

Read I am a quadrillionaire chapter 2617

I am a quadrillionaire chapter 2617-“It’s not hard work at all! I’m very happy to see everyone making progress every day.” Celeste said with a smile.

“David, Celia, and the women are all my disciples, so it is my responsibility to teach them,” Nova also replied.

“Anyway, no matter what, I still want to thank you. Now that I’m out of seclusion, I have something to tell you.”

After David said that, the scene became quiet and no sound was heard. All eyes were focused on him.

They were all waiting for him to continue.

Under everyone’s gaze, David thought for a moment and continued, “I have something to deal with so I will leave

Earth for a while. Your current goal is Eternal Realm so you can’t keep changing places frequently as it will affect your cultivation. Therefore, I won’t take you with me. I will take you out to look around after everyone achieves Eternal Realm.”

“David, you’re leaving?” Celeste asked with a frown.

“Yes, Celeste. After I leave, I will leave Celia and the others to you and Nova.” David nodded.

“David, where are you going? Star Kingdom?” Celia could not stop herself from asking.

“No! The place I’m going to is called Leila. It is a level 9 civilization. You should also know that it is the civilization

where the Feather family is located,” David answered honestly.

Those who could gather here were the people closest to him.

David felt there was no need to deceive everyone, so he simply told the truth.

'Level 9 civilization?' Celeste and Nova were shocked and looked at David in horror.

Others might not understand the meaning of a level 9 civilization.

After all, Celia and the others were either born on Earth or in the Milky Way. Those two places were considered low-level civilizations.

Even if they had been to Star Kingdom, they still could not understand the differences between civilizations.

However, Celeste and Nova knew.

A level 9 civilization was the highest level of civilization in the universe.

Further up was the legendary level 10 civilization, which was also the God Tier Civilization.

Everyone knew that Level 9 civilizations existed and there was more than one in the vast universe.

As for level 10 civilizations, no one knew whether they actually existed or only in legends.

"David, are you going to Leila?" Celeste asked, uncertain.

She wondered if she had heard wrongly.

That was a level 9 civilization!

There were countless powerhouses over there.

Even though David was very powerful and extremely talented, he was still so young.

How could he match those old monsters?

"Yeah, I have to go to Leila. Besides solving the problem with the Feather family, I have other things to do as well," David confirmed.

"David, you have to think clearly. Leila is a level 9 civilization and it is the highest-known civilization in the universe. There are so many powerhouses

there and a lot of the old monsters there had lived for epochs!” Nova persuaded.

“Don’t worry, Nova, since I’m going, I’ve made enough preparations. You don’t have to worry about me. I’m not afraid of anyone in Leila,” David stated confidently.

“We believe you. With your talent, you can rise quickly wherever you go. However, Leila is different from Star Kingdom. You must keep a low profile when you are there. Don’t provoke those big forces. Some of the old monsters have lived even longer than Star Kingdom has existed,” Nova reminded.

“I understand! Nova, just wait for me on Earth! I will come to pick you up after I familiarize myself with Leila.”

David wanted to tell everyone that his strength had reached the top of Leila.

Yet after thinking about it, he decided to not say anything.

The main reason was that Nova and Celeste would not believe him even if he told them, so he might as well not say it.

“David, when you get to Leila, you must be careful and keep a low profile first. The Feather family is not weak. It won’t be too late for you to take action after you gain more strength,” Celeste said immediately.

“Don’t worry, Celeste, I understand all this.”

No one else intervened in the conversation between the three.

The main reason was that they did not understand what a level 9 civilization was.

In addition, anyone who had been around David for a long time knew that once he made a decision, he would not change his mind easily.

I am a quadrillionaire chapter 2618-David needed support, not opposition.

“David, when are you leaving?” This time it was Selena who asked.

“It’s urgent, so I have to leave right away!” David replied.

“Dave, you have been in seclusion for such a long time. And now that you’re out you want to leave immediately? Can’t you stay with us for a few days?” Sandy pouted, a little angry.

The other women nodded, indicating that Sandy was right.

