Chapter 2174

Chapter 2174

"I don't need any of that! I've already got my hands on the power methods belonging to the Ultimate Power class, and I've managed to ascend to the Almighty State all by myself! I don't need anyone to help me anymore!" Chandler finally turned Henry down once more.

"What? You've already got your hands on methods of the Ultimate Power Class? How can that be?" Henry was stunned to hear this. He was more than familiar with Chandler's situation. Chandler, like him, used to practice the powerful methods of the Advanced Power class.

This was why after robbing the power methods of the Ultimate Power class from them, the Scarlet Thief managed to overpower them so quickly and even killed all their loved ones so easily!

However, Henry could not understand how Chandler managed to ascend to the Ultimate Power class all by himself.

"Nothing's impossible! I spent years and years researching and finetuning the power methods until eventually, I broke through to the Ultimate Power class," Chandler replied.

The Semi-Almighty and Almighty States were eons apart in their training, and the Advanced Power class usually only correlated to the Semi-Almighty State. Even if one were already in the Advanced Power class, this did not translate to the ability to ascend to the Almighty State.

Because of this, Chandler were stuck in the Semi-Almighty State for a very long time, but at the thought of his loved ones'tragic deaths at the hands of the Scarlet Thief, he finally managed to break through to the Almighty State with sheer determination and hard work!

Besides that, after breaking through to a new power level in martial arts training, martial artists usually also possessed the newfound ability to ascend to another power class in their training methods. Therefore, after ascending to the Almighty State, Chandler was soon able to break through to the Ultimate Power class by developing new powerful methods of his own!

This could be done by intense modification of one's preexisting power method or even by developing new ones of their own!

Since he lived all by himself in the secluded countryside with no distractions, Chandler was able to pour all his time and effort into coming up with new power methods that brought him to the Ultimate Power class!

"I see!" Henry gasped in admiration when he understood this. He, like Chandler, also possessed excruciating vengeance toward the Scarlet Thief, but Chandler managed to hone this hatred into newfound capabilities, like breaking through to the Almighty State and developing new power methods all by himself!

He had to admit that Chandler was far more admirable than him in this sense!

"What a strong and determined man!" Leon could not help muttering in awe at this. He heard of outstanding martial artists accomplishing such impressive feats before, but this was his first time coming face-to-face with someone who did so!

Although one of Chandler's legs were crippled by the Scarlet Thief, he still managed to create miracles through sheer determination and hard work!

This was not something that any ordinary person could accomplish!

"Henry, let's just cut to the chase. I'll gladly welcome you if you've come to visit and catch up about old times, but if you're just trying to convince me to join this President Wolf of yours, I suggest you give up! I do not intend to ask anyone for help, so you'd better leave!" Chandler replied calmly.
