Chapter 2336

“Old man, I told you that you can’t compete with me in speed! Just give up already!” Leon mocked.

With that, he launched the Phantom Steps once again and employed the Earthly Plunder at the Great Apostle.

“Thi- This isn’t possible!” The Great Apostle gasped in disbelief.

He assumed that Leon could not match him in speed, yet to his bewilderment, Leon somehow managed to increase his speed a few folds within a short period, and no matter how the Great Apostle tried to

escape, he could not evade Leon's attack.

"It's possible and you should just accept your demise!" Leon scoffed, the energy gathering around his finger formed into a sharp blade that was sent toward the Great Apostle's chest.

"I- It's all or nothing!" The Great Apostle gritted out and launched a counter-attack at the very last moment.

"Baam!"

Following a loud collision, their attacks clashed.

The Great Apostle only launched the counter-attack at the last moment and did not wield his full strength, so he could hardly fend off Leon's Earthly Plunder.

Instantly, Leon's attack pieced through the Great Apostle's power and stabbed into the Great Apostle's shoulder, sending him flying.

When the Great Apostle landed, he bowed his head and coughed up a mouthful of blood; a bloody wound was left on his shoulder.

Thankfully, he managed to redirect Leon's attack at the last moment, and only his shoulder was injured

instead of suffering any damage to his vital organs; If he failed to do so, he would have taken the attack to the chest and died on the spot.

“Did Leon just beat the Great Apostle at speed?!”

“How's that possible?”

The Southern Boss and Devon were both shaken.

They thought that Leon managed to defeat the Fourth Apostle with the power of the defensive tool and that the Great Apostle could easily defeat Leon with speed.

To their bewilderment, things took a completely different turn.

Not only did the Great Apostle fail to hurt Leon, but Leon also managed to defeat the Great Apostle with speed.

It was so surreal that they all struggled to believe what they saw.

The Southern Boss thought that he saw through Leon's weaknesses, only to be proven utterly wrong.

Confused, he could not understand how Leon's speed managed to increase within a matter of seconds.
