

The Ex-Husband's Revenge By Dragonsky Chapter 1541

“Alright, the truth has already been revealed now! The pills are just a scam set up by the Cynthion Group and the Thompsons. Let’s just leave!” The Black Gorilla immediately said.

“Yes, let’s go!”

Everyone was just there because they were ordered by their families to figure out if the Energy Nurturing Pills were real or not.

Since the Energy Nurturing Pills were already determined to be fake, they no longer had any need to stay there.

Looking at everyone preparing to leave, Cynthia and Iris started to panic. They did not know what to do. After that, they looked at Leon with pleading expressions.

At their looks, Leon, who was maintaining order in the venue, frowned and had a dark look on his face!

To organize this sales drive, he put in so much work and effort. In the end, he finally managed to get the Thompsons to help him market their sales drive, getting most of the ancient martial arts families to join.

It seemed to all go well, but at that moment, thanks to the trouble the Black Gorilla was causing, the whole situation was getting worse and worse. It seemed like things were about to fail at the most pivotal moment!

It was obvious how angry he was feeling!

However, with things as they were, it was pointless for him to be angry!

There was nothing he could do other than watch as everyone left!

Boom!

At that moment, something suddenly happened!

Yuri suddenly jolted on the stage. The aura around his body rapidly soared as he went from the initial Emperor State to the intermediate Emperor State!

“What? Why did Mister Thompson suddenly make a breakthrough?”

“What happened?”

Everyone who prepared to leave was suddenly shocked. All of them stopped in their tracks.

Right after that, when they remembered how Yuri just took the Energy Nurturing Pills, many of them suddenly understood something.

“Could Mister Thompson have made a breakthrough because he used the Energy Nurturing Pills just now?”

“How is that possible?!”

Everyone were in disbelief.

They knew very well that it was incredibly difficult for martial artists to make a breakthrough. There was no way it would happen without any prior signs!

Yet, right after Yuri took the Energy Nurturing Pill, he managed to do so!

It was obvious to them that Yuri’s breakthrough had a lot to do with the Energy Nurturing Pills!

There were no other possibilities!

“Alright, this is great! I did make a breakthrough! These Energy Nurturing Pills are amazing. I managed to level up so easily!”

At that moment, Yuri got up and laughed happily.

After using the Energy Nurturing Pills at home the last time, his bottleneck already started to loosen.

Initially, he thought that he would need a few more Energy Nurturing Pills to reach the intermediate Emperor State.

Yet, he never expected that just having the second one would be enough for him!

It was obvious how happy and excited he was!

The moment Yuri said that, it was like a bomb went off in the crowd!

They already guessed that Yuri's breakthrough probably had a lot to do with the Energy Nurturing Pills.

Yuri's words fit their guesses perfectly!

The Ex-Husband's Revenge By Dragonsky Chapter 1542

“So the effects of the Energy Nurturing Pills are real!”

“Isn't that just unbelievable?!”

Everyone below the stage was completely shocked!

Earlier, when

Yuri said that the Energy Nurturing Pills would not only be able to speed up a martial artist's training but improve their chances at breaking through any bottlenecks, they all thought that Yuri was lying!

Yet, the truth was right in front of them. With the help of the Energy Nurturing Pills, Yuri managed to get to the intermediate Emperor State from the initial Emperor State!

They witnessed all of that. There was no way it was fake!

Suddenly, they felt incredibly shocked. They no longer doubted the effectiveness of the Energy Nurturing Pills!

“Black Gorilla, weren’t you just accusing me of working with Cynthion Group to scam everyone? Do you still have anything to say after this?!” Yuri sneered. He looked down at the Black Gorilla from the stage, as if he was looking at a clown.

“I-”

The Black Gorilla was dumbfounded.

He deliberately caused trouble not just for the sake of revenge.

More importantly, he felt that the Thompsons deliberately exaggerated the effects of the Energy Nurturing Pills, twisting the truth. From the start, he never believed that those pills would be able to help martial artists with their training. There was no way he would believe it could help them get past any bottlenecks as well!

However, he never expected that the effects of the Energy Nurturing Pills’ effects were real!

The cruel truth slapped him right in the face at that moment!

He gaped, not knowing what to say.

“Miss Shear, I want five hundred premium Energy Nurturing pills!”

“I want five hundred as well!”

