

Married At First Sight Chapter 2820-The secretary was speechless.

He really didn't expect that Hayden was actually a woman.

There was also an explosion in the company, but no one dared to ask Hayden.

Those who openly and secretly loved Hayden were even more crushed because they fell in love with a woman.

No wonder Hayden never accepted girls' feelings and never provoked women. It turned out that he was a girl.

Kevin could take down Hayden, and now the secretary can figure it out.

Kevin didn't care what others thought. Hayden admitted that she was a woman, which was a good thing for him.

After seeing Hugh off, Kevin walked to Hayden's desk and sat down, his eyes locked on her beautiful features.

Hayden: "Why are you looking at me like this? Hugh is under your control."

"Hayden, I love you so much. He came to your door on his own initiative for me to handle. Who asked him to say those words in front of you? If he hadn't been your brother, I would have torn his mouth out long ago and dared to instigate you to leave. Was it easy for me to chase you?"

At the beginning of the year, Grandma May gave him Hayden's photo.

It's almost the new year now.

Although he moved a little slowly, he still chased her for more than half a year.

For a man with such good conditions, it took him more than half a year to chase a woman. Kevin felt that chasing a wife was not easy.

Hayden spoke for her brother: "Hugh didn't mean it. He actually admires you. He knew that you frightened him after hearing what he said."

Thinking of the way Hugh tried so hard to please him just now, Kevin couldn't help but laugh. After laughing, he said, "If he doesn't tell me, I don't know so

many of his opinions about me. It seems that I'm not good enough for him. He is right. He is my only brother-in-law. I want to be nice to him and please him."

Hayden laughed and said, "If you go to please him, he will feel uncomfortable, and he is even more afraid that you are holding back your big move to deal with him. Don't worry about what he says; just know that he has no ill intentions. Besides, he will have no control over my affairs. As long as I love you, not even my parents can care about you, let alone Hugh."

Kevin smiled. "Uncle and Auntie are looking forward to us getting married soon. Hayden, is it okay? I asked my parents to come over to propose marriage to your parents. If there is a good time, we will have a wedding before the year. If you're not in a hurry, you can get your marriage certificate before the year or get engaged first and hold the wedding after the year."

My second brother and second sister-in-law also got their marriage certificates first and haven't held the wedding yet. How about we get the certificate first and see if the date is suitable? We can hold the wedding with them. Let's hold the wedding alone. I don't want anyone to steal our spotlight."

Kevin is concerned that his second brother will take away his spotlight if there are two couples attending the wedding. Everyone's focus will also be divided into two. It's better to have separate weddings.

Hayden: "It's the end of the year, and the company is also very busy. I'm afraid I won't be able to do anything else."

After a pause, she said, "We can get engaged a year ago and get married next year. You just told Hugh to let him take over Queen's. I also let him go and let him take care of the company alone. It's no problem, and I can free up my time to get married."

Otherwise, it would be really difficult for her to make time for the wedding.

After the wedding, they had to go on a honeymoon.
