Chapter 2440

Chapter 2440

"Leon, what's wrong? Are you going to the western region?" Iris and the others asked after Leon ended the call.

"Yeah. Mister Morrison has prepared the herbs so I'm going to the western region tomorrow to expand the market for Cynthion Group and Elegante Group," Leon explained and briefly mentioned his plan to expand his business.

"I see!" Realization dawned on the women.

Since Cynthion Group and Elegante Group made considerable progress in the southern region, the next step for them would be to expand to other regions, which would benefit their future.

"Leon, why don't I go with you tomorrow? Setting a branch isn't easy, so it's too much for you to do on your own. I'll go with you and lift some of your burden," Iris said.

"Me, too. I want to go with you as well," Cynthia chimed in.

Iris was the president of the Elegante Group, and she was the person in charge of the Cynthion Group. If Leon wanted to set up branches for Cynthion Group and Elegante Group in the western region, it would be best for him to bring them along.

With their management abilities, Leon would be more at ease with their help.

"No! We don't know anything about the western region. I'm going there to make pills and look around. Once I'm done with that and have a general understanding about the place, you can all go," Leon said.

He was heading the western region to understand the power dynamic there. If possible, he wanted to use the same strategy and acquire a cosmetic company and a pharmaceutical firm there. That would save them a lot of time when they eventually start branches for the Elegante Group and Cynthion Group there.

Once he understood the situation in the western region, it would be safer for Iris and the others to be there.

"That may be true, but if you're going to the western region, isn't it better to have us around to give you advice?" Iris and Cynthia suggested.

"No way! Iris, Cynthia, you probably don't know this, but I've been informed that the Southern Boss has likely fled to the western region. If you two follow me there and the Southern Boss finds out about this, he might try to harm you." Leon shook his head and turned them down once again.

He knew that Iris and Cynthia would be of great help if he wanted to expand his business to the western region. However, he couldn't jeopardize their safety.

Considering the grievances between him and the Southern Boss, once the Southern Boss found out about their trip, he would do everything in his power to retaliate.

The Southern Boss knew that he could not defeat Leon, so he would likely hard or capture Iris and Cynthia to blackmail Leon into setting Rodney free. That would undoubtedly put them in danger.
