, I don’t even think about it, Seren, don’t be angry, let alone talk about divorce, you know I’m most afraid of this word ‘divorce’, it’s my fault.” Zachary hugged his beloved wife into his arms, and coaxed: “It’s my fault, don’t be angry. Let’s have this one baby, and we won’t have any more.”

“The master said that my son and daughter will be safe.”

Serenity didn’t dare to hope that she could have both children at once like Jane, there were very few people like that.

If she had a first child, then the second child would be her daughter’s.

No matter what, she wanted to have a daughter, and she liked to be her daughter Avah very much.

She also wanted to have a white and tender daughter.

“I’ll take you to the hospital in a while to see if we can have twins.” Zachary said softly: “Don’t be angry, okay?”

Serenity pushed him away and said to him: “As long as you don’t think that way, I won’t be angry. I’m not that delicate, maybe I won’t vomit soon.”

Grandma May and Liberty watched as the couple said something they didn’t understand thoroughly, and couldn’t get in the conversation, so they could only watch.

When Zachary coaxed his wife, Grandma May asked, “Seren, what did Zack say just now?”

After asking, Grandma May slapped Zachary’s arm again, and warned him: “St!nky boy, stay away from Seren, don’t keep making her angry.”

Zachary: “Grandma, it’s my fault.”

“Step aside!”

Grandma May domineeringly ordered him to step aside.

Zachary hurriedly abdicated.

Serenity: “Grandma, he just had a bad thought and didn’t say it out. He promises he won’t even think about it, so I won’t bother with him. I won’t say what he thinks, for fear that grandma will beat him up.”