The next moment, once everyone recovered from their shock, a few of the men who were toward the front recovered the fastest. They immediately rushed on stage to buy the premium Energy Nurturing Pills.

“Alright!”

Cynthia was ecstatic. The smile on her face was radiant.

She thought that the sales drive was already ruined by the Black Gorilla. However, it seemed like fate was on their side. Since Yuri used the Energy Nurturing Pills and made a breakthrough, the situation was completely reversed!

It was obvious how happy she was!

Of course, she was not the only one feeling happy. Even Leon looked like a burden was lifted off his shoulders as his smile recovered.

“Hold it!”

Just as Cynthia was about to sell the pills, Iris suddenly stopped her.

“Iris, what is it? Is there anything you need?” Cynthia was surprised as she looked at Iris curiously.

Everyone was fighting to purchase the Energy Nurturing Pills. It was the perfect time for her to make some sales, so she did not understand why Iris stopped her.

“Cynthia, from now on, all of the Energy Nurturing Pills will be sold at double the price!” Iris said calmly.

“What?”

The moment that was said, it was like a bomb was let off on the spot!

Premium Energy Nurturing Pills were sold for 45 thousand each. Five hundred of them were 22.5 million. If the price doubled, then it would be 45 million.

There was no way they could accept that!

Of course, it was not just them, even Cynthia was stunned!

The Ex-Husband's Revenge By Dragonsky Chapter 1543

“Double the price? Iris, are you joking?” Cynthia said in shock, unable to believe her ears.

“I’m not! Earlier, all of them just said that the Energy Nurturing Pills are too cheap and that nothing good comes cheap! The customer is always right. Since they feel that the price is too cheap, then let’s increase the price! If they’re still not happy about that, then we can double it again until they’re happy!” Iris said calmly,

“That-”

All of the men there had nothing to say about that.

It was just like Iris said, they were instigated by the Black Gorilla earlier and questioned the Energy Nurturing Pill for being too cheap.

Since Iris satisfied their request and increased the price, there did not seem to be anything wrong with that!

All of them looked like they had something to say, but could not find the words!

At that moment, the Black Gorilla immediately saw a chance and started to complain to Iris, “The Cynthion Group is just maliciously increasing the price!”

“So what if we are? You can decide not to buy it if you want to!” Iris said coldly.

Earlier, the Black Gorilla’s troublemaking almost caused Cynthion Group’s sales to drive to fail. She did not forget that!

There was no way she would be polite to the man when he suddenly spoke up like that!

“Alright, you said it yourself! Everyone, did you hear that? Cynthion Group is maliciously increasing the price, trying to bully their customers with their pills! If that’s the case, we should just forget about buying them. Let them use the pills themselves!” Black Gorilla said in a hurry.

He deliberately caused trouble earlier to take revenge on Yuri for injuring him..

Since Iris suddenly raised the price like that, it gave him the perfect excuse. If he could convince everyone to give up on buying the Energy Nurturing Pills, it would impact Cynthion Group and the Thompsons’ reputations a lot!

“Cut the crap!”

“Black Gorilla, I was fooled by you just now and did not buy the pills in time. That’s why they increased the price! I’ve already been fooled by you once, do you think I’ll be fooled again?!” A pale and handsome young man shouted out at the Black Gorilla furiously!

Earlier, Yuri and Raphael managed to buy the pills at the original price. If he did not listen to the Black Gorilla, he would have not needed to spend an additional 22.5 million if he just bought the pills right after Yuri and Raphael!

That was not all!

Iris already made things clear. If they were not happy with the new price, Cynthion Group would increase the price again. Would he not suffer even heavier losses then?

With that in mind, he did not hesitate to walk out of the crowd and onto the stage.

“I don’t care if all of you are buying the pills or not, but I’m buying them! Miss Shear, I want five hundred premium Energy Nurturing Pills! Here’s my card!” That man slammed his card on the counter in front of Cynthia as he said that.

“Yes, alright!”

Seeing as Iris doubled the price with just a few words, Cynthia was happy to oblige. After that, she motioned for one of the ladies to take out five hundred premium Energy Nurturing Pills for that man.

With that, only five hundred premium Energy Nurturing Pills were left from the initial two thousand!

The Ex-Husband’s Revenge By Dragonsky Chapter 1544

Seeing only one portion of the premium Energy Nurturing Pills left, the ones who rushed forward the earliest before this had a sudden change of expression.

