

A Man Like None Other

Novel

Chapter 3067

"Master Yan is right, I am a little stingy about this matter, and I will not pursue it in the future!"

King Lei Ying hurriedly agreed!

At this time, he was at an absolute disadvantage. If he didn't agree, his life might be lost!

"Well, since you agreed, then this matter is over, but remember, if you trouble David because of this time, don't blame me for being rude, after all, I guarantee this matter. "

Master Yan's voice suddenly turned cold!

"No, absolutely not..." Thunder Eagle King wiped the cold sweat from his forehead, shook his head and said hastily!

"You go." Lord Yan waved his hand!

The Thunder Eagle King didn't dare to stay in the slightest, and flew away with his hundreds of bloodthirsty Thunder Eagles!

At this moment, in mid-air, a flying boat slowly approached, it was the flying boat of Fei Tianzong, coming to pick up Ji Yun!

After saying goodbye again, David led Yihe and the others towards the airship!

Shi Tieqiao came out of the airship, he was here to pick up Ji Yun!

But when Ji Yun looked at the airship in front of him, his expression became very ugly!

I saw that this airship is not big, it can only accommodate a dozen people, and it looks extremely old!

As the eldest son of the Feitian Sect, Ji Yun felt ashamed to use this kind of airship to pick him up!

"Elder Shi, what's going on? How can you pick me up with such a broken thing?"

Ji Yun asked Shi Tieqiao with a cold face!

David and the others were also surprised. After all, Ji Yun was the eldest son of the Feitian Sect, so he wanted to build a better airship. The airship that came this time was a bit too broken!

David was afraid that the airship would break down halfway and fall from mid-air!

"Master, our Flying Sect doesn't have any free airships. It would be great if we could find this one. Let's get on the boat and explain to you as we walk!"

Shi Tieqiao said helplessly!

"There are no free airships? Is the business so busy recently?"

Ji Yun looked surprised. There is no major festival now, so how can there be such a large amount of airships?

Usually there are no important things, and few people make airships, after all, spirit coins are needed!

Some rogue cultivators already have few resources, and it is even more impossible to take out spirit coins to make airships. They would rather walk than sit!

“Mr. Chen, this airship is too crude, please bear with it...”

Ji Yun said to David very embarrassedly!

“Having an airship is better than walking, let’s go up...”

After David finished speaking, he walked in first!

Gao Qilan and Yu Jiameng seemed a little excited, after all, it was their first time to ride an airship!

After getting on the airship, the airship started slowly and began to fly towards Feitianzong!

Ji Yun turned to Shi Tieqiao with a cold face and asked, “Now it’s time to explain it to me.”

Shi Tieqiao glanced at David and the others, and seemed to have something to hide!

“Say, Mr. Chen is not an outsider...”

Ji Yun said coldly!

Shi Tieqiao trembled in fright, and hurriedly said, “Master, more than half of the airships of our Feitianzong have been damaged, and now all the airships have gone to Mohai.” “What?”

Ji Yun stood up abruptly." Half of it lost? What happened? Why did you go to the Black Sea? Isn't that a no-fly zone?"

"Most of the airships were snatched by the Cloud Piercers, and some crashed in the Black Sea."

"During this time, the Mohai suddenly had huge waves. I heard that there were many treasure resources pouring out. Some people found treasures in the Mohai, so many people rushed to the Mohai!

" People from the Cloud Crossing Sect actually crossed the area and attacked our airships, causing many of our airships to crash and be robbed!" "The

master took the remaining airships to seek justice, so there are no airships available in the Feitian Sect now. , that's why I use this dilapidated boat to pick up the young master!"

Shi Tieqiao followed Ji Yun carefully and said!
