Married at First Sight Chapter 2288-Zachary grabbed his wife's shoulders, leaned her against him, and said flatteringly: "Wife, in two days, let's go on vacation, okay? Just the two of us."

"Where are you going on vacation?" Serenity's attention was successfully drawn away.

Zachary: "It's still in Wiltspoon, but it's just going to another house under my name, which you haven't been to yet."

Serenity: "Don't wait for the wedding to go on vacation? You can't go out for your honeymoon. You can take a walk in Wiltspoon, travel by car, and use it as a honeymoon vacation."

Zachary believed that they could be together once their wedding anniversary was over, but he later clarified that the meaning was different, he said: "Let's go there for two days, and then go on a self-driving tour after the wedding. I have a month of marriage leave."

Serenity: "I can imagine how angry Josh is."

Zachary: "...When he was newly married, I gave him two months of marriage leave. I only took one month of marriage leave when I got married. Why is he so angry?"

Serenity smiled, "Okay, you can arrange it."

She also thought that Zachary wanted to take her away from everyone and spend their wedding anniversary quietly.

He said to prepare her a wedding anniversary gift.

He didn't know what gift to prepare?

She also prepared a gift for him.

Jasmine said that men, like women, needed to be coaxed from time to time and prepared surprises for them.

Anyway, Josh was eaten to death by Jasmine.

Elisa said that both partners were good at controlling husbands, and she wanted to learn how to control husband from the two partners.

Serenity laughed at her, she didn't need to control her husband at all.

Also the Johnson family was a wife slave. The Johnson family had such a tradition that men liked to spoil their wives.

"You remember to bring back Young Master Bucham."

Serenity was worried about her own man.

Zachary said with a smile, "Yes, I almost forgot to reply to him."

As he spoke, he quickly replied Julian with a word, "Okay."

After Julian received his reply, he sent a voice message.

Zachary clicked on the voice message, and Julian said: "Young Master York, I'm going to take my friends to Wildridge Manor to play for a day. I promise it won't affect your family, is that okay?"

There are also twelve children. The children are all a few years old, but they are very sensible, very obedient, and will not cause damage."

Zachary replied directly to Julian: "Yes, you can go there whenever you want, I will tell the butler, and the butler will make arrangements for you when you go over."

Julian also let Kiera listen to Zachary's reply.

After listening to it, Kiera said: "Young Master York's words are really nice."

Julian: "...We mature men all have similar voices."

Kiera smiled and said, "That's right, Mr. Bucham, your voice is also nice."

Julian: "Are you voice control?"

"I am voice control, face control, martial arts control, and the most important thing is martial arts. If there is someone who is better than me in martial arts, I will respect him, worship him, and regard him as an idol."

Julian breathed a sigh of relief.

He thought that his skill was better than Kiera's. Of course, he would not let her know now and give her a surprise in the future.
