

The Ex-Husband's Revenge By Dragonsky

Chapter 2214

Chapter 2214

"Didn't the Scarlet Thief go after Leon and Henry? How'd he get killed by the Dragon Corps? Did Leon and Henry manage to capture him as they did with the guardians?"

The others snapped out of it and exchanged stunned looks.

They all thought that Henry and Leon were responsible for the Third, Fifth and Sixth Guardians' arrest by the Dragon Corps, and since the Scarlet Thief suffered a worse fate, the others instantly connected the dots and realized that Leon might be responsible.

"No way! The Scarlet Thief is in the Intermediate Almighty State and has mastered an advanced rank black class technique, so a brat like Leon can't possibly have what it takes to defeat him!" The Southern Boss's expression darkened.

He once attacked Leon after Leon injured Rodney during the sales drive organized by Cynthion Group, and he could tell that Leon was only in the Emperor State.

With such a difference in strength compared to the Scarlet Thief, it seemed unlikely that Leon would manage to defeat the Scarlet Thief.

Henry, on the other hand, was hunted by the Scarlet Thief.

He would not have lost his family to the Scarlet Thief and ended up living on the road.

Considering how powerless Leon and Henry were, the Southern Boss did not believe them to possess the ability to eliminate the Scarlet Thief.

"You're right, Southern Boss! I don't think that a young man like Leon can do that either! I think the Dragon Guards might be the ones who did it! It just baffles me as to how they managed to track and kill the Scarlet Thief so easily!" Grand Apostle said hesitantly.

According to what was publicly announced, the Scarlet Thief was included in the criminal list for three to four years and the Dagon Corps never stopped trying to hunt him down, but failed miserably whenever they tried.

Coincidentally, the Dragon Guards managed to defeat the Scarlet Thief just as he was about to attack Leon, and it was too strange to be concluded as a coincidence.

"That's what confuses me as well! The Scarlet Thief is cunning and alert, so it shouldn't be that easy for the Dragon Corps to get rid of him," The Southern Boss said.

Though there were several skilled martial artists in the southern region of Dragon Corps, it was always a challenge for them to track the Scarlet Thief down.

Even if the Dragon Guards stumbled upon the Scarlet Thief by luck, the Scarlet Thief could easily escape them instead of dying without putting in much of a fight.

The Southern Boss instinctively knew that there was more to the story.
