

The Ex-Husband's Revenge By Dragonsky

Chapter 1920

Chapter 1920

"Seth, what's going on? Why are you so badly injured?!" Joel was stunned by the sight before him.

"Cousin, Leon broke my legs and destroyed my power. You have to make this right for me," Seth cried in agony as he explained the situation.

"What?!" Joel was utterly shocked.

He thought that his plan for Seth to capture Iris was perfect and did not expect Leon to track Iris down so soon after she was captured.

He knew that Leon was in the Peak Overlord State at best, whereas there were countless powerful martial artists among the Golans, with a few who reached the Semi-Almighty State.

With such force, it would be easy to crush Leon.

However, Leon managed to rescue Iris and destroy Seth's power under the eyes of all the martial artists in the Golans.

It was so surreal that he could not begin to fathom how it happened.

"Apart from the defensive tool, Leon has another Almighty Weapon,' Seth explained when he saw the confusion on Joel's face.

"I see! I didn't even expect him to own other treasure! We've all underestimated him!' Joel said enviously at the realization that Leon was lucky enough to have so many treasures.

"Grandpa and the others were close to capturing Leon, but Roanne Thompson arrived in time to rescue him," Seth said resentfully.

"Roanne Thompson? The Thompsons again? How dare they?!" Joel slammed his palms against the table.

Due to what happened to Elegante Group, Yuri injured Joel and forced him to make a public apology to Elegante Group on behalf of Hiltons Corporation.

Not long after that, Leon barged into the Golans Mansion on his own and was about to be eliminated, when Roanne got in the way.

At that very moment, Joel's rage and resentment toward the Thompsons reached their peak.

"Joel, Leon destroyed my power. You have to avenge me!" Seth pleaded.

"Don't worry! I heard that Angel's Fruit can help martial artists recover from any damage to their Energy Sea Point. I will try to find you one to see if you can recover your power. As for Leon, I will never spare him for injuring you to this point," Joel consoled him.

"Good!" Seth's spirit was instantly lifted when he learned that he could recover his power, but his hatred toward Leon remained.

"Mister Hilton, Leon is just a nobody, but it's troubling that he has that Thompsons backing him up! I would like to ask for the Hiltons' help to stall the Thompsons. That way, the Golans will be able to focus on hunting Leon down to avenge Seth!" Eliam proposed.
