

The Ex-Husband's Revenge By Dragonsky

Chapter 2026

Chapter 2026

"I'm so sorry, Mister Wolf. This is our fault for letting the Poisonwielder escape! I am so ashamed," Fletcher sighed guiltily.

The others from the western region had guilt written all over their faces as well.

They all knew that they would have been immune to the Reaper's Breath if they accepted the Essential Detox Pills Leon offered to them.

If the Dragon Guards from both the western and southern regions joined forces, it would have been easy for them to eliminate the Poisonwielder before he had the chance of escaping.

However, due to their mistake, they allowed the Poisonwielder to escape and came close to facing a brutal massacre.

Leon managed to injure the Poisonwielder at the very last moment and succeeded in scaring the Poisonwielder off, and if he did not do so, all the Dragon Guards sent on the mission of eliminating the Poisonwielder would have been killed.

Instantly, their hearts were heavy with shame and guilt.

"It's alright, Fletcher! The Poisonwielder can't be far. You shouldn't feel guilty! Since your subordinates are all poisoned, you should all take the Essential Detox Pills now and see if you can expel the poison!" Leon smiled, before handing dozens of Essential Detox Pills to Fletcher.

Apart from them, the elders from the Tiddertons were poisoned as well, so Leon went ahead and handed them a few pills as well.

Fletcher and Randall distributed the Essential Detox Pills to the others and they all swallowed one pill each.

Though the Essential Detox Pills could suppress the Reaper's Breath, it was not the precise antidote for it.

Since Fletcher and the Dragon Guards from the western region were already poisoned and were left untreated for a while, the poison spread within them and even if they took the Essential Detox Pills at this point, they would be required to rest for a while before they could expel the poison from their bodies.

Leon, Scott, and the others, on the other hand, took the Essential Detox Pills in time and managed to expel the poison with their true energy swiftly. • • •

After treating everyone, Scott stepped toward Leon. "Mister Wolf, the Poisonwielder has escaped. What should we do now?" He asked.

Scott, Chad, and Jerry were originally upset with Alfred's decision in making Leon their leader, but after witnessing what Leon was capable of, the three of them had nothing but respect for him.

"The Poisonwielder has been severely injured, so he can't be far! We will go after him now and get rid of him once and for all!" Leon commanded.

"What?!" Fletcher, Scott, and the others froze in shock.

The mission failed the moment the Poisonwielder escaped, and they all gave up on eliminating the Poisonwielder.

To their bewilderment, Leon did not give up.

"Mister Wolf, my team needs some rest after being poisoned, so we won't be capable of assisting you with tracking and ambushing the Poisonwielder, " Fletcher said hesitantly.
