

The Ex-Husband's Revenge By Dragonsky

Chapter 1950

Chapter 1950

"Yes, I'm certain! When you helped treat my sister, you once wasted a thousand-year Ganoderma. My father was planning on getting one to give back to you, but we only managed to find one that was around eight hundred years old," Yuri explained.

When Leon treated Roanne's illness, Angus wanted to repay Leon with a large chest, but Leon refused to accept it.

Angus was not very happy with that, so he planned on getting a thousand- year Ganoderma to repay Leon for Leon's loss!

However, thousand-year Ganodermas were just too rare.

After Angus looked around, he only managed to get one that was around eight hundred years old!

Since it was not that old, Angus was in no hurry to give it to Leon.

"That's amazing! It looks like it's still not time for Mister Hughes yet. Even the heavens are helping him!" Leon was very happy to hear that.

The older a Ganoderma, the better its effects!

With that eight hundred-year Ganoderma, he had at least an eighty to ninety percent chance of saving Darius!

Of course, he was not the only one who was happy about it. Iris and Snow were too!

Snow in particular was so worried that she would end up dragging Leon down!

Yet, after finding out that the Thompsons had what they needed, she laughed happily, feeling incredibly relieved!

"Mister Thompson, we have to start as soon as we can! I'm preparing to go over to the Scammells right now. Please hurry and have someone send the Ganoderma over! The sooner the better!" Leon said.

The Ganoderma was the main material needed to cure the poison. It needed to work with some other valuable supporting materials so the effects would be at their best!

Other than the Ganoderma, the Scammells had everything else!

So, he asked Yuri to send the Ganoderma over, so they would not waste any valuable time!

"Yes, alright. I'll give my father a call right now, and have him send the Ganoderma over!" Yuri said.

After that, he took out his phone and gave Angus a call, explaining the situation briefly.

After that, since time was of the essence, Leon, Iris, and Snow hurried into their car and left the place, driving straight for the Scammells.

Yuri was a good friend of Darius's and was worried about Darius's situation. So, Yuri brought his men over as well.

With the Scammells, Damian already prepared all the materials by the time Leon arrived.

In just a moment, an expert from the Thompsons brought the eight-hundred -year Ganoderma over on Angus' orders, giving it to Leon.

Right after that, Leon started to make the medicine. Using the Ganoderma and the other materials, he quickly managed to craft an antidote!

With that, everything was ready!

In the room, Darius's eyes were shut as he lay on the bed. He was not making any sound or moving at all.

At that moment, Leon had the medicine in hand as he walked in with Iris and the others.

In front of the bed, Leon motioned for Yuri to help the unconscious Darius up.

After that, he hit a few of the pressure points around Darius's throat and slowly started to feed Darius the medicine.
