

Read I Am A Quadrillionaire Chapter 2207

I am a quadrillionaire chapter 2207-David's voice pulled Beanie back to reality.

She recovered and explained. "Amber City is one of the eight most famous main cities of The Spirit Cage, while Sole is just a second-tier city. Although the two cities are in the same direction, it is still a bit far away. There are several first-tier cities between them and if you rush to Amber City from here, according to the speed of the carriage, it will take about three months to arrive if there are no accidents."

"More than three months? Is it really that far? When we left Amber City, we didn't go very far, right? I remember we're just near Wier." the Elven Princess wondered.

"It will take more than two months from here to the first-tier city Wier," Beanie added.

This stumped the Elven Princess.

It was such a long distance and having experienced several dangers, they would never dare to go alone.

If they encountered danger again, they would not have such good luck.

After a moment of silence, the Elven Princess gritted her teeth and said to David, "Master, if I, Evie, may be so bold to ask a favor, please say yes."

"You want me to take you to Amber City?" David guessed what the other person was thinking and said it directly.

"Yes! Don't worry, Master, I won't let you make this trip in vain. When we arrive in Amber City, I will satisfy you no matter what you need." Evie the Elven Princess promised.

Currently, this was the only way for them to reach Amber City safely and return to Leila via the descending point.

In addition, they couldn't reach Amber City if they were to do it on their own.

After being deceived and stunned by Black Fox and brought here, all the things that the Elven Princess and the four servants had on them were taken away. They had nothing left now so that was why they could not contact the other Elves.

Moreover, only a few Elves could enter The Spirit Cage.

Except for Amber City, the Elves were nowhere to be seen.

Elven Princess Evie had no idea that the powerful Elves who were looking for her had already found Soleil in Wier, the person who captured the other four Elf women and had taken revenge by killing him.

Now, they had spread out from Wier and were gradually expanding the search range.

As long as they headed to Wier, they would meet the powerful Elves.

“Sorry! I can’t send you to Amber City for the time being.” David refused without thinking.

Since Amber City was one of the eight main cities of The Spirit Cage, many powerful people would definitely gather there.

He did not know much about The Spirit Cage yet so he did not know how powerful the powerhouses living in Amber City were.

Thus, it would be unwise to go hastily.

Although it would be faster to spend money there, David was not in a hurry now.

It was pretty good to stay in Sole. When he had finally collected 10000 lavish points, he would change places and go to the nearest first-tier city.

There was no need to venture to a main city like Amber City as there were too many powerhouses there.

If he was not careful, he might get into trouble.

“Why? Master, as long as you can send me to Amber City, I will thank you with endless rewards. No matter what you ask, I will agree, and you will become my most noble guest of the Elves,” Evie immediately said anxiously.

If the human man did not escort them, they definitely would not be able to reach Amber City safely.

It was more than three months away, and they might not even last ten days.

“Amber City is one of the eight main cities of The Spirit Cage and I will go there, but not now. I still have things to do here and it will take a while,” David explained.

“How long will you need before going to Amber City?”

“I can’t give you an exact time. Maybe a few months, maybe a few years.”

Elven Princess Evie did not continue to ask questions.

He had made it very clear that he would not be sending her to Amber City now, and even if he was willing, she would have to wait a few months or years.

At this moment, Evie was wondering what she should do.

She could not leave but if she stayed, it would take a very long time. Moreover, accidents might happen while she was waiting.

It will be a long stay, and there may be other accidents in the middle.

Yet after thinking about it, she did not seem to have an option.
