

The Ex-Husband's Revenge By Dragonsky

Chapter 2128

Chapter 2128

"Iris, don't worry! I'm going to be just fine!" Leon studied the worried looks on their faces and an idea formed in his head. He took the Cuff of Doom off his hand and handed it to Iris." Iris, this is an Almighty Weapon. I'm leaving it with you for safekeeping! I'm going to head off to help Henry with the guardians now!" Leon said.

He observed the fight instead of joining in out of concern that the guardians might take the opportunity to target the women. Without Leon's protection, he would be at a disadvantage if the guardians captured Iris and the others as hostages.

Suddenly, he recalled the Cuff of Doom.

The Cuff of Doom was a grade-two Almighty Weapon with the power of the Intermediate Almighty State.

Leon used to require half a month to accumulate a strike in the cuff, but ever since he reached the Golden Phase, his power accelerated and the speed of accumulating strikes within the cuff sped up; in the present, he would only need a week to accumulate a strike in the Intermediate Almighty State.

After making offerings in the past few days, the strike in the cuff accumulated to the point of the Initial Almighty State and once he left the Cuff of Doom with Iris and the others, he could focus on taking the guardians down with Henry's help.

"Um," Iris and the others exchanged confused looks.

They were all concerned about Leon's safety and felt that Leon was endangering himself further by leaving the weapon to them. However, what happened next shook them.

"We won't let you get away!" When the guardians spotted Leon, Iris, and the others whispering to one another, they were instantly alerted.

The Southern Boss sent them to eliminate Leon and capture Iris and Cynthia to take control over the Cynthion Group. If they allowed Leon and the women to escape, they would end up with nothing.

"Fifth Guardian, Sixth Guardian, leave this old man to me! Go ahead and destroy Leon Wolf, and capture Iris Young and Cynthia Shear! Don't let them run away!" The Third Guardian commanded decisively.

Since Henry was far too formidable to be defeated immediately, the Third Guardian decided to switch strategy by stalling Henry while the Fifth and Sixth Guardians went after Leon.

"Yes!" The Fifth and Sixth Guardians immediately charged Leon swiftly.

"How dare you?!" Henry jolted in shock.

After the earlier exchange, he discovered that both the Fifth and Sixth Guardians were in the Semi-Almighty State and since Leon was far too young to rival their strength, Henry could not stand idly by while the guardians attacked Leon.

He sent his true energy toward the Fifth and Sixth Guardians in an attempt to stop them and buy Leon more time to escape.
