### Chapter 1041

At Mistcloud Mountain, the clouds were incredibly dense, forming a sea of clouds in the skies. It looked endless.

Looking around, there were trees everywhere, and the scenery was beautiful.

Leon stood on the top of the mountain, taking a deep breath as he started to focus.

The spiritual energy there was incredibly dense and pure, much better than the mountains behind the mansion.

Before this, he was too weak to absorb and use spiritual energy that was too pure. However, he was already in the Foundation Phase. It was enough to use the spiritual energy of Mistcloud Mountain for his training.

"I should focus on making my breakthrough!" Leon did not hesitate as he sat right on.

A few months ago, he already set up an Energy Convergence Circle at Mistcloud Mountain to gather spirit dew for Elegante.

Since the circle was already there, he just needed to activate it to use it to help with his training.

Gilbert changed the topic.

He did not care about Leon's mood. He did not really care about what Leon thought.

"Uncle, hold on. Iris isn't here either. Could she have left with Leon in the morning?" Louisa asked in shock.

"No, Leon left by himself. I didn't see Iris with him."

Gilbert was taken aback, finally realizing that Iris was not there either..

However, he thought about it. Iris loved Leon. The two of them just broke up again. Leon would not be the only one in a bad mood. Iris probably was as well. That was why she was not there for breakfast.

"Louisa, Iris is probably still asleep. Why don't you go get her for breakfast?" Gilbert said after some hesitation.

"Oh, alright," Louisa acknowledged before leaving the dining room, running upstairs.

That was not the most important part. The important part was that Iris already agreed to his request the night before, and planned on leaving Leon to be with Anson.

Yet, not only did Iris not leave Leon, she even spent the night with him.

It was obvious how he would feel!

“Leon, you despicable man! I’m going to kill you!”

By the time Gilbert reacted, he looked furious. His face was as dark as it could get.

He thought that Leon left because Leon was in a bad mood after breaking up with Iris.

Only then did he realize that there was no way Leon could be in a bad mood after something so great just happened. Leon was probably ecstatic!

At that moment, cold laughter was heard. Jacob led over a dozen of the experts from his family and barged into the living room from outside.

“Jacob, it’s you! Why are you here?”

Gilbert was shocked. After that, he forgot about how Leon fooled Iris as he walked forward and took a defensive stance.

Jacob had a cold look on his face as he shouted. He seemed like he tried to look as majestic as he could.

“He’s not here. He left in the morning,” Gilbert said.

“Not here? Old man, do you think I’m so easy to trick?!” Jacob laughed, clearly not believing Gilbert.

“You can believe whatever you want!” Gilbert’s expression darkened.

He was still a part of the second generation of the Youngs before, a direct descendant as well. He was incredibly furious at being called an old man so disrespectfully by Jacob, but there was nothing he could do.

“Stop trying to pull that with me!”

Jacob laughed coldly before summoning up energy, shouting out, “Leon, come out here, you coward! If you keep hiding and refuse to come out, don’t blame me for what I do to Iris!”

As he said that, Jacob shot a look at Marco and Jackson. They acknowledged it and immediately surrounded

"Let go!"

Right at that moment, Ruth took advantage of Jacob's distraction and suddenly struck forward, quickly striking at Leon.

The head of the beast was the most important!

She knew that Jacob was the leader, and knew that Jacob was only an initial Supreme Master. Jacob was far weaker than she was.

She was already an advanced Supreme Master. With her attacking so suddenly, she had a very good chance of capturing Jacob!

As long as she could capture Jacob, she would not only be able to save Iris but use Jacob to threaten the experts with him, turning the tables!

Yet, it was easy to dream. The reality was much crueler.

In the end, she still underestimated Jackson's strength as someone in the Semi Overlord State!

"How dare you!"

Louisa spat out a mouthful of blood as she was sent flying several meters, slamming onto the wall before she collapsed on the ground.

Not only that, but with Jacob's angry strike, her organs were all damaged. She lay on the ground, struggling to even breathe. Her life was in danger at that moment.

"Louisa!"

Seeing that, Iris's eyes widened. After that, she did not even think about it as she bit Jacob's hand, taking a hard bite.

Jacob hissed in pain. His hand felt like it was shocked as he let go of Iris's neck.

"You wretch! I'll kill you!"

Jacob was furious with the pain. He slapped Iris right on the face, sending Iris to the ground.

After that, he lifted his hand and aimed at Iris's head, wanting to kill Iris right away.

"What good would that do? He's only a peak Supreme Master. Even if he goes over and tries to save  
Iris, he would just lose his life for no reason," Gilbert said hopelessly. He was full of sadness and misery.

He was once the first in line to inherit the family and was even the chairman of the Young Group. He was  
so impressive in everyone's eyes!

Yet, not only did he give the Youngs away, he even fell to this level. He could not even save his daughter  
and niece!

It was obvious how he would feel!

“This is all your fault. If anything happens to Iris or Louisa, I won’t forgive you!” Gilbert shouted angrily.  
He knew that Harold and Jacob were targeting Leon. If Leon did not leave, Jacob would not have shifted  
his anger to Louisa and Iris.

Gilbert did not have the ability to protect Iris and Louisa. All he could do was push the blame to Leon.

“Shut up!”

Leon’s looked at Gilbert angrily. His cold gaze stunned Gilbert.

However, it was not the time for Leon to fight Gilbert, He turned around, going to save Iris was his first  
thought.

"You're only a peak Supreme Master. You're still far from Harold's level. Even if you go there to save Iris, you'd just give up your life for no reason! I think you should just stay here to treat Louisa. Leave saving Iris and Ruth to the Collins!" Elder Young said in a hurry.

He knew that Leon was an incredibly skilled doctor, having saved his own life a few times before. With Leon's magical abilities, Leon should be able to treat Louisa.

As for saving Iris, he should forget about it!

Leon was alone and not strong enough. There was a gulf between Leon's strength and Harold's. It would be impossible for Leon to save Iris!

"How could I do that?! I need to go save Iris!" Leon said in a hurry. He did not stop as he quickly rushed outside.
