

The Ex-Husband's Revenge By Dragonsky

Chapter 1951

Chapter 1951

After Darius finished drinking the medicine, Leon started to channel his energy into his fingers, using the Six Points of Fate as he hit the most important pressure points around Darius's chest.

The Six Points of Fate could change destiny!

Darius already stopped breathing at that point. His pulse was also so weak that it was imperceptible.

Fortunately, Leon already helped him to seal off his heart before this, and the Deadly Veratrum Poison never managed to reach Darius's heart.

That was what kept Darius alive!

After that, Leon took out the Spiritual Pearl and activated its power.

The Spiritual Pearl floated in the air, gently floating on top of Darius's head.

The Six Points of Fate was an amazing technique from ancient times, and it had the effect of bringing the dead back to life.

Then, the Spiritual Pearl had unending spiritual energy that would stop Leon from running out of energy!

The two things supported each other perfectly!

Just like that, Leon absorbed the spiritual energy from the spiritual as he channeled the energy to his fingers, sending the spiritual energy right into Darius's body through his fingers, triggering Darius's body!

After a long time, as time slowly passed, the Six Points of Fate managed to stir Darius's heart.

His faint pulse quickly started to return to normal.

"Thank god!"

Feeling Darius's pulse, Leon could not help but let out a sigh of relief.

After that, he pulled back.

"Mister Wolf, how is Darius right now?" Yuri asked with concern when he saw that Leon stopped.

"Oh, Darius has regained his pulse and his vitality! After that, I just need to get rid of the poison in his body, and he'll be safe," Leon explained briefly.

The Six Points of Fate could stir a person's vitality and could bring the dead back to life, but it was not something that could cure poison!

Using the Six Points of Fate to restore Darius's vitality was just half of the work!

"Really? That's great! Darius looks like he's regained his pulse and breathing!" Yuri placed his hand on Darius's chest, and he looked very happy when he felt Darius's pulse!

Darius regained his breathing at some point as well. Even though it was weak and still a bit unstable, it was enough to prove that Leon brought Darius back from the dead!

It was an absolute miracle!

After that, Leon struck while the iron was hot as he summoned up his true energy to his fingers again. He started to use Ghost Point, and slowly struck the pressure points around Darius's liver and lungs.

The Ghost Points had the effect of suppressing and expelling foreign substances. They were amazing for curing poison!

On top of that, Darius already took the antidote made from the eight-hundred-year Ganoderma. With the two helping one another, Leon was sure that the poison in Darius's body would be expelled!

After some amount of time, Leon managed to use the Ghost Points to slowly expel most of the poison through the Expulsion Point.

As for the remaining poison in Darius's body, it was all dissolved by the medicine!

On the surface, it looked like everything was going very smoothly.

However, at the most vital point of the treatment, something happened!
