Chapter 2158

Chapter 2158

"But-"

Seeing Alfred reject his suggestion, Leon still did not want to give up. However, before he could say anything, he was interrupted by Alfred.

"There's nothing else to discuss! The matter is settled!" Alfred said in a firm voice, leaving no room for negotiation.

"Fine then," Leon opened his mouth and stopped there.

Alfred already made up his mind, so there was nothing much Leon could say.

Furthermore, Alfred planned on working with the eastern Dragon Corps experts to deal with Scarlet Thief. It was not a bad plan!

If the two Dragon Corps working together would be able to deal with Scarlet Thief, then it would be great!

Instead, if they failed to deal with Scarlet Thief, it would not be too late for him to do something after that!

Of course, if Scarlet Thief fled to any of the other regions, it would take a lot more time and effort to deal with the man!

He had no other choice in the matter!

"Mister Glasbey, it's getting late. If you don't have any other orders, I'll take my leave."

Leon made his leave after that.

Leon, Oliver, and Abraham then exited Alfred's office.

When they were outside, Leon did not forget to remind Oliver and Abraham to quietly release the news that Henry joined Cynthion Group!

Even though Alfred already decided to work with the eastern region's Dragon Corps, he still had a chance to lure Scarlet Thief out before they arrived, getting rid of the man!

Would that not be better?!

However, time was of the essence. It would be down to luck if the Scarlet Thief would fall for it in such a short time!

In the main courtyard, with the Spears, the Southern Boss and Rodney, as well as some of the core figures of the Spears were all gathered there waiting for news from the Third, Fifth, and Sixth Guardians!

The Southern Boss and Rodney sat in the middle, while the others sat to their right and left.

"What's going on? It's been so long, why haven't the three of them come back to report!"

The Southern Boss stood up impatiently when he found that the three of them were so incredibly late.

To deal with Leon, he deliberately left the Third, Fifth, and Sixth Guardians behind to assassinate Leon!

Yet, it was already getting dark, and there was no news at all!

He could not help but wonder if something happened!

"Dad, could something have happened to the three of them? " Rodney with a dark look on his face. His arm was in a sling at that moment.

During Cynthion Group's sales drive, Leon injured his arm!

However, he was a strong martial artist. His constitution was better than regular people, and the arm was not injured that heavily.

After some treatment, the injury already stabilized.

However, all of that only served to deepen his hatred for Leon, he wanted to tear Leon apart!

"Surely not! All three of them are incredibly strong. It would be incredibly easy for them to deal with that kid, Leon!

There's no way anything could happen to them!" A majestic- looking old man to the right shook his head and said.

That old man was the head of the Six Guardians, the Alpha Guardian.
