

Read I Am A Quadrillionaire Chapter 2267

I am a quadrillionaire chapter 2267-Elven Queen Isa rushed towards David and others at top speed.

Just now she not only sensed a powerful force but also the energy of Elven Princess Evie whom they had been looking so long for.

With the two combined, Queen Isa already had some predictions in her mind.

Those who dared touch the Elven Prince would definitely not be weak in status and strength.

Then this person was probably the person who took Evie.

No matter who the other party was, she would teach him a lesson first.

Even Leila's super-rich family would pay a heavy price if they dared capture the Elven Princess.

Back then, the Elves would not dare to say something like that.

Now, under Queen Isa's leadership, the Elves had formed good friendships with Leila's many super-rich families.

As long as it did not involve too many interests, everyone would show respect to the Elves and Queen Isa.

At this moment, Queen Isa was ready to let out her anger on David. She was full of anger and killing intent.

She vowed to avenge Evie and bring prestige back to the Elves.

Part of the energy he released just now was crushed and it confused David.

He was just warning the other party not to come over and he did not have any intention to fight.

Why did the other party fly into a rage all of a sudden?

Their approaching speed was faster than before, not to mention, they were coming with killing intent as well.

'What is this for?

'Do they want to fight to the death with me?

'Is there a need for such a big reaction?

'Do they like fights?

'That can't be!

'Even if they like to fight, it should just be a friendly duel without any killing intent.

'We don't know each other and there are no grudges between us.

'How strange.'

David shook his head helplessly.

He could feel the powerful energy and killing intent getting closer.

If he did not stop it, they could get here very soon.

David had no choice and he could only go up to meet the other party. He could not let the other party come over.

Beanie, Thor, and others were all weak. What if the battle here affected them?

Except for the mysterious powerful force in Pebbles which might guarantee her safety, the others might not be able to block the energy at all.

"Stay where you are. I'll go see what's going on."

After David spoke, he jumped up and turned into a shadow before instantly disappearing from everyone's eyes.

When Evie sensed that this familiar presence was her mother, the Elven Queen, she was too busy feeling happy.

She only came back to her senses after David left.

She loudly shouted, "Master David, don't go!"

Yet David had gone far now and he could not hear Evie's voice at all.

"Princess Evie, what's wrong?" Beanie, standing beside Evie, asked.

"Beanie, hurry up and stop Master David from going over," Evie said in a panic.

"Princess Evie, don't worry. Master David is very powerful. He has his plans, so we have to trust him and wait for him here. He will return safely," Beanie comforted Evie.

"It's not like that! It's not like that! You must stop Master David. I'm afraid they will have a misunderstanding and then Master David won't be able to come back," Evie cried out in fright.

She had seen David's strength and know that he was very strong.

However, was he stronger than her mother?

Her mother was the Elven Queen.

At the same time, she was also the number one among the Elves.

After accepting the inheritance, the Elven Queen's combat power was already comparable to Leila's top powerhouse. Evie knew her mother must have found her.
