I am a quadrillionaire chapter 2302-“What’s wrong? Do you want to save him? Are you ready to be generous and die together with him to earn a prestigious reputation?” Blue asked with a gloomy expression.

He thought in his heart. ‘So what this old man said indeed works huh?’

‘I should’ve killed him straight the first time and not given him a chance to speak.’

This would not have happened now.

The few other Sacred Saints looked over with a curious look.

‘Why would Zenon save Sid when he’s such a selfish and ambitious guy?’

The two did not have a good relationship all this while.

He should be anticipating Sid’s death.

Even Sid was dumbfounded.

To his understanding, Zenon would never save him. Rather, he would be hoping for his death.

Zenon obviously would not save him without reason, as he had his own intentions by stopping Blue.

Seeing how Blue was having an ugly expression, he quickly explained, “Master Blue, it’s a misunderstanding. I didn’t mean it that way, but Sid cannot die yet.”

“Give me a reason! If I am not satisfied with it, then you can go to hell together with him!”

“Master Blue, only Sid knows the actual location of David Lidell now. If you kill him, it will be difficult to track David down. He is a partial Divine Realm individual, and he is young, so it might be possible for him to advance into the actual Divine Realm. If he escapes, he will be a problem in future.”

“Zenon Palmore! You traitor! Bastard!” Sid shouted.

When Blue heard this, his expression changed instantly, and he asked, “So you don’t know David’s location?”

“Master, we are not close to David. He goes to Sid for almost everything and never bothers about the rest of us.”

‘Then how about his family and the power under him?’

“Master, he appeared out of nowhere, no one knows about his family. Before his appearance, the six of us Sacred

Saints were the powerhouses of the Star Kingdom.”

“So I suppose our Feather family descendant Azul died under his hands?”

“Indeed! Not only does David have the power of a partial Divine Realm but he also has another secret spell that can summon three clones of the same level. He is very unpredictable, and Master Azul died because of this. He underestimated him.” Zenon spilled everything he knew.

He was draining his brain to find ways to please Blue.

No matter what Sid said was true or not and regardless of his outcome after this, he must sabotage Sid and David as much as possible now.

“Zenon! You bastard, do you know what you are doing? You’re killing the last hope of the Star Kingdom, I will kill you ... I will kill you.” Sid yelled.

Blue did not make any movements, and instead only looked over. At the moment, Sid suddenly could not say a word. He grabbed his neck and stared deadly at Zenon.

“He knows a secret spell that can summon three clones of himself? That’s interesting.” Blue nodded.

He then continued asking, “But based on this old man’s temper, will he tell me David’s whereabouts without being killed?”

“Master, the Griswold family has always taken it as their duty to protect the Star Kingdom.

If you threaten him with the lives of the people of the kingdom, he will definitely speak. If he doesn't say anything, you shall destroy a hundred living planets a day, and see how long he can last." Zenon said with a smirk.

The other Sacred Saints looked at Zenon with a look of disbelief.

'Threatening Sid with the lives of the people in Star Kingdom?'

'It is a good move, but isn't this too cruel?'

'I suppose only people like Zenon can think of such vicious methods!'

Sid glared at Zenon with flushed eyes, feeling a strong desire to kill him immediately.

Even so, Zenon did not bother.

"I see, things are way easier when there's a weakness."

Blue then looked at Sid.

"Old man, listen up. Tell me where David Lidell is or I shall destroy ten thousand living planets a day."
