Chapter 2388

"Oh, alright, then."

Seeing the determination in Leon's eyes, Arthur gave up.

"Great! Thank you, Mister Wolf!"

The Spears were all overjoyed and bowed at Leon gratefully; they were all surprised and grateful that Leon did not listen to Arthur and instead let them go.

"Alright, you may all go! Remember my words. If any of you cause any trouble, I won't show you any mercy!" Leon said sternly.

"Yes, yes. We'll remember that." The Spears mumbled, before standing up to leave.

Once the Spears left, Henry and Chandler brought the three Guardians and the other guards over to Leon and kicked them at the back of their knees.

The three Guardians and the other guards grunted in pain and kneeled before Leon.

The other Spears only followed the Southern Boss for fame and money, so Leon did not mind letting them go; however, the people before him were different.

Like the Four Apostles, the men before him were the most trusted and loyal subordinates of the Southern Boss. They worked hard to protect Rodney until the very end and with some of them injured or dead, the three Guardians were the last few who were still standing.

"Mister Wolf, what should we do with them?" Henry and Chandler asked.

"Destroy their power and throw them out!" Leon commanded coldly.

"Yes, sir!"

Following his order, Henry and Chandler immediately struck the men in their Energy Sea Point.

"Ugh!" The three Guardians wailed and collapsed onto the ground.

Henry, Chandler, and the Thompsons then dragged the three Guardians and the others out.

Instantly, Leon was left with the women in his household, the Thompsons, along with Rodney and Joel.

"Mister Wolf, Joel, and Rodney were the people who killed Yonas! I beg of you to leave them to me!" Arthur asked, before turning to glare daggers at Joel and Rodney.

"Sure!" Leon nodded and stepped back to let Arthur and August take over.

"Rodney, Joel, you two will pay with your lives! I shall avenge Yonas!" Arthur said, before raising his arm to kill Rodney and Joel without hesitation.
