I am a quadrillionaire chapter 2208-She could either leave or stay with this human man.

However, Evie was relieved.

If this man did not spend 250 billion to buy her and she was bought by someone else, she might already be a tool for those who bought her to vent their desires.

As the princess of the Elves, Evie knew very well how strong human men's desire for Elf women was.

She might face a more tragic fate in the future.

Even if she had a chance to escape in the future, an Elven Princess who had lost her virginity could no longer be the next Elven Queen.

Evie's identity would become very awkward among the Elves.

It was the man in front of her who gave her hope, so why not trust him again?

Immediately Evie made up her mind and said, "Master, can we follow you and serve you from now on? You can bring us to Amber City when you're going, what do you think? Otherwise, it's too dangerous for us outside and we have no way to leave safely."

Evie looked at David pitifully. She sounded as if she was pleasing him.

The Elf women themselves were close to perfection.

Whether it was their figure, appearance, voice, or gentle personality, they were everything men could wish for.

Moreover, Evie was the princess of the Elves, and she would be the future queen, so she was even more sought after.

Overall, she was a level higher than other Elf women.

No normal man could resist her when she looked so alluring.

David had very strong willpower, but even he was having trouble resisting her.

“But I can’t be sure when I will go to Amber City. You are wasting your time following me.”

“No matter when you’re going to Amber City, we are willing to follow you, and we hope you will take us,” Evie said hastily.

She had no choice but to follow David.

At least Evie didn’t hate the human man in front of her after the conversation they had just now.

She felt disgusted seeing the lewd stares and naked desire in other men’s eyes.

“That’s fine. You can follow me from now on! If you need anything, you can go to Ms. Beanie Nacht, and she will arrange everything for you,” David pointed to Beanie and said.

It would be fine for him to have a few more of the Elf women around.

Even if he could not touch them, they still made a pretty pleasant sight.

Moreover, he had bought them, so he could not drive them away, right?

He would also be responsible if they were recaptured.

“Sorry for the trouble, Ms. Beanie,” Evie said politely to Beanie.

“It’s no trouble at all! I still have no idea what your name is.” Beanie also responded politely.

“Ms. Beanie, my name is Evie. You can just call me by my name.”

“Alright, I shall call you that from now on. My name is Beanie, and I am just Master’s follower.”

“May I know what your name is, Master?”

“My name is David, and this is my sister, Pebbles,” David replied.

“Master David! Pebbles!”
