

The Ex-Husband's Revenge By Dragonsky

Chapter 2200

Chapter 2200

"Great! That's settled, then! Stop bowing!" Overjoyed, Leon immediately asked Chandler, Henry, and Sherlyn to get up.

His main goal in visiting Chandler was to recruit him into Cynthion Group and resolve the security crisis the company was facing. Since his purpose had been fulfilled, there was no reason for Leon to stay there any longer.

"Chandler, why don't you pack up and leave with us?" Leon asked.

"Sure!" Chandler agreed before returning to his hut to gather his belongings.

In the meantime, Leon ordered Mason to shove the Scarlet Thief's body into the trunk of the car while he went to pick up the three daggers he had thrown earlier.

The poison on his daggers was Deadly Veratrum poison. It was extremely rare, so Leon did not intend to waste them since they had missed the Scarlet Thief earlier.

After retrieving his daggers, Chandler went out of the hut and got into the car with the others to leave.

Meanwhile, in the yard of the southern region branch of the Dragon Corps.

Twenty Dragon Guards of varying ages gathered while Alfred stood before them with a stern look on his face.

"Everyone, I've contacted the eastern region and informed them to send us reinforcements for the mission to eliminate the Scarlet Thief! They have sent us a few Dragon Guards, and they should be here any moment now! Once they get here, we will join our forces and put the Scarlet Thief down!" Alfred said.

Everything was in place as he had summoned a group of Dragon Guards in advance to prepare for the attack on the Scarlet Thief.

Once the Dragon Guards from the eastern region arrived, they would be able to spring into action.

"Yes!" The Dragon Guards said in unison, all the while worrying.

The Scarlet Thief ranked fourth on the criminal list and was known for his cunning. He would often escape as soon as he heard any news of an ambush against him.

Even with the help of the Dragon Guards from the eastern region, they might not find the Scarlet Thief, let alone kill him.

Their chances of success were really low. That was what all the Dragon Guards, including Alfred, had thought.

Although the southern region Dragon Corps had a lot of powerful martial artists, with a few in the Intermediate or advanced Almighty States, the Scarlet Thief was skilled in hiding himself.

The southern region was vast, and it would be difficult to find the Scarlet Thief on their own.

Thankfully, they had managed to obtain some hints after tracking the Scarlet Thief for days, so they might be able to find the Scarlet Thief and hunt him down with the help of the Dragon Guards from the eastern region. The rest would depend on their luck.
