

# The Ex-Husband's Revenge By Dragonsky

Chapter 2086

Chapter 2086

"Peak Emperor State?" "Hey, it turns out the ring Mister Spears is wearing is truly an Almighty Weapon after all, and one of the Peak Emperor State, no less!"

The audience gasped when they sensed the surge of energy from Rodney's finger and erupted into a flurry of activity.

Although Leon already accused Rodney of owning an Almighty Weapon before this, everyone took it with a grain of salt, considering that Leon had no concrete evidence. They were not sure whether Leon was telling the truth or whether he was just salty and trying to find excuses for Roanne's defeat!

Now, they all finally understood that Leon told the truth all along; Rodney managed to triumph over Roanne because he cheated by using an Almighty Weapon!

This was not a problem with Cynthion Group's alchemical pills after all; it turned out Rodney was just trying to frame and slander them!

Not only that but if Leon did not expose the truth, the consumers would have fallen victim to the Southern Boss and Rodney's scheme!

One could only imagine their rage at this realization!

"Rats! That Rodney Spears is a snake! This is outrageous!"

Angus and Yuri were outraged at this discovery but now was not the time to express their anger.

Leon was so arrogant as to counter Rodney's attack with just one finger and fell victim, to no surprise, but now, Rodney chose to follow up with another attack that would prove to be fatal!

Since Leon was only at the Intermediate Emperor State, there was no way he could defend himself against Rodney's attack, and if things went accordingly to Rodney's plan, there was no way Leon could survive this!

Angus wanted nothing more than to rescue Leon right then and there, but he was too far away from the stage that it was too late now.

"Thud!"

With a deafening bang, Rodney's attack slammed right into Leon's body.

However, Leon remained calm during this moment of urgency and managed to angle his body around so that the Mirror of Sovereign that was strapped to his chest could take the hit instead!

Unfortunately, since he was yet to get onto his feet from Rodney's first attack, although he managed to let the Mirror of Sovereign take the hit, he inevitably took the brunt of the impact and was propelled backward!

"Oh no! There's no way Mister Wolf can survive this now!"

Angus and Yuri's faces were ashen at this.

They were not the only ones in dismay about this; the rest of the descendants of the major families were equally as stunned.

They all witnessed Rodney's attack striking Leon in the chest with their own two eyes, and were certain that there was no way Leon could make it out alive!

They all began to feel remorse at this, and could not help lamenting about the pity; Leon was certainly a talented young man with great potential in his future, but unfortunately, fell victim to Rodney's cruelty!

"Splendid, splendid! We've finally managed to get rid of him! " the Southern Boss, on the other hand, was overjoyed at this and felt the sudden urge to laugh.

Leon was their enemy for quite some time now, and the Spears longed to see him perish. As luck would have it, Rodney successfully defeated him once and for all!

One could only imagine his and Rodney's excitement over this victory!

However, what happened next shocked them to the core!