All of them wanted to buy the premium Energy Nurturing Pills, but thanks to Black Gorilla’s interference, the pale handsome man managed to take advantage of the situation and walk away with five hundred premium Energy Nurturing Pills. There were only five hundred left for the last person!

If they still held back and someone else walked up, then they would have to be forced to settle for second best and buy the first-grade Energy Nurturing Pills!

“Miss Shear, I want five hundred premium Energy Nurturing Pills!”

“I want five hundred of them too!”

The moment they reacted, they immediately started to fight over the premium Energy Nurturing Pills.

One of the men there came from a large family. He quickly thought of a plan, and started to channel his power to scare off his competitors..

After that, he quickly walked forward and slammed his card on Cynthia's desk, purchasing the last five hundred Energy Nurturing Pills!

“Everyone, don't buy it! Cynthion Group's clearly treating us as idiots. Don't fall for her trick!”

Black Gorilla started to panic at the sight. He quickly started to shout at everyone to ask them not to buy the Energy Nurturing Pills.

“Black Gorilla, shut your mouth up!”

“It was all because of your words just now that we missed out on the chance to buy the premium Energy Nurturing Pills!”

“If you keep on yapping, then don't blame us for being impolite!”

All of the men there were furious. They glared at the Black Gorilla angrily, wanting to rip him apart!

In truth, they knew that there were not many premium Energy Nurturing Pills to go around. Even without the Black Gorilla stopping them, they might not have been able to buy any!

However, not being able to get them is different from not trying at all!

Thanks to the Black Gorilla constantly stopping them, the premium Energy Nurturing Pills are already sold out. They did not even have the chance to fight over them!

Suddenly, they could not stop themselves from being furious at the Black Gorilla. They pinned all the blame on him!

Thankfully, Black Gorilla was someone strong even amongst the second generation of the Southern Region. He got to the initial Emperor State. The rest of them were just in the younger generation of the ancient martial arts families. They were still quite a bit weaker than Black Gorilla.

Otherwise, someone would probably already have failed to hold back and attacked the Black Gorilla!

“I-”

The Black Gorilla panicked at being seen as the enemy. He quickly decided to shut his mouth.

After all, most of the men in front of him were direct descendants of the various ancient martial arts families. All of them had strong backgrounds, and none of them were pushovers!

If he decided to speak up more and angered all of them, he would not be able to leave unscathed if they decided to attack him together!

“Everyone, just ignore Black Gorilla’s troublemaking! The Energy Nurturing Pills helped my cousin get to the intermediate Emperor State. All of you have witnessed its ability. Even if Cynthion Group increased the price, it’s worth it!”

“Even though the premium Energy Nurturing Pills are already sold out, there are still the first and second-grade ones. The effects won’t be that much worse! If you don’t make a move now, you might not *be* able to get anything if you’re too late!” Raphael seized the chance to speak up. He naturally needed to help Cynthion Group out considering his relationship with Leon.

Of course, he was speaking the truth. Yuri was the strongest among the younger generation of

the Southern Region. His skills were far stronger than most of those present.

Since the Energy Nurturing Pills were able to help Yuri make a breakthrough, then it would be very effective for everyone else as well.

The Ex-Husband's Revenge By Dragonsky Chapter 1545

“Mister Westwood is right! Miss Shear, I want five hundred first-grade Energy Nurturing Pills!”

“I want five hundred first-grade Energy Nurturing Pills as well!”

Hearing what Raphael said, everyone started to ignore the Black Gorilla. After that, they hurriedly scrambled onto the stage and started to purchase the first-grade Energy Nurturing Pills, worried that they would fall behind.

“Despicable!”

The Black Gorilla's face darkened at the sight. However, there was nothing he could do. He decided to forget about stopping everyone else.

That was not all!

He joined the sales drive to help the Southern Boss verify the authenticity of the Energy Nurturing Pills.

Now that he found out that the effects were real, and everyone was even fighting over them, he would at least have to purchase some as well. Otherwise, he would not be able to face the Southern Boss when he got back!

With that in mind, he immediately jumped on stage and started to fight over the pills as well.

However, he was too slow. He was already one step behind everyone else and was relegated to standing outside the crowd.

However, since he was incredibly strong, he summoned up his power that was already at the Emperor State. Everyone who was in front of him immediately stepped aside reluctantly.

