

The Ex-Husband's Revenge By Dragonsky

Chapter 2049

Chapter 2049

"Iris, how's your condition?" Leon asked Iris, Cynthia, and Snow.

"Leon, this Motherwort Pill is amazing! The three of us are already at the Semi-Overlord State, but we still have a lot of true energy we haven't absorbed."

Iris and the others were incredibly excited.

Iris in particular was very much so. Leon's pills from before were very amazing, but they helped her make one breakthrough at most.

Yet, the Motherwort Pill helped her breakthrough three times!

It was a miracle!

It was obvious how excited she was!

Of course, she did not know that the Motherwort Pills were only so effective because she was so weak. That was how she easily made breakthroughs!

Otherwise, if it was an Almighty State martial artist, being even able to make a single breakthrough would be down to luck!

"Yes, it's the same for me! These are some Advanced Pure Energy Pills. Please take them first. Once you reach the Overlord State, continue absorbing the Motherwort Pill's energy," Leon said with a smile.

He never expected the Motherwort Pills and the Sun Pills to be so effective!

Right after that, he took out a few Pure Energy Pills and gave them to Iris and the others!

All of them were already at the Semi-Overlord State at that moment, and the Advanced Pure Energy Pills could help someone at the Semi-Overlord

State get to the Overlord State!

Once they managed to get to the Overlord State, they could continue absorbing the power in their body.

It would be much more effective!

After that, with the help of the Advanced Pure Energy Pills, the four of them made it to the Overlord State!

In the end, Iris absorbed all the true energy in her body and managed to get to the intermediate Overlord State!

Meanwhile, Cynthia and Snow both managed to get to the advanced Overlord State!

As for Leon, he planned on continuing to absorb the energy in his body after reaching the intermediate Overlord State, wanting to break into the advanced Overlord State!

However, he suddenly felt his sage arts starting to rise and show signs of a breakthrough!

So, he immediately forgot about the Overlord State and started to train with his sage arts, using the power in his body to attack the bottleneck!

Boom!

Those who worked hard were rewarded. After all of Leon's hard work, his sage arts finally got to the peak Foundation Phase!

"This is great! I've finally made a breakthrough in my sage arts!" Leon was incredibly excited.

If he did not train, he would have started to laugh maniacally into the air!

He already reached the advanced Foundation Phase a while ago, and he was just a hair away from the peak Foundation Phase!

However, since he lacked a certain form of understanding, he failed to make a breakthrough!

Yet, with the help of the Sun Pill, his sage arts finally managed to reach the peak Foundation Phase!

That was not all, he already had the Five Spirits Pill ready for use at any moment!

With him already at the peak Foundation Phase, he could use the Five Spirits Pill to reach the Golden Phase!

The Golden Phase's power was equal to someone at the intermediate Emperor State! 1

With the Dragon Pills and the Mirror of Sovereign, he would be able to deal with anyone below the intermediate Almighty State easily!

That way, he had one more way to protect himself, and he was much more assured of the safety of Iris and the others!

At that moment, it was obvious how shocked and excited he was!
