

The Ex-Husband's Revenge By Dragonsky

Chapter 2396

Chapter 2396

"Hades, the Demon Lord was killed by Leon," The Southern Boss said, before explaining everything that happened earlier.

"What?! He did?!" Hades was utterly stunned.

He had a brief exchange with Leon when Leon sent poisonous daggers flying at him.

Though he did not know the extent of Leon's power, he reached a conclusion that Leon was at the Almighty State based on the energy he sensed from the daggers.

The Demon Lord was close to reaching the Peak Almighty State and it seemed impossible for someone like Leon to defeat him.

Instantly, Hades was frozen in shock.

"That brat had a really powerful Potential Energy Force that was at least in the Semi-Saint State. He used that to injure me and kill the Demon Lord," The Southern Boss explained.

Upon recalling the fearful Potential Energy Force Leon wielded, he could not help but cower slightly in fear.

"A Powerful Potential Energy Force in the Semi-Saint State? I see!" Hades' expression darkened.

In terms of power level, after the Peak Almighty State came the Semi-Saint State, then the Saint State. However, the Saint State was almost a legend, even in the central region where there were only a few martial artists in the Semi-Saint state.

If Leon indeed possessed a Potential Energy Force in the Semi-Saint State, he could practically rule Sky Country without much resistance.

Instantly, Hades understood why Leon managed to easily eliminate the Demon Lord; even Hades himself, who was at the Peak Almighty State, would be powerless before the Potential Energy Force Leon possessed.

"What a kid! I didn't expect him to have a Potential Energy Force in the Semi -Saint State! I underestimated him!" Hades gasped in fear.

When Leon attacked him with the poisonous daggers, he sent them right back at Leon and Leon managed to dodge them.

Hades assumed that Leon got lucky at the time and was in such a hurry to leave that he decided to let Leon live. However, upon learning that Leon possessed a Potential Energy Force in the Semi-Saint State, he felt relieved that he left in time, or he might have been killed by the Potential Energy Force as well.

"That's right! That kid isn't normal. I don't even know where he got a Potential Energy Force in the Semi-Saint State!" The Southern Boss gritted out.

"Maybe he got lucky and obtained a treasure in the Semi-Saint State!" Hades guessed.

As the man who ranked second on the criminal list, Hades saw a lot and knew that a few treasures in the Semi-Saint State surfaced in Sky County over the past few decades. Some fell in the hands of a few powerful families, while others were unaccounted for.

With Leon's young age, Hades concluded that Leon could not possibly have reached the Semi-Saint State and that Leon had likely obtained a powerful weapon that enabled him to wield such a powerful Potential Energy Force.
