

The Ex-Husband's Revenge By Dragonsky

Chapter 2252

Chapter 2252

"Not good!"

Feeling the intense attack that was coming from Yonas, John's heart sank.

With who Jonas was, there was no way he could attack or fight back against Jonas!

Yet, Roanne was behind him. He was worried that Yonas would hurt Roanne, so he did not dare to avoid the attack.

So, all he could do was stand there and summon up his strength to his chest, allowing Yonas's attack to fall on him!novelxo

Bang!

After a violent clash, Yonas's attack fell right on John's chest!

John let out a grunt after taking the attack. He felt the blood churn from his chest as he took a few steps back before he steadied himself!

Thankfully, he was much stronger than Yonas, and he summoned up his power to protect himself. Yonas's attack did not deal him any real harm!

However, no matter how strong he was, he was still made of flesh and blood!

If Yonas continued to attack a few times, he might not be able to take it!

"John! Do you think I can't do anything to you just because you're strong? Let's see how many strikes you can take!

Take this!" Yonas shouted in frustration. After that, he attacked John again!

"Stop!"

Iris could not stand it anymore as Yonas crossed the line more and more, she immediately stepped forward.

"Mister Thompson, please calm down! That woman next to you is very suspicious. She keeps trying to meddle in your relationship with Roanne. You mustn't fall for it," Iris said sincerely.

Even though she did not like Yonas that much, Yonas was still one of the Thompsons!

With Leon's relationship with the Thompsons, she would naturally not want any internal conflict between Yonas and Roanne!

So, she said a few words of advice, trying to wake Yonas up!

"Wretch, who do you think you are?! Do you think you can educate me?!" Yonas was furious.

At that moment, he already completely lost his temper and his mind!

Other than that, he was always an arrogant and narcissistic man. He never bothered with a small figure like Leon, who was just under the Thompsons' protection, let alone Iris!

At that moment, Iris was 'insulting' Fiona just like Roanne was. There was no way he could accept it!

After that, he stopped his attacks on John. He directed all his anger at Iris. With a flick of his wrist, he violently slapped Iris' face!

Smack!

Iris never would have dreamed that she would get a slap in return for her kindhearted advice!

It caught her completely off guard!

She did not even manage to react at all before she was slapped in the face by Yonas and was sent right to the ground. There was a burning sensation around her face, and a sliver of blood flowed out of her mouth.

"Iris, are you alright?"

Raonne never expected Yonas to direct his anger at Iris as well. She was incredibly shocked as she hurried over to help Iris up.

After that, she was furious when she saw the blood coming from Iris' lips. She immediately glared at Yonas, saying angrily, "Yonas, you are crossing the line here! Iris is giving you advice out of the kindness of her heart! It's one thing for you to ignore her, but why did you hit her?!"
