

Chapter 790 Changes

Julie could no longer contain her emotions. She hurried towards Liam and threw herself into his embrace.

With tears filling his eyes, Liam welcomed her into his arms, tenderly stroking her hair.

In the past five years, Julie had undergone significant changes.

Perhaps due to becoming a mother, she exuded more grace and tenderness, a stark contrast to her former self.

In a soft voice, Liam said, "Julie, I'm late. You've endured so much during these years. I'm deeply sorry."

Upon hearing this, Julie couldn't hold back her tears.

She continued to punch Liam, sobbing as she said in a trembling voice, "You're finally back. Where have you been for the past five years? Do you know the hardships I've faced? I thought you were dead..."

Her words tugged at Liam's heart. He held her tightly, hoping to provide comfort as she cried.

Understanding Julie's emotions, Liam also missed her terribly while on Genesis Island, a torment that lasted

five years. As Julie had to care for their son, her life must have been even more challenging.

Fortunately, it was all coming to an end today. He was no longer the person he once was. He vowed never to cause Julie sorrow again.

At that moment, Liam made a solemn promise within his heart. He would give Julie the best and protect her from any harm.

Their emotional reunion in the hotel was disrupted by a middle-aged woman's cursing, startling Liam.

To his surprise, it was Yesenia!

Frowning, Liam wondered how she had returned to Salem after he had sent her away.

Yesenia noticed Liam on stage and loudly shouted, "Julie, come here. Are you still considering being with him?"

She then glanced disdainfully at Liam and said, "He's not who he used to be. He's not the Hoffman family's heir or the president of Kingland Group. He's just a homeless failure being hunted by people outside! Stay away from him."

Liam's eyes turned cold at her words.

He was furious at being labeled a 'homeless failure.' If she wasn't Julie's biological mother, he might have already killed her.

Taking a deep breath, Liam warned, "Mind your words. You have no right to interfere with our life. If you make such remarks again, I won't hesitate to send you somewhere far away, and you won't have the chance to return!"

His icy glare made Yesenia shiver. Recalling past experiences, she stepped back, choosing not to continue.

Seeing this, Julie appealed to Liam, "Liam, my mother has changed her ways. I hope you can let go of past biases and get along with her in the future. After all, she's still my mother."

Liam was baffled by Julie's words.

Yesenia had attempted to kill Ulises, Julie's father, in the past. Though it had been unsuccessful, his demise in the end was still linked to her.

How could Julie reconcile with her mother given such circumstances?

Despite his confusion, Liam remained convinced that Yesenia wouldn't change for the better. She still held onto her snobbish traits, as before.

Nevertheless, he had just returned, and there were certain matters he wasn't eager to immediately confirm or confront. Considering Julie's words, he nodded in accord with her request.