They all had a look of resentment on their faces as if they were bitter.

They would not stop David from going to Leila.

However, it did not make sense for him to leave immediately after he left seclusion.

No matter what, he should accompany them for a while.

David reached out and touched her head to comfort her. ” Sandy, it’s very urgent this time so I can’t accompany you, but I promise you that as long as you practice hard, I will go to the end of the world, or even the universe, with you once you get to Eternal Realm, how about that?”

“Dave, you promised so you can’t go back on your word.”

“Certainly!”

At this time, David’s communication device sounded.

Beep beep!

He took a look and saw that Evie had sent the location of her clan in Leila.

He opened it and a huge and beautiful three-dimensional galaxy map appeared in front of everyone.

Celia and others were shocked by this galaxy map.

Even Celeste and Nova were attracted by it.

They had seen the map of Star Kingdom, but not the map of level 9 civilization Leila.

It was bigger and more beautiful than Star Kingdom.

A dozen pairs of eyes stared at the star map.

Two shining points successfully attracted everyone's attention as there were only two shining points in the entire three-dimensional galaxy map.

One was in the upper center of the map while the other was in the bottom corner.

David knew that the shining point at the bottom was where they were.

The other one was undoubtedly the Elves' location.

"This should be our location, and the one above is where I want to go," David said, pointing to two shining spots.

The distance between the two shining points did not seem to be very far.

However, the actual distance could be determined without a reference.

"David, can you find Star Kingdom?" Celeste asked.

If they found Star Kingdom, they could calculate the approximate distance.

"I'll try to zoom in!"

After David finished speaking, he controlled the communication device to continuously enlarge the shining point at the bottom.

The whole process lasted ten minutes, and yet he still could not find Star Kingdom.

After a few more minutes, they spotted a prosperous civilization closer to the shining point that was obviously larger than the others.

"According to my calculations, this should be Star Kingdom," David said.

Since he had very powerful soul power, his calculation ability was also quite terrifying.

Wherever he went, he could roughly calculate the approximate distance based on his speed.

Celeste and Nova looked at each other with shock in their eyes.

They only found Star Kingdom after zooming in on their location for more than ten minutes.

Moreover, Star Kingdom was just a dot now.

How far was this?

How long would it take to get there?

I am a quadrillionaire chapter 2619-“D- David, this is such a long distance. How long will it take for you to arrive if you leave now?” Nova asked in shock.

She was really frightened by Leila’s distance.

Not just her, the other women felt the same way too.

To them, Star Kingdom was already big enough.

As a result, after the galaxy map in front of them was enlarged for more than ten minutes, it was still a dot.

Not to mention the Milky Way and the Earth.

If it were not for the existence of that shining point, it might not have been discovered at all.

They still needed to zoom in more to find it.

“David, it’s so far away. When can you come back?” Celia also asked worriedly.

Everyone looked at David.

They did not want to be separated from David for too long.

This distance was indeed too far.

It would take a long time for him even if he traveled at the speed of returning to Earth from Star Kingdom.

“Although it is far, I have my way to reach Leila quickly. You don’t have to worry about this,” David replied confidently. After arriving at Overlord Realm, one could already ignore the constraints of time and space.

So, it would be much faster than traveling in twelvedimensional space.

However, David could only use this ability to ignore time and space when he was by himself.

If he wanted to take everyone to Leila, he would still have to use the twelve-dimensional space.

Before reaching the Overlord Realm, one would not be able to break away from the constraints of time and space even if they had an Overlord with them.

“David, we will not ask you to change your mind about what you have decided, but no matter where you are, I hope you will protect yourself first because there are so many people who love you here and waiting for your safe return. What shall we do if something happens to you?” Selena said seriously.

Her words also expressed the feelings of all the women present.

They all came together because of David. If something happened to David, this big family would be broken up as it lost its backbone.

“Master David, have a safe journey and come back safely,” Mia told him softly.

She believed that Master David would always be the brightest star wherever he went.

“Master David, have a safe trip. We are waiting for you!” Astrid echoed.

