

# The Ex-Husband's Revenge By Dragonsky

Chapter 2099

Chapter 2099

"I didn't expect the Sun Pills to be so powerful!"

Patrick and Damian were utterly stunned.

Patrick had reached the Intermediate Emperor State. If the Sun Pills could increase his power level by two, he would reach the Peak Emperor State. Combined with the

Thousand Gods Method that Leon had given the Scammells along with all the alchemical pills he offered, the Scammells would make a great leap of strength and become even more influential. That was Patrick's life-long dream.

His heart was instantly filled with joy and excitement.

"This is great! Leon, I don't even know how to thank you for giving something so valuable to us..." He snapped out of it and thanked Leon sincerely.

"You are overreacting, Elder Scammell. This is nothing," Leon said with a smile.

"Yeah! Grandpa, we are all family, so you don't have to be so polite with Leon..." Iris agreed along with a smile.

"Yeah, you are right! Iris, you have found yourself a great man!" Patrick laughed, feeling conflicted.

He had looked down on Leon for some time when Iris first brought him to the Scammells, thinking that Leon was hardly a man worthy of Iris' love. However, Leon soon proved himself to be a brilliant man and a powerful martial artist who managed to defeat Rodney, one of the brightest young martial artists in the southern region.

With Leon's help, the Scammells had rapidly grown in power. In just a few years, the Scammells would soon be amongst the ranks of the powerful families in the southern region.

All these were made possible with Leon's help, and Patrick was glad that he had not been foolish enough to break Iris and Leon up by force. Otherwise, he would have lost his granddaughter and let such a great opportunity slip by at the same time.

"Alright. It's getting late! Leon, Iris, we should leave now."

Patrick snapped out of it and bid his farewell before leaving with Damian and the Scammells.

"Leon, the sales drive is over! Let's look over the finance report and wrap things up!" Cynthia said.

"Uhm... Hang on! I have something else to take care of!" Leon said before turning his attention to Spencer, Mason and a few others. "Spencer! Mason! Come over here!"

"Yes!"

"Mister Wolf, what do you need?"

The group of five hurried over respectfully.

The group consisted of subordinates Leon transferred from Springfield City, which included Spencer, Stephen, Mason and two other young men: Austin and Leo.
