Chapter 2093

Chapter 2093

Meanwhile, on Leon's end.

The sales drive resumed after the Southern Boss and Devon had left.

"Mister Wolf, please start selling the pills!" The others urged.

After the duel between Leon and Rodney, they had already learned the truth and knew that Roanne had only been defeated because of Rodney's weapon. Hence, the power of the Supreme Pure Energy Pills and Cleansing Pills was as great as Cynthion Group claimed and succeeded in helping Roanne breakthrough the bottleneck in her training.

The Cleansing Pills had the effect of cleansing the internal circulation of younger individuals and enhancing their flexibility.

All direct descendants of powerful families, including Yuri and Darius, were all waiting in anticipation for the pills to be sold.

"Alright! Allow me to brief you on the price and stock situation for each type of pill. There are a total of four Cleansing Pills. The price will be fourteen million for each pill, and each family is limited to purchasing one pill only. As for the Supreme Pure Energy Pills, there are-

The others interrupted him before he could finish.

"What?!"

"There are only four Cleansing Pills?!"

"Why are there so few?!"

Everyone was shocked.

Since the Cleansing Pills' effect was simply miraculous and worked best on the younger generation of martial artists, all direct descendants of influential families, like Yuri and Darius, had all set their sights on the Cleansing Pills.

To their bewilderment, there were only four Cleansing Pills. That was hardly enough for everyone.

"Mister Wolf, the Thompsons will take all four of them!" A young man stepped forward from behind Yuri and said loudly.

Leon looked up and saw Yuri's cousin, Yonas. He met Yonas once when he rescued Roanne from Asmodeus in the past and recognized him right away.

"I'm sorry, Mister Yonas, but each family can only buy one Cleansing Pill..." Leon said hesitantly.

Since there was a limited number of Cleansing Pills, he had made it clear that each family was limited to purchasing only one pill. Leon repeated himself again in case Yonas did not hear him.

"Even for the Thompsons? That won't do!" Yonas scowled in displeasure.

As a direct descendent of the second bloodline, he wanted a Cleansing Pill just like Yuri and Darius. However, he knew that Yuri was the brightest among all the younger members of the Thompsons. If the Thompsons could only purchase one Cleansing Pill, it would end up in Yuri's possession. Hence, he wished to obtain a few Cleansing Pills.

On top of that, Leon was close with the Thompsons and was helped by them on multiple occasions.

Yonas assumed that Leon would agree to his request out of respect for the Thompsons. He was shocked that Leon had turned him down.
