

The Ex-Husband's Revenge By Dragonsky

Chapter 2191

Chapter 2191

Upon sensing the attack from his back, Leon immediately turned around, but it was too late. He was unable to dodge or counter the attack. In the end, he could only receive the blow with his Mirror of Sovereign.

Following a deafening sound, the Scarlet Thief's attack slammed against Leon's chest, but Leon remained standing. Scarlet Thief had anticipated that.

His goal was to exhaust the charges of Leon's defensive tool so that Leon would be left defenseless. Hence, he was not disheartened by his inability to injure Leon.

"This is the second time! One last time!" The Scarlet Thief backed away to distance himself from Leon to prevent Leon from striking.

Leon had used his defensive tool once earlier and done so once more to take a direct blow from the Scarlet Thief.

Most treasures were restricted by how frequently they could be used, and most could only be used up to three times in one go.

The Scarlet Thief knew that there was a high chance that Leon's defensive tool could only be used one last time.

Since Leon was in the Semi-Almighty State, the Scarlet Thief was far superior in terms of speed and explosive power, which meant that it would be easy for the Scarlet Thief to exhaust the charges of Leon's defensive tool.

So long as he managed to break Leon's defense, he would be able to eliminate Leon, Henry, and Chandler with ease.

Just as the Scarlet Thief thought that he had everything planned, what happened next shook him to his core.

"It's too late for you to back away! Take this! Earthly Plunder! ' Leon scoffed and took a step forward when the Scarlet Thief backed away.

He swiftly caught up to the Scarlet Thief with Phantom Steps with incredible speed before gathering all his energy to the tip of his finger to launch the Earthly Plunder.

"What?! Impossible!" The Scarlet Thief was stunned.

He thought that Leon was inferior in terms of speed and explosive power, and that was the reason why he showed no fear toward Leon's defensive tool so far.

To his bewilderment, Leon's speed accelerated by a few folds. No matter where he went, Leon's attack followed him like his shadow.

As Leon closed the distance between them, the Scarlet Thief realized that it was impossible for him to get away.

Leon's speed had surpassed his and might have reached the level of the Advanced Almighty State.

It was so surreal that the Scarlet Thief could not believe what he was seeing.

Cornered by Leon's incredible speed, the Scarlet Thief launched a hasty counterattack in an attempt to nullify Leon's Earthly Plunder.
