Chapter 2067

Chapter 2067

"Mister Morrison, why did you travel so far away for Cynthion Group's sales drive? Do you have any pointers?" Leon could not help but ask curiously when he heard of who Hugo was. He could not understand why the man was there.

"I wouldn't dare to give you any pointers! I've heard about the pills from Cynthion Group before. I heard that they could help in a martial artist's training and help improve their power! I purposely came over to the sales drive to expand my horizons! In the end, I was greatly disappointed!" Hugo shook his head, and he looked disappointed.

Ever since Cynthion Group's first sales drive, the reputation of their pills spread to the whole southern region!

It was very easy for information to leak from the southern region to the western region!

So, the Morrisons and a few of the other major families from the western region heard of the matter!

However, they could not say if the pills were real or not!

Three days ago, Cynthion Group let out the news that they were prepared to organize another sales drive. It quickly caused quite a stir in the southern region, and it alerted the Morrisons as well!

So, the Morrisons deliberately sent Hugo over to join the sales drive, wanting to see if the pills were real or not!

However, the results greatly disappointed Hugo!

"Disappointed? Mister Morrison, could you tell me why you say that?" Leon asked with some confusion.

"It's very simple. The path of a martial artist is all about stability. There are no shortcuts to take! However, You're telling us with such confidence that these Pure Energy Pills can guarantee that a martial artist at the Semi Emperor State can get to the Emperor State?! Isn't that too much of a brag?! Do you think that we're all idiots here?!" Hugo said with a sneer.

If Cynthion Group said that their pills would be able to help martial artists in their training and improve their power, he might have believed it!

However, when he was walking in, he heard Leon promise that the Supreme Pure Energy Pills could help Semi Emperor State martial artists immediately get to the Emperor State and that it would greatly help those at the Emperor State as well!

What could it be but a brag?!

He was the heir of the Morrisons and one of the Thirteen Greats. He was already at the intermediate Emperor State!

With his amazing talents, he knew very well how much effort and hard work needed to be spent to get to the Emperor State!

So, from that, he knew very well how hard the hurdle of getting to the Emperor State was for martial artists!

If Cynthion Group's pills were able to help martial artists get to the Emperor State so easily, it would just be unbelievable!

He could not believe that there would be pills with such miraculous effects!

"Mister Morrison, thank you for coming over to our sales drive from the western region! I can assure you, I'm not bragging. Everything I say is true! Our Supreme Energy Pills can help martial artists at the Semi Emperor State get to the Emperor State without any failure!" Leon said seriously.

If anyone else were questioning the effects of his Supreme Pure Energy Pills, he might not have bothered with them.

However, Hugo came over from the western region, so his intentions had to be sincere.

So, he patiently explained everything.