“Black Gorilla, what are you doing?”

“Weren’t you stopping us from buying the Energy Nurturing Pills just now? Why are you here right now?”

The men who were forced aside were furious. All of them looked at the Black Gorilla angrily.

The Black Gorilla just constantly tried to stop all of them from buying the Energy Nurturing Pills just a few moments ago, yet, the moment they managed to get a good spot, they were forced aside by the Black Gorilla!

Suddenly, it was obvious how furious they were!

“That was then, this is now. I feel like buying the Energy Nurturing Pills now,” He said without any hint of embarrassment.

“You’re shameless!”

Those men were incredibly frustrated.

However, they were just too much weaker than the Black Gorilla. No matter how angry they were, there was nothing they could do.

At that moment, with the Black Gorilla’s skills, he quickly ended up in front of everyone else.

“I want five hundred first–grade Energy Nurturing Pills!”

Black Gorilla took out his card and slammed it on the table in front of Cynthia.

“I’m very sorry! From now on, everyone will need to queue up to buy the Energy Nurturing Pills! Anyone who doesn’t queue up won’t be entertained!” Cynthia said calmly.

Cynthia and Iris both despised the Black Gorilla for what he did earlier!

If it was not for consideration of the fact that they should be an impartial business, she would not have even bothered acknowledging the man!

“What? Why did everyone else not need to queue up just now?!”

Black Gorilla could not believe his ears.

“You said it yourself. That was then, this is now! There are too many people buying the pills right now. We need a queue to maintain order!” Cynthia shot Black Gorilla’s words right back at him.

“Miss Shear is right!”

The others felt vindicated when they heard what Cynthia said, and quite a few people immediately cheered.

“You!”

“Is your company trying to target me on purpose?!” Black Gorilla was furious.

“What if we are?! If you don’t want to buy the pills, then you can leave at any time!” Cynthia said coldly.

The Ex-Husband’s Revenge By Dragonsky Chapter 1546

“Good, very good! Girl, do you know who I am? I’m the subordinate of the Southern Boss! You’re a tiny company, and you dare to go against me. I guess you’re already ready to give up on your life!” Black Gorilla

said in anger.

Since Cynthion Group was a company under the Scammells before this, and Iris was related to the Scammells, a lot of people mistakenly believed that Cynthion Group was a business operating under the

Scammells.

Even Black Gorilla heard about that before!

With his position within the underworld, he was not afraid of even the Scammells, let alone Cynthion Group's branch company!

However, Cynthia was a mere president, and she was trying to go against him!

It was obvious how angry he was!

"I think you're the suicidal one here!" At that moment, Yuri immediately walked forward with a sneer.

"Black Gorilla, I'll give you three minutes. Get lost right now! Otherwise, you'll suffer the consequences!" Yuri said coldly. After that, he summoned up a tremendous wave of energy that pushed at the Black Gorilla.

When the Black Gorilla tried to slander them and imply that the Thompsons and Cynthion Group set up a scam together, he was already thoroughly angered!

However, since everyone was convinced by Black Gorilla earlier, he was forced to hold back his anger to avoid disrupting Cynthion Group's sales drive.

The tables were completely turned. Black Gorilla slowly gained the anger of the crowd, and become everyone's target!

Naturally, Yuri no longer needed to hold back!

“Mister Thompson, what is the meaning of this? Are you planning on making an enemy of the Southern Boss?!”

Feeling the pressure coming from Yuri, the Black Gorilla’s expression changed.

Even though he knew that Cynthion Group and the Thompsons were somewhat related, he never expected Yuri to ignore the Southern Boss and stand up for Cynthion Group just like that.

“What about the Southern Boss?! Don’t use him to try and push me back. Others might be scared of him, but the Thompsons are not! Get lost right now!” Yuri scoffed. After that, he sent out a wave of incredibly strong true energy at the Black Gorilla.

“You!”

The Black Gorilla was shocked. He started to rapidly retreat and tried to avoid the attack.

However, he was already weaker than Yuri, and with Yuri already in the intermediate Emperor State, the gap

between the two of them widened.

Even if he managed to start avoiding it in time, he was not able to completely escape the attack. He got hit by

some of the attacks and was sent flying off the stage.

“Mister Thompson, I’ll remember this! I’ll report everything to the Southern Boss. We’ll see what happens. in the future,” The Black Gorilla climbed up pathetically before he fled, leaving those words behind.

