

The Ex-Husband's Revenge By Dragonsky

Chapter 2140

Chapter 2140

"What? How could I do that?!"

Henry was shocked to hear that Leon planned on going after the Third Guardian alone.

Even though he already knew that Leon was quite skilled, Leon just exchanged blows with the Third Guardian and got injured!

That was something he witnessed!

Even though Leon was quicker than average, he estimated Leon's skills to be at the Semi Almighty State at most!

It was far below the Third Guardian!

Even if Leon managed to catch up to the Third Guardian, it would be useless. He would just be sending himself to die!

"There is nothing else to say about it! This is an order!" Leon said, not stopping at all.

Then, he activated Phantom Steps and quickly started to pursue the Third Guardian!

"But,"

Henry looked worried as he looked at Leon's disappearing back, but there was nothing he could do.

He was already Leon's subordinate. He did not dare to go against Leon's orders!

However, thinking about the Third Guardian's skill and cunning, he was worried that Leon would fall to the Third Guardian if he went alone!

Then, the results would be dire!

"Leon, there's no need to pursue him!"

"You should just come back!"

Iris and the others were very worried for Leon. They hurriedly shouted out to Leon.

Even though the Third Guardian was already injured, he was still someone at the Almighty State. His skills could not be underestimated!

If Leon rushed in alone without Henry, Leon might not be able to face him!

Rather than that, they would rather Leon return safely. They did not want Leon to be in danger!

It would do no good for Leon!

"Iris, don't worry! I'll be fine!" Leon's voice could be heard trailing away.

After that, he quickly started to pursue the Third Guardian. The two of them entered a small forest by the side of the road, quickly disappearing!

"Iris, what do we do now?"

Ruth, Cynthia, and Snow were worried when they saw that Leon was not listening. All of them looked at Iris, not knowing what to do.

"Oh, let's follow them!" Iris thought for a moment before making the decision.

She knew that Leon left Henry behind to protect them because he was worried for their safety.

If they went over with Henry, Henry would be able to help if Leon was in any danger!

Then, they would be safe, and they would be able to stop any accidents from happening.

It was the perfect solution!

After that, Iris, Cynthia, and the others followed quickly behind alongside Henry.

On the other end, there was a lush forest by the side of the road.

When the Third Guardian managed to get there, he felt a lot safer.

There were so many trees to obstruct sight, and the geography was very advantageous to him. It would be much easier for him to hide or flee!

However, before he could even be happy about it, something happened!

Right at that moment, Leon used Phantom Steps, quickly appearing behind him at an incredibly quick pace!

"Old dog, let's see where you can run!" Leon shouted coldly. He struck forward with imperious force at the Third Guardian!
