

## Read I Am A Quadrillionaire Chapter 2162

I am a quadrillionaire chapter 2162-‘Yes! In fact, the value of Silver Flood Dragon is not that high. The reason why I can pay that price is because the corpse is complete and is worth gambling on.’

“What do you mean?” David was confused.

“Master David, you just came to The Spirit Cage, so you may not know much about it. Beasts have a certain chance to produce Crystals, but the chances of this are extremely low. A hundred beasts may not be able to produce one Crystal. The role of Beast Crystals is very extensive and has a great effect on the improvement of mind power, so the value of Beast Crystals is also very high. Furthermore, I’m lucky to find a Crystal in the body of Silver Flood Dragon,” Beanie explained patiently.

David got it.

In other words, the little snake he killed had something more valuable in its body.

“Um... Ms. Nacht, may I ask, how much is the Beast Crystal inside the Silver Flood Dragon worth?”

“According to the current market price, it is worth at least 80 billion L Dollars, and may even reach 100 billion. The specific price depends entirely on the buyer,” Beanie answered honestly.

‘80 billion to 100 hundred billion?’

‘Including the corpse, that’s more than 100 billion.’

‘This deal is not bad.’

‘She’ll be getting five or six times the amount back after spending 20 billion L Dollars to buy the Silver Flood Dragon.’

“Ms. Nacht, you are so courageous. You invested 20 billion L Dollars and are getting back five or six times the amount in one fell swoop,” David lamented.

“Master David, you speak too highly of me. It’s all luck. No one knows that there was a Beast Crystal in it, otherwise, I won’t be able to buy it at that price,” Beanie said modestly.

“Luck is actually a kind of strength. Ms. Nacht, I wonder if you will sell the Beast Crystal to me?” David asked.

It was 100 billion L Dollars. As long as David could buy it, he could get 1000 lavish points, so how would he let go of such a good opportunity?

“Master David, you want to buy the Beast Crystal?” Beanie was taken aback.

“I’ve never seen this thing before, so I want to buy it and play with it to see what’s so special about it.” David laughed.

“Well, if you are sure you want it, I can sell it to you for 50 billion L Dollars, what do you think?” Beanie gritted her teeth and cut the price by half.

In order to develop a good relationship with David, she also decided to go all out.

Besides, if it were not for David, they would not even be able to get past Demon Ridge.

When David heard that Beanie wanted to give him a reduction of 50 billion, he was not happy.

Where would he get the missing five hundred lavish points from?

When he was about to say something, Beanie said unexpectedly, “Master David, don’t get me wrong. You saved us, without you, we wouldn’t even be able to get out of Demon Ridge. I should be giving you the Beast Crystal for free, but recently our family has encountered some troubles in the real world and desperately needs money, so I can only give you a little discount. I hope you don’t mind.”

After speaking, Beanie carefully observed David, for fear that the other party would get mad.

David did not even want a 50 billion discount, let alone to receive it as a gift.

If he could not spend money or get lavish points, what was the use of getting the Beast Crystal?

“Ms. Nacht! I, David Lid ell, never like to take advantage of others. We are friends, but we have to settle accounts properly. I will buy the Beast Crystal at the highest price, which is 100 billion L Dollars. I will not buy it if you’re charging me one penny less. If you do, I’ll just buy from other forces. I refuse to believe that there isn’t another Beast Crystal in a place as big as Sole,” David said righteously.

This remark moved Beanie very much.novelxo.com fast update

She felt that David must have decided to pay the highest price after he heard that the Nacht family was in trouble.

It would be good enough if she could sell the Beast Crystal for eighty or ninety billion.

If she wanted to sell it for 100 billion, she would have to meet someone who desperately needed it and was not short of money.

“Thank you, Master David! The Nacht family and I will always remember your great kindness in our hearts,” Beanie thanked him sincerely.

As she spoke, she was about to kneel and express her gratitude.

David hastily stopped her.

In reality, it was Beanie who had helped him.

So how would he dare to let Beanie do this