“Alright, that guy is finally gone!”

“Let’s continue purchasing the pills!” Yuri said calmly, not bothered by the Black Gorilla’s threat at all.

The Ex-Husband’s Revenge By Dragonsky Chapter 1547

“Mister Thompson, you’re so strong!”

“You are the strongest of the younger generation!”

The crowd immediately began to cheer when they saw that Yuri chased the Black Gorilla away!

Those that were pushed aside by the Black Gorilla earlier felt the happiest!

After that, they hurriedly started to queue up and start purchasing the Energy Nurturing Pills.

In just a moment, both the first and second-grade pills were sold out.

Of course, since the Energy Nurturing Pills were limited, some of the ones who were too slow and ended up queuing at the back did not manage to buy the pills.

Suddenly, they started to curse and regret it, but there was nothing they could do.

“Everyone, the Energy Nurturing Pills have been sold out! Next, we have the Pure Energy Pills for sale,” Cynthia announced. After that, she clapped, and a lady brought out the advanced Pure Energy Pills.

“Pure Energy Pills? What’s that?” Everyone was uncertain when they heard that.

The Thompsons and the Scammells primarily pushed the Energy Nurturing Pills for the sales drive. The other pills were just supplementary.

The others already more or less heard of the Energy Nurturing Pills before, but they did not know what Pure Energy Pills were or what their effects could be!

“Pure Energy Pills can help anyone at the Semi Overlord State get to the Overlord State without fail! Even if an Overlord State martial artist uses it, it will greatly loosen any bottlenecks,” Cynthia explained the Pure Energy Pills briefly.

“What?”

“These Pure Energy Pills are even better than the Energy Nurturing Pills?”

“Are you serious?!”

Everyone was shocked. They could not believe their ears.

Even though Yuri just got to the intermediate Emperor State with the help of an Energy Nurturing Pill just now, they knew very well that the Energy Nurturing Pills' main effect was the help a martial artist trains. It was likely not incredibly effective at getting through bottlenecks!

In the end, when it came to getting through any bottlenecks, the Pure Energy Pills were much stronger!

It was unbelievable!

That was not all, most of them were in the younger generation of the ancient martial arts families. So, most of them were either in the Semi Overlord State or in the Overlord state!

The Pure Energy Pills were perfect for them!

Suddenly, they were incredibly shocked. All of them started to want the Pure Energy Pills.

However, training was always something that had no shortcuts.

The fact that Pure Energy Pills could help a martial artist get through any bottlenecks just felt too unrealistic. They could not tell him what Cynthia was saying was true!

So, all of them were still somewhat suspicious, and no one acted for the moment.

“Of course it’s real! If you don’t believe in the effects of the Pure Energy Pills, I’ll show all of you right now!” Cynthia could tell that everyone was suspicious. So she motioned for Spencer to walk on stage.

The Ex-Husband’s Revenge By Dragonsky Chapter 1548

Stella was startled. “What did you say?”

Keegan avoided her gaze and said coolly, “Cordelia’s people here. I don’t want grandma to hear any stories, so don’t read too much into it.”

‘No wonder,’ she thought.

Stella pouted.

‘I knew it. He wouldn’t say such strange things. He’s the one who’s a performing art major graduate; he can get into character anytime and anywhere. But, why should I cooperate with him?’ she thought.

Just as Stella was about to reject his request, she suddenly saw Bella look longingly in their direction. She looked as if she wanted to pounce over and separate Stella from Keegan.

Suddenly, Stella changed her mind.

She grabbed Keegan's shoulders and murmured, "Keep your word."

Then, she tip-toed and kissed him on the lips.

Keegan's lips were a little damp and tasted like red wine; it was faint and smelled a little good. 'Keegan definitely doesn't know how nervous I feel every time I use every trick in the book to seduce him. No matter how experienced I pretend to be, I've never been an expert when I'm faced with the person I like. But, things are different for Keegan. He rarely has an expression that isn't indifferent, even while he has the most intimate contact,' she thought.

'Back then, I enjoyed seeing Keegan's calm and poised composure as if I was bewitched. However, I forgot that no man would be unmoved when looking at the woman he likes unless he was completely uninterested in that woman. If Keegan's uninterested in me, he wouldn't spare me a glance even if I stood naked in front of him. Even after he reluctantly sleeps with me, he spends two hours in the bathroom as if I've got germs on me!' she thought again. Suddenly, Stella felt annoyed.

