

# The Ex-Husband's Revenge By Dragonsky

Chapter 2352

## Chapter 2352

"Apostles, calm down! Leon's far too powerful and swift. He can't be defeated in a one-on-one fight, so you need to join forces to avoid getting targeted one by one!" The Southern Boss shouted.

"Oh," The Apostles sobered.

The Southern Boss was right as Leon appeared to be in the Intermediate Almighty State; on top of that, Leon possessed countless tricks including the Phantom Steps, so no one in the same power level could defeat him.

If the Apostles acted recklessly and attacked without a plan, Leon might just target each one of them consecutively.

"Also, that defensive tool has been used multiple times and should be useless by now. Just work together and stall him. Once I get rid of Arthur Thompson, I'll kill him and avenge the Grand Apostle!" The Southern Boss commanded.

Treasures often had limits to how many times they could be used and Leon already used his defensive tools multiple times to survive attacks.

If he was correct, Leon should be running out of time to use his defensive tool, and with it, Leon could achieve something with speed alone.

The three Apostles were all in the Intermediate Almighty State and though they might not be able to kill Leon, they could stall him with ease.

So long as the Southern Boss and Devon succeeded in eliminating Arthur, the Southern Boss would be able to join forces with the three Apostles and kill Leon.

"Yes, sir!" The Second Apostle immediately regained his composure. Instead of facing Leon head-on, he darted away from Leon's attack swiftly and regrouped with the Third and Fourth Apostles.

"Guys, let's focus on taking Leon down! Let's see how many times that defensive tool can protect him! Take this!" The Second Apostle launched the Thundering Strike at Leon.

"Die!" The Third and Fourth Apostles joined the Second Apostle, their actual energy merging to form an even more powerful attack.

"Damn it!" Leon jolted in shock.

Though the Mirror of Sovereign was powerful and could be used multiple times unlike what the Southern Boss predicted, the remaining Apostles were far too powerful and their combined attack exceeded the strength of the Intermediate Almighty State, which meant that it could tear through the defense of the Mirror of Sovereign.

Not daring to take the blow directly, Leon executed the Phantom Steps to dodge the attack.
