Chapter 2255

Chapter 2255

"You-"

The moment that was said, Roanne's face reddened in anger. Her hands stopped using her phone as well.

She knew very well that Yonas was practically bewitched at that moment, and already lost his rationality!

If she gave Arthur a call at that moment and it angered Yonas, Yonas might end up doing something to hurt Iris!

That was not something she wanted to see!

Suddenly, she was caught in a difficult position because she was concerned for Iris' safety. She did not know what to do!

"Sir, you can't do that!"

Seeing that, John could no longer hold back as he stepped forward to protect Iris!

"John, I'm warning you. Get lost right now! Otherwise, don't blame me for not holding back!"

Yonas was furious that John was constantly trying to ruin his plans. He had a fire in his eyes as they glinted murderously!

"No, I won't give way! Sir, Mister Wolf has helped our family so much in the past. How could you repay him by attacking his girlfriend?! I won't let you do that!" John said with a firm tone in his voice.

Not only did save Roanne so much before, Leon even gave him that valuable pill!novelxo

It was one thing that he did not help Iris when Yonas slapped Iris, but he could not just watch as Yonas took Iris away!

He would not know how to face Leon if that happened!

"Very well! You asked for this! You can't blame me now!" Yonas's anger could not be sated.

After that, he suddenly attacked forward, quickly targeting John's Energy Sea Point with imperious force!

"Sir, you-"

John's expression changed drastically.

The Energy Sea Point was practically the lifeblood of all martial artists. A light injury was already very severe. A heavy injury could cripple someone, and could even be fatal!

He never would have expected Yonas to target his energy sea and be so ruthless. On top of that, they were too close to each other that he did not have his guard up at all!

By the time he could react, it was already too late to avoid it!

With the situation being so urgent, he was barely able to protect his energy sea as he tried to stop Yonas's attack!

Right after that, there was a loud bang as Yonas landed his attack right on John's Energy Sea Point!

Being struck like that caused John to spit out a mouthful of blood on the spot. He staggered back a few steps before he fell on the ground!

Thankfully, he managed to summon up his energy to protect himself at the last moment, and Yonas failed to cripple him!

However, his injuries were still quite severe. He collapsed on the ground, unable to even breathe properly!

"Take Iris away!"

Taking the chance, Yonas ordered the two experts.

"Yes!" The experts acknowledged it as they reached out to grab Iris.

"No."

Iris's heart sank at the sight.

Even though she was a martial artist, she was weak. She was not even in the Emperor State!

There was no way she would be able to match up to two experts from the Thompsons!

As for Roanne, she wanted to help Iris against the experts just like John did, but Yonas stopped her!

Yonas knew that the two experts would not dare to be disrespectful to Roanne, so he reached forward and immediately stopped Roanne, stopping Roanne from helping Iris.

"Despicable!" Roanne's expression changed. She could only stare as the experts captured Iris, but there was nothing she could do about it!

"Stop! Who dares to cause trouble here?!"

At that moment, the situation suddenly changed as a cold shout was heard.

Right after that, Leon walked in with Chandler.