'I'm clearly the one who has been patient with this marriage! Who's Keegan to despise me?' she thought.

Stella stared at the face she was once enamored with and stuck out her tongue without warning.

Keegan tensed up and immediately frowned.

After being cheeky, Stella released her grip.

'Eat my drool, you clean freak!' she thought.

She felt even more satisfied when she saw Bella's stunned and jealous gaze.

"Hey, shouldn't you two be more mindful of your images?"

Vermont popped out of nowhere and placed his hand on Keegan's shoulder.

“At the very least, be considerate of single people like me here.”

Stella turned around and realized that not only was Vermont here but also Marshall.

His indifferent gaze met with hers. Then, he nodded lightly and did not speak.

Stella felt guilty and nervous. She felt guilty because she had not told him her real name from the start, and nervous because she was worried that Marshall would expose her. She still did not want Keegan to know that she was “Dusk Galaxy.”

‘Even if I get exposed, not now,’ she thought.

Then, she felt pressure on her waist. Keegan was holding her.

“We’re all adults. What haven’t you seen before?” he asked coolly.

Stella snapped out of her daze and looked down at his hand on her waist. She held back and did not publicly swat his hand away.

“Where’s Aurora?” asked Keegan.

“She went out to answer a call.” Vermont continued teasingly, “I’m guessing it’s your mom. Otherwise, how could she leave behind her Marshall.”

Marshall frowned momentarily but did not respond. He grabbed the wine on the table and looked at Stella. “Want a glass?”

After that, he stopped and laughed in embarrassment. “Actually, you all have seen it before. It was used to find the young master when he was kidnapped.”

Upon hearing that, Kieran was mildly interested in it as he looked toward his brother. “It was already very efficient last time. Just a moment was all it took to narrow the range and confirm the location. If developed properly, it could bring huge profits to the company in the future!”

Nicholas agreed with his brother’s point of view.

Being born and raised in the Sawyer Family, they were exposed to business from a tender age, so they could tell with a glance whether something had potential or not.

And the software developed by Timothy had huge potential.

Not wanting to beat around the bush, Nicholas asked, “What are your plans for future development?”

Timothy replied, “Actually, the software’s function doesn’t stop at echolocation. It can even use electromagnetic waves to...”

Because this was confidential, Timothy chose to only describe the partial functions in a simple manner while keeping the important bits under wraps, even though he was saved by the brothers.

Although he only revealed a few aspects, Nicholas found it to be full of potential.

And so, he said somewhat amusingly, “With such a big project, I doubt that twenty million would be enough, no? Go back and draft up a proposal for me; if it looks functional, then the Sawyer Group might consider investing in it.”

Initially worried about the capital, Timothy and Henry now looked each other in the eye after hearing Nicholas' words. With both of them agreeing to it, they immediately nodded. "Alright, we'll draft up a perfect proposal, so rest assured, President Sawyer."

Because she was not someone who conducted business, much less involved in IT, Tessa could not pitch in to their conversation.

However, because this was something that concerned her brother, she was still listening attentively.

She could still understand it as their topic was quite shallow.

After a few minutes of listening in, Tessa was a bit taken aback that they had decided on such a big project based on a few exchanges.

However, she knew that Nicholas was not a careless man when conducting business. The fact that he decided on the deal meant that the project her brother was heading was really good. That was why Timothy got the stamp of approval.

On one hand, she was feeling proud that she had such an excellent brother. On the other hand, she was a bit sad because she felt that she could not contribute much help.

After this deal, he will be busy as a bee again. Together with the launch of the company, Timothy will surely overwork himself yet again.

In the midst of being sad and happy, Tessa could feel her emotions running wild.

Gregory, who was listening by the side, felt that their conversation was not as interesting as talking with Tessa, so he lightly tugged on her clothes and said sweetly, "Miss Tessa!"

"Yes?" Tessa looked at Gregory

“Miss Tessa, is your wound getting better? Does it still hurt?” Gregory blinked as he asked, his tone full of concern.

Smiling, Tessa ruffled his hair gently. “Thank you for caring about me, Greg. I’m feeling much better now and it doesn’t hurt as much anymore. The checkup tomorrow will be the last one.”

Hearing that her wounds were healing up made him nod happily. “That’s good. I hope that you can heal quickly.”