“David, if you encounter any difficulties, just think of all of us. Everyone here will silently support you, pray for you, and bless you,” Celia also said.

“David, Leila is a level 9 civilization so it is many times more powerful than Star Kingdom, which is a level 7 civilization. There are countless powerhouses so you must ensure your safety in everything. Don’t make so many people who love you sad,” Celeste said.

She had mixed feelings about David.

Originally, there was a big gap between the two in terms of age and strength, so there should not be any overlap.

Yet, the god of destiny made fools of the people.

They did something they should not in the fantasy and as a result, the fate of the two people was intertwined.

The fantasy was similar to that in The Spirit Cage.

The sense of reality there was not inferior to reality at all.

David was the first man Celeste had such close contact with. So, she definitely had feelings for David, but she did not want to compete with anyone.

Then, everyone began to say goodbye to David one by one.

After each woman said her blessing, she would come forward to hug David.

David was confused and he smiled bitterly in his heart.

What was going on? This was just a long trip.

Why were they behaving like he was going to die?

I am a quadrillionaire chapter 2620-It was not that David was proud or did not know how to be humble.

However, after learning from Sylvio that Leila only had five Overlords and one Heavenly Overlord, he did not fear this crisis anymore.

Even if he did not upgrade himself, with his current partial Heavenly Overlord strength, Heavenly Overlord Rank soul, plus 81 clones that could be summoned by his Level 6 Cloning, he was prepared to face all situations.

As the saying goes, any conspiracy is useless in the face of real strength.

Now, David already had this qualification.

Lufian, a Heavenly Overlord, would never win against his 81 partial Heavenly Overlord clones.

This was David's confidence.

Besides, being a partial Heavenly Overlord was not fixed.

Beanie and Thor were still in The Spirit Cage, constantly helping David earn lavish points.

When he accumulates 10 million lavish points again and his Body reaches true Heavenly Overlord Rank, Lufian would be nothing more than an ant by that time.

Moreover, David had always been extremely low-key.

He was not the kind of person who wanted to be famous.

It was in line with David's character to abandon everything when the matter was over and hide his merit and fame.

He would only expose himself when forced to do so, or when he was sure he was truly invincible.

If he had not maintained such a low-key character, even with the system, David might not have achieved what he has today.

Maybe he would have been captured and cut open for study while he was on Earth.

After everyone said goodbye, David comforted them, "Don't worry. Don't you know what kind of person I am? If I were the arrogant person who doesn't cherish his own life, how could I come all the way from Earth till now? So you just need to wait for me on Earth and try to break through to Eternal Realm as soon as possible, so that I can take you to travel around the universe."

"David, don't worry! As long as Lady Dream and I are around, we will definitely urge everyone to practice well," Celeste promised.

"Dave, we will work hard and promise to live up to your expectations," Sandy assured with a serious look.

Celia and the others also nodded.

Seeing the determined expressions in everyone's eyes, David felt quite relieved.

Even though he still had not figured out how to deal with his messy relationships up to today, everyone seemed to understand and did not force him, so someone as flawed as David didn't have to make difficult choices.

In fact, they also had concerns.

Perhaps they figured their relationship right now was pretty good, so there was no need to ruin it.

The women were very happy in their hearts as long as they could stay with David.

And the longer they stayed with David, the better they understood him.

This was a man who would yield to soft approaches but rejected force.

Pushing too hard would do no good and it would disgust David.

So they all acquiesced to this kind of relationship.

They believed that David would give them a status sooner or later.

Even if he did not, they would still be willing to stay with David.

After coming into contact with David, they were not interested in other men anymore.

“That’s good! Due to time constraints, I have to get to Leila as soon as possible, so I can’t accompany you anymore. We have a lot of time in the future. When everyone achieves

Eternal Realm, there will be plenty of time for us to be together,” David said happily. 2

In the end, David left Earth and headed towards Leila under the reluctant eyes of all the women.

With the coordinates given by Elven Princess Evie, David was not afraid of going in the wrong direction.

Overlords could ignore the constraints of time and space. So when they traveled at full speed, they were extremely fast.