“I will.” Tessa smiled.

Looking at her shoulder as he tilted his head, Gregory kneeled on the chair and started to blow on Tessa’s shoulder. “I blow on it for you. So, when you go for the checkup tomorrow, it will be fully healed then!”

Gregory, who was being as caring as always, made Tessa feel all warm and fuzzy with just a greeting, as he was just too sweet.

After a while, the dinner ended.

With Henry and Timothy in tow, Tessa bided Nicholas and the rest farewell as they stood by the entrance.

Before getting into the car, Gregory kept his gaze on Tessa. Like an adult, he sighed lightly. “Why does time pass so quickly? I haven’t spent enough time with Miss Tessa yet.”

Tessa’s heart clenched as she somewhat resonated with his words. She also felt that time flew by and that she did not spend enough time with this small fluffball.

Reluctantly, Gregory looked at Tessa. He was about to ask her to go back with them, but then he forcefully swallowed his words.

He had already said it last time that he would not make it hard on her or make her sad again.

Since her hand was not fully healed yet, he decided to hold back. When she was fully healed and able to play the violin again, Gregory would look for Tessa again, with confidence that she would come back.

What he could not do now was to be a kid that people disliked.

Gathering his energy, the boy raised his head and looked directly at Tessa. “Goodbye, Miss Tessa!”

Smiling, Tessa replied, “Goodbye, Greg.”

Carrying Gregory in his arms, Nicolas did not open his mouth as he silently waited for the two to bid their farewells. Only then did he get into the car with Gregory and leave.

On the way back, Kieran looked like he had something to say to his brother, yet he kept stopping himself.

Shooting a glance at him coldly, Nicholas chided, “Whatever you want to say, spit it out. As a man, why are you acting all hesitantly?”

“It was you who wanted me to say it, so don’t get mad after I do so, Nicholas.”

The Ex-Husband’s Revenge By Dragonsky Chapter 1550

After the sales drive, all the customers who attended left with satisfaction.

Very quickly, only Leon, Damian, and the others were left behind, alongside Yuri and Raphael.

“Mister Thompson, thank you so much for this. Thankfully, you were around to chase the Black Gorilla away, “Leon did not forget to thank Yuri.”

“Mister Wolf, you’re being too polite. You saved Roanne before, our family owes you a huge debt. I was just doing what I needed to,” Yuri smiled sincerely.

Leon smiled, not saying anything else.

Human relationships were always like that. Both sides would help each other, it was just natural.

“Mister Wolf, if there’s nothing else you need, I’ll take my leave with Raphael,” Yuri bid his farewell before he left with Raphael.

At that moment, Damian ordered some of their disciples and guards to help Cynthia deal with tidying up. He

then moved over with Leon and Iris.

“Leon, those Energy Nurturing Pills and Pure Energy Pills are just amazing. They’re much better than I expected! Do you have any left? I wish to buy some,” Damian asked.

Earlier, Damian and Leon maintained the order of the venue with the others, so he never had the chance to

join and purchase the pills.

However, he felt like Leon must have kept some for himself, so he planned on purchasing some from Leon in private.

“I do have some, but there’s no need for you to buy any!” Leon said before he motioned for Stephen to bring

a few bottles over.

“Uncle, here are five hundred premium Energy Nurturing Pills and five Pure Energy Pills. I deliberately prepared some as a gift,” Leon handed the pills over to Leon.

He kept over a thousand Energy Nurturing Pills and over twenty Pure Energy Pills this time. Other than the portion prepared for the Scammells, the rest would be enough for him to use for some time.

“How could you do that? The pills aren’t exactly cheap. We can’t just let you waste your money like that!” Damian was shocked. He did not reach out to accept the pills.

“It’s fine, uncle. We’re a family. There’s no need for you to be polite with me,” Leon smiled. After that, he pushed the pills into Damian’s arms.

This time, all of the pills he made were made with materials from the Scammells. The fact that the sales drive went so well was a large part of thanks to the Scammells.

On top of that, Damian was Iris’s relative. No matter how you looked at it, Leon giving the pills to the Scammells was only natural.

“But,” Damian was still hesitant.

“There are no buts! Iris increased the price this time, and we made a lot more than we expected! Those pills

here aren’t much. Just treat them as a gift from Iris to the Scammells,” Leon said with a smile.
